#### **Meeting Purpose:**

The Central Valley Water Board is developing a mercury control program for the American River Watershed. The purpose of this meeting is to provide an overview of the inorganic mercury, methylmercury, and sediment source analyses for the American River watershed and possible source control options.

#### **Goals:**

1. Discuss source assessment methods and initial results.
2. Brainstorm ideas for implementation options.

#### **Schedule:**

- Welcome, Introductions, and Agenda Review
- Source analysis background.
- Land use analyses.
- Sediment source load estimates.
- Inorganic mercury source load estimates.
- Methylmercury source load estimates.
- Possible implementation and source control options.
- Closing, Next Steps
