

CALIFORNIA REGIONAL WATER QUALITY CONTROL BOARD  
CENTRAL VALLEY REGION

CLEANUP AND ABATEMENT ORDER NO. R5-2002-0728  
FOR  
A MORATORIUM ON THE DISPOSAL OF DECOMMISSIONED MATERIALS TO  
CLASS III AND UNCLASSIFIED WASTE MANAGEMENT UNITS

The Executive Officer of the Central Valley Regional Water Quality Control Board (Regional Board) finds that:

1. Attachment 1 contains a list of the Class III and unclassified waste management units in the region which are subject to this Order.
2. The disposal of radioactive waste is a highly regulated industry.
3. The federal Atomic Energy Act (AEA) established a comprehensive federal program for regulating radioactive materials.
4. The AEA allows States to regulate the disposal of low level radioactive waste.
5. The Department of Health Services (DHS), pursuant to state law, established a program for the disposal of low level radioactive waste.
6. Under the DHS program, low level radioactive waste is disposed at licensed disposal sites.
7. It has recently been determined that certain types of low level radioactive waste, known as decommissioned materials, are not required to be disposed at licensed sites.
8. Decommissioned materials are radioactive materials in excess of local background levels that have been released for unrestricted use as part of a decommissioning action by the appropriate state or federal agency.
9. Decommissioned materials are residual radioactive materials that can be disposed of in waste management units.
10. In the absence of further action, decommissioned materials would be allowed to be disposed at Class III and unclassified waste management units.
11. Class III waste management units are disposal sites designed to accept municipal waste.
12. Unclassified waste management units are disposal sites that receive inert waste.
13. The disposal of hazardous waste is prohibited at Class III and unclassified sites.

14. Decommissioned material is not covered by the definition of hazardous waste.
15. Under Water Code section 13304, a Cleanup and Abatement Order may be issued to take remedial action to abate the effects of discharges of waste, including radioactive waste, which threaten to cause a condition of pollution or nuisance.
16. The disposal of decommissioned materials at Class III and unclassified disposal sites threatens conditions of pollution or nuisance.
17. Executive Order No. D-62-02 by the Governor, directs the State Water Resources Control Board and the Regional Boards to impose a moratorium on the disposal of decommissioned materials into Class III and unclassified waste management units, which will remain in effect until DHS completes its assessment of the public health and environmental safety risks associated with the disposal of decommissioned materials and its regulations setting dose standards for decommissioning take effect.
18. Adoption of this enforcement action is exempt from the California Environmental Quality Act pursuant to Title 14, California Code of Regulations section 15321.

IT IS HEREBY ORDERED that, pursuant to Water Code section 13304 and Executive Order No. D-62-02, the Dischargers named in Attachment I shall comply with the following:

1. A moratorium on the disposal of decommissioned material from decommissioned sites into Class III and unclassified waste management units is established.
2. This moratorium shall remain in effect until DHS completes its assessment of the public health and environmental safety risks associated with the disposal of decommissioned materials and its regulations setting dose standards for decommissioning take effect.
3. Dischargers that make a good faith effort to comply with this moratorium, including informing generators and other entities that dispose of waste of the moratorium, and placing appropriate signage at its waste management units, shall be deemed to be in compliance with this order.

This order is effective upon the date of signature.

**CLEANUP AND ABATEMENT ORDER NO. R5-2002-0728 FOR A MORATORIUM ON THE DISPOSAL OF DECOMMISSIONED MATERIALS TO CLASS III AND UNCLASSIFIED WASTE MANAGEMENT UNITS**

Executive Order No. D-62-02 issued by the Governor directs the State Water Resources Control Board and the Regional Water Quality Control Boards to impose a moratorium on the disposal of decommissioned materials into Class III and unclassified waste management units. Decommissioned materials are radioactive materials in excess of local background levels that have been released for unrestricted use as part of a decommissioning action by the Department of Health Services. This moratorium will remain in effect until the Department of Health Services completes its assessment of the public health and environmental safety risks associated with the disposal of decommissioned materials and its regulations setting dose standards for decommissioning take effect.

