GENERAL INFORMATION PERTAINING TO WATER RIGHTS IN CALIFORNIA

There are two principal types of surface water rights in California. They are riparian and appropriative rights.

A riparian right enables an owner of land bordering a natural lake or stream to take and use water on his riparian land. Riparian land must be in the same watershed as the water source and must never have been severed from the sources of supply by an intervening parcel without reservation of the riparian right to the severed parcel. Generally, a riparian water user must share the water supply with other riparian users. Riparian rights may be used to divert the natural flow of a stream but may not be used to store water for later use or to divert water which originates in a different watershed, or return flows from use of groundwater.

An appropriate right is required for use of water on nonriparian land and for storage of water. Generally, appropriative rights may be exercised only when there is a surplus not needed by riparian water users. Since 1914 new appropriators have been required to obtain a permit and license from the State.

Statements of Water Diversion and Use must be filed by riparian and pre-1914 appropriative water users. The filing of a statement (1) provides a record of water use, (2) enables the State to notify such users if someone proposes a new appropriation upstream from their diversion, and (3) assists the State to determine if additional water is available for future appropriators.

The above discussion is provided for general information. For more specific information concerning water rights, please contact an attorney or write to this office. We have several pamphlets available. They include:

"Statements of Water Diversion and Use"
"Information Pertaining to Water Rights in California"
"Water Rights for Stockponds Constructed Prior to 1969"
"Appropriation of Water in California"

Gentlemen:-

I have been very ill during this past year having been hospitalized twice and almost passed away due to a breathing problem. As a result I lost the form you sent me to be filled out every three years.

I still am not quite myself, my eyesight being bad and I am under constant care.

Please send me a duplicate form which I will fill out, God willing, and return it to you.

With best wishes, I remain

November 15, 1993

Mr. Anton,

We are writing to you in order to secure or re-establish riparian use water rights for our property located at [illegible] Highway 175 Middletown, CA 95461. The property was acquired from the previous owners Mr. and Mrs. Andrew [illegible] Casazza (both deceased) in September [illegible] 1991. If you refer to the attached enclosure of a letter Mr. Casazza wrote to your agency in 1979, you find that he had filed the [illegible] [illegible] agency. We are also unable to verify whether Mrs. Casazza had continued to renew the appropriate paperwork every three years after the death of her husband, [illegible] acquisition of the property.

At this point, we are contacting you in an attempt to verify what our status is as the current owners. We would like to know what if any paperwork is required to be filed in order to use water from the creek on our property for recreational and landscape irrigation use with an estimated usage of well below 4500 G.P.D. The property is approximately 2.75 acres, with less than 1/2 acre of

actual "lawn" area. It is my understanding, though, that as the creek water is not actually used for household purposes (plumbing fixtures, drinking water supply, etc.) a "Small Domestic Use Permit" is inapplicable in our case.

As we have been named defendants in the Putah Creek lawsuit filed by Solano County, we would also like to know what paperwork would be involved in transferring our water rights to our son, who we would like to represent us during the court proceedings.

Any and all information that you would be able to provide us in these matters would be most appreciated. Thank you very much for your time and concern.

Sincerely,

George Schubert
