Subject: Supplemental Statements of Water Diversion and Use

Attn: Pat Miner, Engineering Technician

Please note that the Kaweah & St. Johns Rivers Association is made up of group of pre-1914 water rights appropriators that divert water from the Kaweah River System below Terminus Dam (Lake Kaweah). The Association performs many duties for its members, including the recording and reporting of headgate diversions. The Association has been processing *Supplemental Statements of Water Diversion and Use* for its members since inception by the State.

The Association hereby notifies the State that it will be acting as authorized agent for the appropriators with reference to the respective Supplemental Statement Number as listed on the attached page. The Association respectfully requests all future supplemental statements be sent directly to our attention. Please contact me if you have any question or comments regarding this matter.

Respectfully,

Larry Dotson, RCE
Senior Engineer

2004	24	0	3	14	0	88	0	0	0	0	0	0	**129**

D. **Purpose of Use** - Specify number of acres irrigated, stock watered, persons served, etc.

Irrigation **260** acres; Stockwatering _____; Domestic _____;

Other (specify) _____

E. **Changes in Method of Diversion** - Describe any changes in your project since your previous statement was filed.
(New pump, enlarged diversion dam, location of diversion, etc.)

_____

F. Please answer only those questions below which are applicable to your project.

1. Conservation of water
   a. Are you now employing water conservation efforts? YES ____ NO ✓

   Describe any water conservation efforts you have initiated: _____

   b. If you are claiming credit for water conservation under section 1011 of the Water Code for your claimed pre-1914 appropriative right, please show the amounts of water conserved:

   Reductions in Diversions:

   Year_____ _____(AF/MG) Year_____ _____(AF/MG) Year_____ _____(AF/MG)

   Reductions in consumptive use:

   Year_____ _____(AF/MG) Year_____ _____(AF/MG) Year_____ _____(AF/MG)

   I have data to support the above surface water use reductions due to conservation efforts. YES ____ NO ____

2. Water quality and wastewater reclamation

a. Are you now or have you been using reclaimed water from a wastewater treatment facility, desalination facility or water polluted by waste to a degree which unreasonably affects such water for other beneficial uses? YES ____ NO ✓

b. If you are claiming credit due to the substitution of reclaimed water, desalinated water or polluted water in lieu of a claimed pre-1914 appropriative water right under section 1010 of the Water Code, please show amounts of reduced diversions and amounts of substitute water supply used:

Amount of reduced diversion:

Year_____ _____(AF/MG) Year_____ _____(AF/MG) Year_____ _____(AF/MG)

State the type of substitute water supply: _____

Amount of substitute water supply used:

Year_____ _____(AF/MG) Year_____ _____(AF/MG) Year_____ _____(AF/MG)

I have data to support the above surface water use reductions due to the use of a substitute supply. YES _____ NO _____

3. Conjunctive use of surface water and groundwater

a. Are you now using groundwater in lieu of surface water? YES ____ NO ✓

b. If you are claiming credit due to the substitution of groundwater for a claimed pre-1914 appropriative right under section 1011.5 of the Water Code, please show the amounts of groundwater used:

Year_____ _____(AF/MG) Year_____ _____(AF/MG) Year_____ _____(AF/MG)

I have data to support the above surface water use reductions due to conjunctive use efforts. YES ____ NO ____

I understand that it may be necessary to document the water savings claimed in "F." above if credit under Water Code sections 1010 and 1011 is sought in the future.

I declare that the information in this report is true to the best of my knowledge and belief.

ITEM	CONTINUATION

GENERAL INFORMATION PERTAINING TO WATER RIGHTS IN CALIFORNIA

There are two principal types of surface water rights in California. They are riparian and appropriative rights.

A riparian right enables an owner of land bordering a natural lake or stream to take and use water on his riparian land. Riparian land must be in the same watershed as the water source and must never have been severed from the sources of supply by an intervening parcel without reservation of the riparian right to the severed parcel. Generally, a riparian water user must share the water supply with other riparian users. Riparian rights may be used to divert the natural flow of a stream but may not be used to store water for later use or divert water which originates in a different watershed, water previously stored by others, return flows from use of groundwater, or other "foreign" water to the natural stream system.

