

**STATE OF CALIFORNIA
CALIFORNIA ENVIRONMENTAL PROTECTION AGENCY
STATE WATER RESOURCES CONTROL BOARD**

DIVISION OF WATER RIGHTS

RIGHT TO DIVERT AND USE WATER

REGISTRATION L031466

CERTIFICATE L060

Right Holder: Jonathan Elder
1040 Omega Lane
Pilot Hill, CA 95664

The State Water Resources Control Board (State Water Board) authorizes the diversion and use of water by the right holder in accordance with the limitations and conditions herein SUBJECT TO PRIOR RIGHTS. The priority of this right dates from **November 25, 2003**. This right is issued in accordance with the State Water Board delegation of authority to the Deputy Director for Water Rights (Resolution 2012-0029) and the Deputy Director for Water Rights redelegation of authority dated July 6, 2012. The Deputy Director for Water Rights finds that this registration meets the requirements for registration of livestock stockpond use appropriation and that the registration renewal requirements have been met, therefore the registration is renewed. (Wat. Code, § 1228 et seq.)

Right holder is hereby granted a right to divert and use water as follows:

1. Source of water: **Unnamed Stream (aka Cooper Canyon)**

tributary to: **Pilot Creek thence North Fork American River thence American River thence the Sacramento River**

within the County of **El Dorado**

2. Location of place of storage

By California Coordinate System of 1983 in Zone 2	County	Assessor's Parcel Number
North 2,062,110 feet and East 6,835,412 feet	El Dorado	104-120-17-100

3. Purpose of use	4. Place of use	
	County	Assessor's Parcel Number
Stockwatering and the following incidental uses: Aesthetic, Recreational and Fish and Wildlife Preservation and Enhancement	El Dorado	104-120-17-100

The place of use is shown on map on file with the State Water Board.

5. Quantity and Season:

The water appropriated shall be limited to the quantity which can be beneficially used and shall not exceed **5 acre-feet per year** to be collected from November 1 of each year to June 14 of the succeeding year. The capacity of the reservoir shall not exceed **5.0 acre-feet**.

6. If construction or rehabilitation work is required for the diversion works covered by this right within the bed, channel, or bank of any river, stream, or lake, then prior to commencement of work, right holder shall provide notification of lake or streambed alteration to the California Department of Fish and Wildlife, and either (1) provide the Division of Water Rights a copy of a lake or streambed alteration agreement between the California Department of Fish and Wildlife and the right holder for the project covered by this right, or (2) provide the Division of Water Rights a copy of a letter signed by the California Department of Fish and Wildlife indicating that an agreement is not necessary for the project covered by this right. (Fish & G. Code, § 1600 et seq.)
7. No water shall be diverted or used under this right, and no construction related to such diversion shall commence, unless right holder has obtained and is in compliance with all necessary permits or other approvals required by other agencies.
8. Diversion works shall be constructed and water applied to beneficial use with due diligence.
9. No water shall be diverted under this right unless right holder complies with all lawful conditions required by the California Department of Fish and Wildlife. (Wat. Code, § 1228.6, subd. (a)(2).)
10. No water shall be diverted under this right unless it is diverted in accordance with the information set forth in the completed registration form as to source, location of point of diversion, purpose of use, place of use, and quantity and season of diversion. This information is reproduced as conditions 1 through 5 of this certificate.
11. Pursuant to Water Code sections 100 and 275 and the common law public trust doctrine, all rights and privileges under this right, including method of diversion, method of use, and quantity of water diverted, are subject to the continuing authority of the State Water Board in accordance with law and in the interest of the public welfare to protect public trust uses and to prevent waste, unreasonable use, unreasonable method of use, or unreasonable method of diversion of said water.
12. Right holder shall grant, or secure authorization through right holder's right of access to property owned by another party, the staff of the State Water Board, and any other authorized representatives of the State Water Board the following:
 - a. Entry upon property where water is being diverted, stored or used under a right issued by the State Water Board or where monitoring, samples and/or records must be collected under the conditions of this right;
 - b. Access to copy any records at reasonable times that are kept under the terms and conditions of a right or other order issued by State Water Board;
 - c. Access to inspect at reasonable times any project covered by a right issued by the State Water Board, equipment (including monitoring and control equipment), practices, or operations regulated by or required under this right; and,
 - d. Access to photograph, sample, measure, and monitor at reasonable times for the purpose of ensuring compliance with a right or other order issued by State Water Board, or as otherwise authorized by the Water Code.
13. Diversion of water under this right is subject to prior rights. Right holder may be required to curtail diversion or release water stored during the most recent collection season should diversion under this right result in injury to holders of legal downstream senior rights. If a reservoir is involved, right holder may be required to bypass or release water through, over, or around the dam. If release of stored water would not effectively satisfy downstream prior storage rights, right holder may be required to otherwise compensate the holders of such rights for injury caused.

