Re: Statements of Water Diversion and Use - 2007

Dear Mr. Yosgott:

As discussed during today's phone conversation, enclosed are copies of the 2004 Statements of Water Diversion and Use as filed, and which we did not receive forms for reporting the 2004, 2005 and 2006 water use from these diversions.

Your efforts in helping keep these files up dated and complete is appreciated.

Sincerely,

W. M. BEATY & ASSOCIATES, INC.

GENERAL INFORMATION PERTAINING TO WATER RIGHTS IN CALIFORNIA

There are two principal types of surface water rights in California. They are riparian and appropriative rights.

A riparian right enables an owner of land bordering a natural lake or stream to take and use water on his riparian land. Riparian land must be in the same watershed as the water source and must never have been severed from the sources of supply by an intervening parcel without reservation of the riparian right to the severed parcel. Generally, a riparian water user must share the water supply with other riparian users. Riparian rights may be used to divert the natural flow of a stream but may not be used to store water for later use or divert water which originates in a different watershed, water previously stored by others, return flows from use of groundwater, or other "foreign" water to the natural stream system.

An appropriative right is required for use of water on nonriparian land and for storage of water. Generally, appropriative rights may be exercised only when there is a surplus not needed by riparian water users. Since 1914, new appropriators have been required to obtain a permit and license from the State. Appropriate rights can be granted to waters "foreign" to the natural stream system.

Statements of Water Diversion and Use must be filed by riparian and pre 1914 appropriative water users as set forth in Water Code section 5100 with specific exceptions. The filing of a statement (1) provides a record of water use, (2) enables the State to notify such users if someone proposes a new appropriation upstream from their diversions, and (3) assists the State to determine if additional water is available for future appropriators.

The above discussion is provided for general information. For more specific information concerning water rights, please contact an attorney or write to this office. We have several pamphlets available. They include: (1) Statements of Water Diversion and Use, (2) Information Pertaining to Water Rights in California, and (3) Appropriation of Water in California.

Subject: Supplemental Statements, correct mailing address for agent
Date: 3/11/09 Time:
Personal: Where: WR
Telephone: 530 Number: 245-2783

Individual(s)/Agency Contacted: Mr. Len Lindstrand with W M Beaty & Associates, Inc.

Conversation Description: An inquiry was referred to this office to obtain supplemental forms for 42 Statements and to correct the mailing address for W M Beaty & Associates, Inc. who represents these claimants. Mr. Lindstrand asked that we change the PO Box from 496014 to 990898 and the zip code to 96099-0898.

Regard to copying, I informed Mr. Lindstrand that form to report use from 2003 through 2006 is not long in the Division's system. I advised that we ran copies of the basic data on each Statement his office represent and a blank supplemental form presently being used. Recommended that he complete the questions on the current forms and attach the basic data to corresponding supplemental Statement. He understood my suggest and will proceed in that manner.

Decision(s): sent the material to create and report on the water use under the supplemental statements. Forward to DMU to perform a mass correction in eWRIMS.

Action Items: Send forms to Mr. Lindstrand and will file this contact report under S001079, being the lowest number of the 42 Statements