Cleanup and Abatement Order (CAO) No. R5-2002-0728 (enclosed) implements the moratorium for facilities in the Central Valley Region. Your facility, regulated by Waste Discharge Requirements Order No. 98-227, is named in the CAO because the facility includes a Class III or Unclassified landfill. The CAO prohibits the discharge of decommissioned materials at these waste management units. Dischargers that make a good faith effort to comply with this moratorium, including informing generators and other entities that dispose of waste about the moratorium, and placing appropriate signage at its waste management units, shall be deemed to be in compliance with this order.

Any person affected by this action of the Regional Board may petition the State Water Resources Control Board to review the action in accordance with Sections 2050 through 2068, Title 23, California Code of Regulations. The petition must be received by the State Water Resources Control Board, Office of Chief Counsel, P.O. Box 100, Sacramento, California 95812, within 30 days of the date of issuance of this Order. Copies of the laws and regulations applicable to the filing of a petition are available on the Internet at [http://www.swrcb.ca.gov/water\\_laws/index.html](http://www.swrcb.ca.gov/water_laws/index.html) and will be provided on request.

If you have any questions, please call Peter Osmolovski at 559-445-6086.

**CLEANUP AND ABATEMENT ORDER NO. R5-2002-0728 FOR A MORATORIUM ON THE DISPOSAL OF DECOMMISSIONED MATERIALS TO CLASS III AND UNCLASSIFIED WASTE MANAGEMENT UNITS**

Executive Order No. D-62-02 issued by the Governor directs the State Water Resources Control Board and the Regional Water Quality Control Boards to impose a moratorium on the disposal of decommissioned materials into Class III and unclassified waste management units. Decommissioned materials are radioactive materials in excess of local background levels that have been released for unrestricted use as part of a decommissioning action by the Department of Health Services. This moratorium will remain in effect until the Department of Health Services completes its assessment of the public health and environmental safety risks associated with the disposal of decommissioned materials and its regulations setting dose standards for decommissioning take effect.

Cleanup and Abatement Order (CAO) No. R5-2002-0728 (enclosed) implements the moratorium for facilities in the Central Valley Region. Your facility, regulated by Waste Discharge Requirements Order No. 98-058, is named in the CAO because the facility includes a Class III or Unclassified landfill. The CAO prohibits the discharge of decommissioned materials at these waste management units. Dischargers that make a good faith effort to comply with this moratorium, including informing generators and other entities that dispose of waste about the moratorium, and placing appropriate signage at its waste management units, shall be deemed to be in compliance with this order.

Any person affected by this action of the Regional Board may petition the State Water Resources Control Board to review the action in accordance with Sections 2050 through 2068, Title 23, California Code of Regulations. The petition must be received by the State Water Resources Control Board, Office of Chief Counsel, P.O. Box 100, Sacramento, California 95812, within 30 days of the date of issuance of this Order. Copies of the laws and regulations applicable to the filing of a petition are available on the Internet at [http://www.swrcb.ca.gov/water\\_laws/index.html](http://www.swrcb.ca.gov/water_laws/index.html) and will be provided on request.

If you have any questions, please call James Dowdall at 559-445-5108.

### **CLEANUP AND ABATEMENT ORDER NO. R5-2002-0728 FOR A MORATORIUM ON THE DISPOSAL OF DECOMMISSIONED MATERIALS TO CLASS III AND UNCLASSIFIED WASTE MANAGEMENT UNITS**

Executive Order No. D-62-02 issued by the Governor directs the State Water Resources Control Board and the Regional Water Quality Control Boards to impose a moratorium on the disposal of decommissioned materials into Class III and unclassified waste management units. Decommissioned materials are radioactive materials in excess of local background levels that have been released for unrestricted use as part of a decommissioning action by the Department of Health Services. This moratorium will remain in effect until the Department of Health Services completes its assessment of the public health and environmental safety risks associated with the disposal of decommissioned materials and its regulations setting dose standards for decommissioning take effect.

Cleanup and Abatement Order (CAO) No. R5-2002-0728 (enclosed) implements the moratorium for facilities in the Central Valley Region. Your facility, regulated by Waste Discharge Requirements Order No. 95-161, is named in the CAO because the facility includes a Class III or Unclassified landfill. The CAO prohibits the discharge of decommissioned materials at these waste management units. Dischargers that make a good faith effort to comply with this moratorium, including informing generators and other entities that dispose of waste about the moratorium, and placing appropriate signage at its waste management units, shall be deemed to be in compliance with this order.

