

CALIFORNIA REGIONAL WATER QUALITY CONTROL BOARD  
COLORADO RIVER BASIN REGION

ORDER NO. 86-65

WASTE DISCHARGE REQUIREMENTS  
FOR  
MASSEY SAND AND ROCK  
North of Indio - Riverside County

The California Regional Water Quality Control Board, Colorado River Basin Region, finds that:

1. Massey Sand and Rock Company (hereinafter also referred to as the discharger), P.O. Box 1767, Indio, California, 92202, verified the below updated information on the discharge of wastes on April 3, 1986.
2. The discharger is discharging a maximum total of 45,000 gallons-per-day of wastewater from facilities consisting of a washer at a sand and gravel processing plant, which discharges into three (3) unlined basins, and from a washer at an asphalt-sand processing plant, which discharges into two (2) asphalt-lined basins. The wastewater is recirculated for use in the washing operations, and is also spread on on-site roads for dust control. The disposal basins are located in the NE $\frac{1}{4}$  of the NE $\frac{1}{4}$  of Section 3, and the NW $\frac{1}{4}$  of the NW $\frac{1}{4}$  of Section 2, T5S, R7E, SBB&M.
3. The discharges from these industrial facilities have been subject to waste discharge requirements adopted in Board Order No. 81-7.
4. The Water Quality Control Plan for the Colorado River Basin Region of California was adopted by the Regional Board on November 14, 1984.
5. The beneficial uses of the ground water of the Coachella Hydrologic Subunit as stated in said Plan are:
  - a. Municipal supply
  - b. Industrial supply
  - c. Agricultural supply
6. The Board has notified the discharger and interested agencies and persons of its intent to update waste discharge requirements for the discharge.
7. The Board in a public meeting heard and considered all comments pertaining to the discharge.

8. These waste discharge requirements govern an existing facility, which the discharger is currently operating, and therefore is exempt from the provisions of the California Environmental Quality Act in accordance with Section 15301 of Title 14, Chapter 3 of the California Administrative Code.

IT IS HEREBY ORDERED, the discharger shall comply with the following:

A. Discharge Specifications

1. Neither the treatment nor the discharge of wastewater shall create a pollution or nuisance as defined in Division 7 of the California Water Code.
2. Infiltrating wastewaters shall not contain a total dissolved solids content in excess of 1150 mg/l.
3. Wastewater with a TDS in excess of the limit prescribed in Discharge Specification No. 2 (above) shall be retained in impervious basins with ultimate discharge at a location approved by the Regional Board, except that the use of this water for on-site dust control is not prohibited.
4. There shall be no surface flow of wastewater away from the designated disposal area.
5. Adequate protective works shall be provided to assure that flood or surface drainage waters do not erode or otherwise render portions of the disposal facilities inoperable.

B. Provisions

1. Prior to any material change in the quality or quantity of wastewater discharged, or any material change in the location of discharge, the discharger shall report thereon to the Board.
2. In the event of any change in control or ownership of land or waste disposal facilities owned or controlled by the discharger, the discharger shall:
  - a. Notify the Board of such change; and
  - b. Transmit a copy of this Order to the succeeding owner or operator, and file a copy of the transmittal letter with this Board.
3. The discharger shall comply with "Monitoring and Reporting Program No. 86-65", and future revisions thereto, as specified by the Executive Officer.
4. This Order supersedes Board Order No. 81-7.

I, Arthur Swajian, Executive Officer, do hereby certify the foregoing is a full, true and correct copy of an Order adopted by the California Regional Water Quality Control Board, Colorado River Basin Region, on November 19, 1986.
