GENERAL INFORMATION PERTAINING TO WATER RIGHTS IN CALIFORNIA

There are two principal types of surface water rights in California. They are riparian and appropriative rights.

A riparian right enables an owner of land bordering a natural lake or stream to take and use water on his riparian land. Riparian land must be in the same watershed as the water source and must never have been severed from the sources of supply by an intervening parcel without reservation of the riparian right to the severed parcel. Generally, a riparian water user must share the water supply with other riparian users. Riparian rights may be used to divert the natural flow of a stream but may not be used to store water for later use or to divert water which originates in a different watershed, or return flows from use of groundwater.

An appropriate right is required for use of water on nonriparian land and for storage of water. Generally, appropriative rights may be exercised only when there is a surplus not needed by riparian water users. Since 1914 new appropriators have been required to obtain a permit and license from the State.

Statements of Water Diversion and Use must be filed by riparian and pre-1914 appropriative water users. The filing of a statement (1) provides a record of water use, (2) enables the State to notify such users if someone proposes a new appropriation upstream from their diversion, and (3) assists the State to determine if additional water is available for future appropriators.

The above discussion is provided for general information. For more specific information concerning water rights, please contact an attorney or write to this office. We have several pamphlets available. They include:

"Statements of Water Diversion and Use"
"Information Pertaining to Water Rights in California"
"Water Rights for Stockponds Constructed Prior to 1969"
"Appropriation of Water in California"

TO ALL WATER USERS FILING SUPPLEMENTAL STATEMENTS OF WATER DIVERSION AND USE

Enclosed are your Supplemental Statement of Water Diversion and Use Form (WR 40-1) for 1994 and a Statement of Water Diversion and Use Information Sheet.

All Supplemental Statements of Water Diversion and Use (Statements) should be postmarked no later than June 30, 1995 for delivery to the State Water Resources Control Board (SWRCB). You are responsible to notify SWRCB prior to April 28, 1995 if you do not receive Statements for your previously filed diversions. The SWRCB will then prepare and mail the additional Statement forms for your completion and return to SWRCB.

If you do not file your Statements for five consecutive years, you will be considered inactive and SWRCB will no longer mail you Statements for your diversions. If you wish to reactivate an inactive Statement, you must notify us in writing.

The enclosed Statement is a revised and shortened version of the old 8½" X 14" reporting form. Since we have converted to a new database system to input water right data onto this form, we ask for your assistance in correcting any errors that may exist in our database. Please review the information in the upper half of the Notice and note any corrections or additions that may be needed (e.g., current ownership, address, phone number, etc.).

Please complete an enclosed Statement Information Sheet to the best of your knowledge for each diversion to help us update our new database. Indicate on the information sheet the owner, lessee, or agent who is designated to receive all correspondence and reporting forms, and verify that the name and address on the report form is correct. Please provide all legal owners and the parcel number for each diversion, and the parcel number(s) for all place(s) of use on the Statement Information Sheet.

Please complete the enclosed Statement and the Statement of Water Diversion and Use Information Sheet to the best of your knowledge. Return both forms to SWRCB. These forms should be postmarked on or before June 30, 1995. Contact Wynne Rowlands of this office at (916) 657-1875 if you need assistance.

Sincerely,

Murt Lininger