Any person affected by this action of the Regional Board may petition the State Water Resources Control Board to review the action in accordance with Sections 2050 through 2068, Title 23, California Code of Regulations. The petition must be received by the State Water Resources Control Board, Office of Chief Counsel, P.O. Box 100, Sacramento, California 95812, within 30 days of the date of issuance of this Order. Copies of the laws and regulations applicable to the filing of a petition are available on the Internet at [http://www.swrcb.ca.gov/water\\_laws/index.html](http://www.swrcb.ca.gov/water_laws/index.html) and will be provided on request.

If you have any questions, please call Rob Busby at 916-255-3136.

**CLEANUP AND ABATEMENT ORDER NO. R5-2002-0728 FOR A MORATORIUM ON THE DISPOSAL OF DECOMMISSIONED MATERIALS TO CLASS III AND UNCLASSIFIED WASTE MANAGEMENT UNITS**

Executive Order No. D-62-02 issued by the Governor directs the State Water Resources Control Board and the Regional Water Quality Control Boards to impose a moratorium on the disposal of decommissioned materials into Class III and unclassified waste management units. Decommissioned materials are radioactive materials in excess of local background levels that have been released for unrestricted use as part of a decommissioning action by the Department of Health Services. This moratorium will remain in effect until the Department of Health Services completes its assessment of the public health and environmental safety risks associated with the disposal of decommissioned materials and its regulations setting dose standards for decommissioning take effect.

Cleanup and Abatement Order (CAO) No. R5-2002-0728 (enclosed) implements the moratorium for facilities in the Central Valley Region. Your facility, regulated by Waste Discharge Requirements Order No. 02-0171, is named in the CAO because the facility includes a Class III or Unclassified landfill. The CAO prohibits the discharge of decommissioned materials at these waste management units. Dischargers that make a good faith effort to comply with this moratorium, including informing generators and other entities that dispose of waste about the moratorium, and placing appropriate signage at its waste management units, shall be deemed to be in compliance with this order.

Any person affected by this action of the Regional Board may petition the State Water Resources Control Board to review the action in accordance with Sections 2050 through 2068, Title 23, California Code of Regulations. The petition must be received by the State Water Resources Control Board, Office of Chief Counsel, P.O. Box 100, Sacramento, California 95812, within 30 days of the date of issuance of this Order. Copies of the laws and regulations applicable to the filing of a petition are available on the Internet at [http://www.swrcb.ca.gov/water\\_laws/index.html](http://www.swrcb.ca.gov/water_laws/index.html) and will be provided on request.

**CLEANUP AND ABATEMENT ORDER NO. R5-2002-0728 FOR A MORATORIUM ON THE DISPOSAL OF DECOMMISSIONED MATERIALS TO CLASS III AND UNCLASSIFIED WASTE MANAGEMENT UNITS**

Executive Order No. D-62-02 issued by the Governor directs the State Water Resources Control Board and the Regional Water Quality Control Boards to impose a moratorium on the disposal of decommissioned materials into Class III and unclassified waste management units. Decommissioned materials are radioactive materials in excess of local background levels that have been released for unrestricted use as part of a decommissioning action by the Department of Health Services. This moratorium will remain in effect until the Department of Health Services completes its assessment of the public health and environmental safety risks associated with the disposal of decommissioned materials and its regulations setting dose standards for decommissioning take effect.

Cleanup and Abatement Order (CAO) No. R5-2002-0728 (enclosed) implements the moratorium for facilities in the Central Valley Region. Your facility, regulated by Waste Discharge Requirements Order No. 01-174, is named in the CAO because the facility includes a Class III or Unclassified landfill. The CAO prohibits the discharge of decommissioned materials at these waste management units. Dischargers that make a good faith effort to comply with this moratorium, including informing generators and other entities that dispose of waste about the moratorium, and placing appropriate signage at its waste management units, shall be deemed to be in compliance with this order.