14. This right shall not be construed as conferring right of access to any lands or facilities not owned by right holder.
15. All rights are issued subject to available flows. Inasmuch as the source contains treated wastewater, imported water from another stream system, or return flow from other projects, there is no guarantee that such supply will continue.
16. If storage or diversion of water under this right is by means of a dam, right holder shall allow sufficient water at all times to pass through a fishway or, in the absence of a fishway, allow sufficient water to pass over, around, or through the dam to keep in good condition any fish that may be planted or exist below the dam; provided that, during a period of low flow in the stream, upon approval of the California Department of Fish and Wildlife, this requirement will be satisfied if sufficient water is passed through a culvert, waste gate, or over or around the dam to keep in good condition any fish that may be planted or exist below the dam if it is impracticable or detrimental to pass the water through a fishway. In the case of a reservoir, this provision shall not require the passage or release of water at a greater rate than the unimpaired natural inflow into the reservoir. (Fish & G. Code, § 5937.)
17. The facilities for diversion under this right shall include satisfactory means of measuring and bypassing sufficient water to satisfy downstream prior rights and any requirements of the California Department of Fish and Wildlife.
18. This right does not authorize any act which results in the taking of a threatened, endangered or candidate species or any act which is now prohibited, or becomes prohibited in the future, under either the California Endangered Species Act (Fish and Game Code section 2050 et seq.) or the federal Endangered Species Act (16 U.S.C.A. section 1531 et seq.). If a "take" will result from any act authorized under this water right, the right holder shall obtain authorization for an incidental take prior to construction or operation of the project. Right holder shall be responsible for meeting all requirements of the state and Federal Endangered Species Acts for the project authorized under this right.
19. This right is subject to the submittal of a report of water use and satisfactory renewal, on forms to be furnished by the State Water Board, including payment of the then-current renewal fees prior to the expiration of each five-year period following the priority date of this right. (Wat. Code, § 1228.5.)
20. This right shall be totally or partially forfeited for nonuse if the diversion is abandoned or if all or any part of the diversion is not beneficially used for a continuous period of five years.
21. This right is subject to enforcement, including but not limited to revocation, by the State Water Board if 1) the State Water Board finds that the right holder knowingly made any false statement, or knowingly concealed any material fact, in the right; 2) the right is not renewed as required by the conditions of this certificate; or 3) the State Water Board finds that the right holder is in violation of the conditions of this right. (Wat. Code, § 1228.4 et seq.)

Dear Mr. and Mrs. Smith:

Registration of Small Domestic Use Appropriation

Registration of water use, pursuant to the Water Code (§ 1228.3), requires consultation with the Department of Fish and Game (Department) and compliance with all lawful conditions required by the Department. The Department reviews the appropriation of water to ensure fish and wildlife resources are protected.

The Department has evaluated your Small Domestic Use Registration application for an existing pond within Coopers Canyon Creek, El Dorado County. The Department has determined that no special measures are required to protect fish and wildlife.

If you have questions regarding this matter, please contact Mr. Gary Hobgood, Environmental Scientist at (916) 983-6920 or Ms. Terry Roscoe, Habitat Conservation Planning Supervisor at (916) 358-2820.

Sincerely,

A handwritten signature in black ink, appearing to be "Larry L. Eng", written over a circular stamp.

LIVESTOCK STOCKPOND USE REGISTRATION

RENEWAL ORDER FOR CERTIFICATE NO. L60

Application L031466 of Chad Smith and LaDonna L. Smith was filed with the State Water Resources Control Board (State Water Board) on November 25, 2003. The State Water Board issued Certificate No. L60 on April 18, 2005.

The subject appropriation meets the requirements for renewal specified in section 1228.5 of chapter 1, part 2, division 2 of the Water Code, and is hereby renewed for the next incremental five-year period to November 24, 2013, based on the above-stated date of first filing the completed registration.

The renewed appropriation is subject to the conditions of the original certificate and any previous amendments.

for Victoria A. Whitney, Chief
Division of Water Rights

CERTIFICATE NO. L 60

Application L31466 of **Chad Smith**
LaDonna L. Smith
 1040 Omega Lane
 Pilot Hill, CA 95664

filed with the State Water Resources Control Board (SWRCB) on November 25, 2003 meets the requirements for registration of livestock stockpond use specified in Article 2.7 (commencing with section 1228) of Chapter 1 of Part 2 of Division 2 of the Water Code. The appropriation is subject to the following conditions.

- | | |
|--|---|
| 1. Source:

<u>Unnamed Stream (aka Cooper Canyon)</u>
<hr/> <hr/> <hr/> | Tributary to:

<u>Pilot Creek thence</u>
<hr/> <u>North Fork American River thence</u>
<hr/> <u>American River thence</u>
<hr/> <u>Sacramento River</u>
<hr/> |
|--|---|

within the County of El Dorado.

2. Location of Point of Diversion: By California Coordinate System of 1927, Zone 2	Point is within (40-acre subdivision)	Section	Township	Range	Base and Meridian
North 421,724 feet and East 2,274,053 feet	SE ¼ of NW ¼	12	11N	8E	MD

3. Purpose of Use:	4. Place of Use:	Section	Township	Range	Base and Meridian	Acres
STOCKWATERING, INCIDENTAL AESTHETIC, RECREATIONAL, FISH AND WILDLIFE	SE¼ of NW¼	12	11N	8E	MD	

The place of use is shown on a map on file with the SWRCB.

