PRIMARY CONTACT OR AGENT FOR MAIL & REPORTING:

BIG WHEELS RANCH ASSOCIATION

PO BOX 38
MONTGOMERY CREEK, CA 96065

Source Name: SPRING CREEK
Tributary To: HALL CREEK
County: Shasta
Diversion Within: NE1/4 of NE1/4 Section 18, T35N, R01E, MB&M

Year of First Use:
Parcel Number:

A. **Water is Used Under:** Riparian claim X Pre-1914 right _____ Other (explain): _____

B. **Year of First Use:** (Please provide if missing above) _____

C. **Amount of Use:** Enter the amount (or the approximate amount) of water used each month, using the table below.

Amounts below are in: Gallons _____ Million Gallons (MG) _____ Acre-feet (AF) _____ Other _____

Year	Jan	Feb	Mar	Apr	May	June	July	Aug	Sept	Oct	Nov	Dec	Total Annual
2002					3	6	6	6	6	3			30
2003					3	6	6	6	6	3			30
2004					3	6	6	6	6	3			30

D. **Purpose of Use** – Specify number of acres irrigated, stock watered, persons served, etc.

Irrigation 1 acres; Stockwatering _____; Domestic if needed;
Other (specify) Keep additional 9 acre pasture green

E. **Changes in Method of Diversion** – Describe any changes in your project since your previous statement was filed.
(New pump, enlarged diversion dam, location of diversion, etc.) N/A

F. Please answer only those questions below which are applicable to your project.

1. Conservation of water
   a. Are you now employing water conservation efforts? YES ___ NO X
   Describe any water conservation efforts you have initiated: _____

   b. If you are claiming credit for water conservation under section 1011 of the Water Code for your claimed pre-1914 appropriative right, please show the amount of water conserved:

   Reduction in Diversions:

   Year ____ _____ (AF/MG) Year ____ _____ (AF/MG) Year ____ _____ (AF/MG)

   Reduction in consumptive use:

   Year ____ _____ (AF/MG) Year ____ _____ (AF/MG) Year ____ _____ (AF/MG)

   I have data to support the above surface water use reductions due to conservation efforts. YES ____ NO ____

2. Water quality and wastewater reclamation

   a. Are you now or have you been using reclaimed water from a wastewater treatment facility, desalination facility or water polluted by waste to a degree which unreasonably affects such water for other beneficial uses? YES ____ NO X.

   b. If you are claiming credit due to the substitution of reclaimed water, desalinated water or polluted water in lieu of a claimed pre-1914 appropriative right under section 1010 of the Water Code, please show amounts of reduced diversions and amounts of substitute water supply used:

   Amount of reduced diversion:
   Year ____ _____ (AF/MG) Year ____ _____ (AF/MG) Year ____ _____ (AF/MG)

   State the type of substitute water supply: _____

   Amount of substitute water supply used:
   Year ____ _____ (AF/MG) Year ____ _____ (AF/MG) Year ____ _____ (AF/MG)

   I have data to support the above surface water use reductions due to the use of a substitute water supply. YES ____ NO ____.

3. Conjunctive use of surface water and groundwater

   a. Are you now using groundwater in lieu of surface water? YES X NO ____.

   b. If you are claiming credit due to the substitution of groundwater for a claimed pre-1914 appropriative right under section 1011.5 of the Water Code, please show the amounts of groundwater used:

   Year ____ _____ (AF/MG) Year ____ _____ (AF/MG) Year ____ _____ (AF/MG)

   I have data to support the above surface water use reductions due to the use of groundwater. YES ____ NO ____.

I understand that it may be necessary to document the water savings claimed in "F" above if credit under Water Code sections 1010 and 1011 is sought in the future.

I declare that the information in this report is true to the best of my knowledge and belief.

ITEM	CONTINUATION

GENERAL INFORMATION PERTAINING TO WATER RIGHTS IN CALIFORNIA

There are two principal types of surface water rights in California. They are riparian and appropriative rights.

A riparian right enables an owner of land bordering a natural lake or stream to take and use water on his riparian land. Riparian land must be in the same watershed as the water source and must never have been severed from the sources of supply by an intervening parcel without reservation of the riparian right to the severed parcel. Generally, a riparian water user must share the water supply with other riparian users. Riparian rights may be used to divert the natural flow of a stream but may not be used to store water for later use or to divert water which originates in a different watershed, water previously stored by others, return flows from use of groundwater, or other "foreign" water to the natural stream system.

An appropriative right is required for use of water on non-riparian land and for storage of water. Generally, appropriative rights may be exercised only when there is a surplus not needed by riparian water users. Since 1914, new appropriators have been required to obtain a permit and license from the State. Appropriative rights can be granted to waters "foreign" to the natural stream system.

Statements of Water Diversion and Use must be filed by riparian and pre-1914 appropriative water users as set forth in Water Code section 5100 with specific exceptions. The filing of a statement (1) provides a record of water use, (2) enables the State to notify such users if someone proposes a new appropriation upstream from their diversions, and (3) assists the State to determine if additional water is available for future appropriators.

The above discussion is provided for general information. For more specific information concerning water rights, please contact an attorney or write to this office. We have several pamphlets available. They include: (1) Statements of Water Diversion and Use, (2) Information Pertaining to Water Rights in California, and (3) Appropriation of Water in California.

File S-9473

CONTACT REPORT

INDIVIDUAL CONTACTED: Sally J. Sapp

DATE: January 8, 1993

DIVISION STAFF: Charles Rich

SUBJECT: ADDITIONAL INFORMATION REGARDING NEW AND OLD STATEMENTS OF WATER DIVERSION AND USE

Mrs. Sapp and her husband came into the office today to file five (5) Statements of Water Diversion and Use on behalf of her aunt, Betty J. Quijada. Mrs. Quijada owns the family ranch. However, she is very old and Mrs. Sapp is handling the paperwork for Mrs. Quijada.

The Quijada family originally owned about 160 acres. All but 40 acres has been sold over the years. Three (3) of the five (5) diversions are located on the present ranch property. The other two diversions were started when the ranch was larger and, apparently, the ranch has retained right of access to the diversion points. Mrs. Sapp stated that her aunt told her they had riparian rights.

A dispute has recently arisen between the ranch's tenant and a Mr. Rodriquez who lives upstream. Mrs. Sapp stated that she had written to the Division of Water Rights several weeks ago to file Statements. However, she didn't have a very good map and the Division had sent her back a copy of a map to fill out. Mrs. Sapp stated that this letter also contains a description of the problem with Mr. Rodriquez.

Statement 9473 held by Frederick E. Welch also covers diversion from Spring Creek in the immediate vicinity of the Quijada Ranch. I pulled the microfiche file on this Statement and reviewed it with the Sapp's. According to the map on file with this Statement, Mr. Welch also diverts water on the Quijada Ranch. Neither of the Sapp's recognized his name. Consequently, there is a possibility that:

- Mr. Welch's diversion takes place at a different location than he thinks;
- the Quijada Ranch diverts water at a different location than the Sapp's thought; or
- both sets of diversions are located as indicated and the Sapp's just are aware of Mr. Welch; especially since the ranch is run by a tenant.