Any person affected by this action of the Regional Board may petition the State Water Resources Control Board to review the action in accordance with Sections 2050 through 2068, Title 23, California Code of Regulations. The petition must be received by the State Water Resources Control Board, Office of Chief Counsel, P.O. Box 100, Sacramento, California 95812, within 30 days of the date of issuance of this Order. Copies of the laws and regulations applicable to the filing of a petition are available on the Internet at [http://www.swrcb.ca.gov/water\\_laws/index.html](http://www.swrcb.ca.gov/water_laws/index.html) and will be provided on request.

**CLEANUP AND ABATEMENT ORDER NO. R5-2002-0728 FOR A MORATORIUM ON THE DISPOSAL OF DECOMMISSIONED MATERIALS TO CLASS III AND UNCLASSIFIED WASTE MANAGEMENT UNITS**

Executive Order No. D-62-02 issued by the Governor directs the State Water Resources Control Board and the Regional Water Quality Control Boards to impose a moratorium on the disposal of decommissioned materials into Class III and unclassified waste management units. Decommissioned materials are radioactive materials in excess of local background levels that have been released for unrestricted use as part of a decommissioning action by the Department of Health Services. This moratorium will remain in effect until the Department of Health Services completes its assessment of the public health and environmental safety risks associated with the disposal of decommissioned materials and its regulations setting dose standards for decommissioning take effect.

Cleanup and Abatement Order (CAO) No. R5-2002-0728 (enclosed) implements the moratorium for facilities in the Central Valley Region. Your facility, regulated by Waste Discharge Requirements Order No. 94-258, is named in the CAO because the facility includes a Class III or Unclassified landfill. The CAO prohibits the discharge of decommissioned materials at these waste management units. Dischargers that make a good faith effort to comply with this moratorium, including informing generators and other entities that dispose of waste about the moratorium, and placing appropriate signage at its waste management units, shall be deemed to be in compliance with this order.

Any person affected by this action of the Regional Board may petition the State Water Resources Control Board to review the action in accordance with Sections 2050 through 2068, Title 23, California Code of Regulations. The petition must be received by the State Water Resources Control Board, Office of Chief Counsel, P.O. Box 100, Sacramento, California 95812, within 30 days of the date of issuance of this Order. Copies of the laws and regulations applicable to the filing of a petition are available on the Internet at [http://www.swrcb.ca.gov/water\\_laws/index.html](http://www.swrcb.ca.gov/water_laws/index.html) and will be provided on request.

### **CLEANUP AND ABATEMENT ORDER NO. R5-2002-0728 FOR A MORATORIUM ON THE DISPOSAL OF DECOMMISSIONED MATERIALS TO CLASS III AND UNCLASSIFIED WASTE MANAGEMENT UNITS**

Executive Order No. D-62-02 issued by the Governor directs the State Water Resources Control Board and the Regional Water Quality Control Boards to impose a moratorium on the disposal of decommissioned materials into Class III and unclassified waste management units. Decommissioned materials are radioactive materials in excess of local background levels that have been released for unrestricted use as part of a decommissioning action by the Department of Health Services. This moratorium will remain in effect until the Department of Health Services completes its assessment of the public health and environmental safety risks associated with the disposal of decommissioned materials and its regulations setting dose standards for decommissioning take effect.

Cleanup and Abatement Order (CAO) No. R5-2002-0728 (enclosed) implements the moratorium for facilities in the Central Valley Region. Your facility, regulated by Waste Discharge Requirements Order No. 01-097, is named in the CAO because the facility includes a Class III or Unclassified landfill. The CAO prohibits the discharge of decommissioned materials at these waste management units. Dischargers that make a good faith effort to comply with this moratorium, including informing generators and other entities that dispose of waste about the moratorium, and placing appropriate signage at its waste management units, shall be deemed to be in compliance with this order.

Any person affected by this action of the Regional Board may petition the State Water Resources Control Board to review the action in accordance with Sections 2050 through 2068, Title 23, California Code of Regulations. The petition must be received by the State Water Resources Control Board, Office of Chief Counsel, P.O. Box 100, Sacramento, California 95812, within 30 days of the date of issuance of this Order. Copies of the laws and regulations applicable to the filing of a petition are available on the Internet at [http://www.swrcb.ca.gov/water\\_laws/index.html](http://www.swrcb.ca.gov/water_laws/index.html) and will be provided on request.

If you have any questions, please call Scott Moore at 559-445-5170.