5. The water appropriated shall be limited to the quantity which can be beneficially used and shall not exceed five acre-feet per annum to be collected from November 1 of each year to June 14 of the succeeding year. The capacity of the reservoir shall not exceed five acre-feet which is the stated capacity shown in the registration.
6. Appropriation of water pursuant to this registration shall be made in accordance with the information set forth in the completed registration form as to source, location of point of diversion, purpose of use, place of use, and quantity and season of diversion. This information is reproduced as conditions 1 through 5 of this certificate.
7. After the initial filling of the storage reservoir, registrant's right under this certificate extends only to water necessary to keep the reservoir full by replacing water beneficially used and water lost by evaporation and seepage and to refill if emptied for necessary maintenance or repair. Such right shall be exercised only during the authorized diversion season.
8. Pursuant to California Water Code sections 100 and 275 and the common law public trust doctrine, all rights and privileges under this registration, including method of diversion, method of use, and quantity of water diverted, are subject to the continuing authority of the SWRCB in accordance with law and in the interest of the public welfare to protect public trust uses and to prevent waste, unreasonable use, unreasonable method of use, or unreasonable method of diversion of said water.
9. Registrant shall allow representatives of the SWRCB, and other parties as may be authorized from time to time by the SWRCB, reasonable access to project works to determine compliance with the terms and conditions of this registration.
10. If the registrant does not own the point of diversion, this registration shall not be construed as conferring upon the registrant right of access to the point of diversion.

11. This appropriation is subject to prior rights. Registrant may be required to curtail diversion or release water stored during the most recent collection season should diversion under this registration result in injury to holders of legal downstream senior rights. If a reservoir is involved, registrant may be required to bypass or release water over, around, or through the dam. If release of stored water would not effectively satisfy downstream prior storage rights, registrant may be required to otherwise compensate the holders of such rights for injury caused.
12. To the extent that water available for use under this registration is return flow, imported water, or wastewater, this registration shall not be construed as giving any assurance that such supply will continue.
13. Diversion works shall be constructed and water applied to beneficial use with due diligence.
14. No work shall commence and no water shall be diverted, stored or used under this certificate until registrant has received a stream or lake alteration permit from the California Department of Fish and Game. Compliance with the terms and conditions of the permit is the responsibility of the registrant. If a permit is not necessary for this project, the registrant should retain a written waiver from the California Department of Fish and Game.
15. In compliance with section 5937 of the Fish and Game Code, if storage or diversion of water under this registration is by means of a dam, registrant shall allow sufficient water at all times to pass through a fishway or, in the absence of a fishway, allow sufficient water to pass over, around, or through the dam to keep in good condition any fish that may be planted or exist below the dam; provided that, during a period of low flow in the stream, upon approval of the California Department of Fish and Game, this requirement will be satisfied if sufficient water is passed through a culvert, waste gate, or over or around the dam to keep in good condition any fish that may be planted or exist below the dam if it is impracticable or detrimental to pass the water through a fishway. In the case of a reservoir, this provision shall not require the passage or release of water at a greater rate than the unimpaired natural inflow into the reservoir.
16. No construction shall be commenced and no water shall be diverted under this registration until all necessary federal, state, and local approvals have been obtained, including obtaining and complying with any waste discharge requirements from the appropriate California Regional Water Quality Control Board.
17. This registration does not authorize any act which results in the taking of a threatened or endangered species or any act which is now prohibited, or becomes prohibited in the future, under either the California Endangered Species Act (Fish and Game Code sections 2050 to 2097) or the federal Endangered Species Act (16 U.S.C.A. sections 1531 to

- 1544). If a "take" will result from any act authorized under this water right, the registrant shall obtain authorization for an incidental take prior to construction or operation of the project. Registrant shall be responsible for meeting all requirements of the applicable Endangered Species Act for the project authorized under this registration.
18. More than one appropriation for livestock stockpond use may be in effect at any time if stockponds subject to registration for this registrant do not exceed the ratio of one per 50 acres.
 19. This registration is subject to the submittal of a report of water use and satisfactory renewal of the registration, on forms to be furnished by the SWRCB, including payment of the then-current renewal fees prior to the expiration of each five-year period following the date of first filing the completed registration.
 20. The point or points of diversion and the place of use registered herein may be changed by filing a completed amended registration form with the SWRCB, including payment of the then-current registration fee. Such change shall not operate to the injury of any legal user of the water involved.
 21. The appropriation registered herein shall be totally or partially forfeited for nonuse if the diversion is abandoned or if all or any part of the diversion is not beneficially used for a continuous period of five years.
 22. The appropriation registered herein is subject to enforcement, including but not limited to revocation, by the SWRCB if 1) the SWRCB finds that the registrant knowingly made any false statement, or knowingly concealed any material fact, in the registration; 2) the registration is not renewed as required by the conditions of this certificate; or 3) the SWRCB finds that the registrant is in violation of the conditions of this registration.