An appropriative right is required for use of water on nonriparian land and for storage of water. Generally, appropriative rights may be exercised only when there is a surplus not needed by riparian water users. Since 1914, new appropriators have been required to obtain a permit and license from the State. Appropriate rights can be granted to waters "foreign" to the natural stream system.

Statements of Water Diversion and Use must be filed by riparian and pre 1914 appropriative water users as set forth in Water Code section 5100 with specific exceptions. The filing of a statement (1) provides a record of water use, (2) enables the State to notify such users if someone proposes a new appropriation upstream from their diversions, and (3) assists the State to determine if additional water is available for future appropriators.

The above discussion is provided for general information. For more specific information concerning water rights, please contact an attorney or write to this office. We have several pamphlets available. They include: (1) Statements of Water Diversion and Use, (2) Information Pertaining to Water Rights in California, and (3) Appropriation of Water in California.

ITEM	CONTINUATION

GENERAL INFORMATION PERTAINING TO WATER RIGHTS IN CALIFORNIA

There are two principal types of surface water rights in California, riparian and appropriative rights.

A riparian right enables an owner of land bordering a natural lake or stream to take and use water on their riparian land. Riparian land must be in the same watershed as the water source and must never have been severed from the sources of supply by an intervening parcel without reservation of the riparian right to the severed parcel. Generally, a riparian water user must share the water supply with other riparian users. Riparian rights may be used to divert the natural flow of a stream but may not be used to store water for later use or to divert water which originates in a different watershed, or return flows from use of groundwater.

An appropriative right is required for use of water on nonriparian land and for storage of water. Generally, appropriative rights may be exercised only when there is a surplus not needed by riparian water users. Since 1914 new appropriators have been required to obtain a permit and license from the State.

Statements of Water Diversion and Use must be filed by riparian and pre-1914 appropriative water users. The filing of a statement (1) provides a record of water use, (2) enables the State to notify such users if someone proposes a new appropriation upstream from their diversion, and (3) assists the State to determine if additional water is available for future appropriators.

The above discussion is provided for general information. For more specific information concerning water rights, please contact an attorney or write to this office. We have several pamphlets available, including the following:

"Statements of Water Diversion and Use"
"Information Pertaining to Water Rights in California"
"Water Rights for Stockponds Constructed Prior to 1969"
"Appropriation of Water in California"

STATEMENT OF WATER DIVERSION AND USE

S 1154

This statement should be typewritten or legibly written in ink.

A. Name of person diverting water Elinor H. Black 94025

Address 112 Yale Road, Menlo Park, California

B. Name of body of water at point of diversion St Johns River

Tributary to Cross Ck to Tule R. ~~Kaweah~~ River

C. Place of diversion SE ¼ SW ¼ Section 34, Township 17 S, Range 24 E, MD B&M, Tulare County, or locate it on sketch of section grid on reverse side with regard to section lines or prominent local landmarks.

D. Name of works Harrell Ranch Lower Diversion

E. Capacity of diversion works 75 cubic feet per second

Capacity of storage reservoir None gallons / acre-feet

State quantity of water used each month in gallons or acre-feet

Year	Jan.	Feb.	Mar.	Apr.	May	June	July	Aug	Sept.	Oct.	Nov.	Dec.	Total Annual
1966	0	0	0	0	112	207	0	0	0	0	0	89	408 AF

If monthly and annual use are not known, check months in which water was used. State extent of use in units, such as acres of each crop irrigated, average number of persons served, number of stock watered, etc.

Maximum annual water use in recent years 700 (Estimated) acre-feet

Minimum annual water use in recent years 0 gallons / acre-feet

Type of diversion facility: gravity X, pump

Method of measurement: weir, flume, electric power meter, water meter, estimate

Head difference at screwgate X

F. Purpose of use (what water is being used for)

Irrigation

G. General description or location of place of use (use sketch of section grid on reverse side if you desire)

See attached map

H. Year of first use as nearly as known 1898

RECORDED AT REQUEST OF Harrell J. Harrell

JUN 16 1967 TIME 9 am FEE 2.50

OFFICIAL RECORDS TULARE COUNTY CALIF.

I. Name of person filing statement Elinor H. Black

Position Owner Organization C. Ralph Howard, County Recorder

Address 112 Yale Road, Menlo Park, California

I certify that the foregoing statements are true and correct to the best of my knowledge and belief.

Date signed June 16 1967

Signature Elinor H Black, Robert E Harrell, agent
