

STATE WATER RIGHTS BOARD

ORDER

APPLICATION 4099PERMIT 1890LICENSE 1302ORDER ALLOWING CHANGE IN POINTS OF DIVERSION
AND CHANGE IN NAME OF SOURCE

WHEREAS License 1302 was issued to Reclamation District No. 999 and was filed with the County Recorder of Yolo County on April 3, 1933, and

WHEREAS the State Water Rights Board has found that the change in points of diversion and change in name of source under said license for which petition was submitted on January 4, 1966, will not operate to the injury of any other legal user of water, and

WHEREAS the Board has approved and allowed said change and has directed that an order be issued to describe said points of diversion and source in accordance with said petition;

NOW THEREFORE IT IS ORDERED that permission be and the same is hereby granted to change the points of diversion under said License 1302 to points of diversion described as follows, to wit:

MOVABLE POINTS ON THE SACRAMENTO RIVER DEEP WATER SHIP CHANNEL ADJACENT TO THE WESTERLY BOUNDARY OF THAT PORTION OF RECLAMATION DISTRICT NO. 999 BOUNDED AS FOLLOWS: ON THE NORTH BY THE SOUTH LEVEE OF RECLAMATION DISTRICT NO. 900, ON THE EAST AND SOUTH BY TULE CANAL (NORTH OF LISBON STATION), AND ON THE WEST BY THE WEST LEVEE BORROW PIT OF SAID DISTRICT NO. 999, BEING WITHIN PROJECTED SECTIONS 30 AND 31, T8N, R4E, AND PROJECTED SECTION 6, T7N, R4E, MDB&M.

4

STATE OF CALIFORNIA
DEPARTMENT OF PUBLIC WORKS
DIVISION OF WATER RESOURCES

License for Diversion and Use of Water

LICENSE 1302

PERMIT 1890

APPLICATION 4099

THIS IS TO CERTIFY, That Reclamation District No. 999, Clarksburg, California

has made proof to the satisfaction of the Division of Water Resources of California of a right to the use of the waters of West Levee Borrow Pit of Reclamation District No. 999 in Yolo County

tributary of Sacramento River

for the purpose of agricultural use

under Permit 1890 of the Division of Water Resources and that said right to the use of said waters has been perfected in accordance with the laws of California, the rules and regulations of the Division of Water Resources and the terms of the said permit; that the priority of the right herein confirmed dates from July 19, 1924;

that the amount of water to which such right is entitled and hereby confirmed, for the purposes aforesaid, is limited to the amount actually beneficially used for said purposes and shall not exceed four and eighty-two hundredths (4.82) cubic feet per second from about May 1st to about October 1st of each season. In case of rotation the equivalent of such continuous flow allowance for any thirty day period may be diverted in a shorter time if there be no interference with other vested rights.

The point of diversion of such water is located at any point on the West Levee Borrow Pit of Reclamation District No. 999 adjacent to the Westerly boundary of that portion of said District bounded as follows: On the North by the South Levee of Reclamation District No. 900, on the East and South by Tule Canal (North of Lisbon Station), and on the West by the West Levee Borrow Pit of said District No. 999, being within projected Sections 30 and 31, T 8 N, R 4 E, and projected Section 6, T 7 N, R 4 E, M.D.B. & M.

A description of the lands or the place where such water is put to beneficial use is as follows: Irrigation of a net area of 336 acres within the boundary of that portion of Reclamation District No. 999 bounded as follows; on the North by the South Levee of Reclamation District 900, on the East and South by Tule Canal (North of Lisbon Station) and on the West by the West Levee Borrow Pit of said District No. 999, being within projected sections 30 and 31, T 8 N, R 4 E, and projected Section 6, T 7 N, R 4 E, M.D.B. & M., all as shown on map filed December 5, 1932.

As there is a possibility that there will not be sufficient water in Sacramento River during the latter part of the irrigation season to satisfy all requirements, this license is issued subject to the express condition that the use hereunder may be regulated by the Division of Water Resources during such periods of water scarcity to the end that such use will not interfere with rights under prior applications.

The right to the diversion and use of the water aforesaid hereby confirmed is restricted to the point of diversion herein specified and to the lands or place of use herein described.

1

This license is granted and said appropriator takes all rights herein mentioned subject to the terms and conditions set forth in Section 20 of Chapter 586, Statutes 1913, which is as follows:

Sec. 20. All permits and licenses for the appropriation of water shall be under the terms and conditions of this act, and shall be effective for such time as the water actually appropriated under such permits and licenses shall actually be used for the useful and beneficial purpose for which said water was appropriated, but no longer; and every such permit or license shall include the enumeration of conditions therein which in substance shall include all of the provisions of this section and likewise the statement that any appropriator of waters, to whom said permit or license may be issued, shall take the same subject to such conditions as therein expressed; *provided*, that if, at any time after the expiration of twenty years after the granting of a license, the state, or any city, city and county, municipal water district, irrigation district, lighting district, or any political subdivision of the state shall have the right to purchase the works and property occupied and used under said license and the works built or constructed for the enjoyment of the rights granted under said license; and in the event that the said state, city, city and county, municipal water district, irrigation district, lighting district or political subdivision of the state so desiring to purchase and the said owner of said works and property can not agree upon said purchase price, said price shall be determined in such manner as is now or may hereafter be determined in eminent domain proceedings. If it shall appear to the state water commission at any time after a permit or license is issued as in this act provided that the permittee or licensee, or the heirs, successors or assigns of said permittee or licensee, has not put the water granted under said permit or license to the useful or beneficial purpose for which the permit or license was granted, or that the permittee or licensee, or the heirs, successors or assigns of said permittee or licensee, has failed to observe any of the terms and conditions in the permit or license as issued, then and in that case the said commission, after due notice to the permittee, licensee, or the heirs, successors or assigns of such permittee or licensee, and a hearing thereon, may revoke said permit or license, and declare the water to be unappropriated and open to further appropriation in accordance with the terms of this act. And the findings and declaration of said commission shall be deemed to be prima facie correct until modified or set aside by a court of competent jurisdiction; *provided*, that any action brought so to modify or set aside such finding or declaration must be commenced within thirty days after the service of notice of said revocation on said permittee or licensee, his heirs, successors or assigns. And every licensee or permittee under the provisions of this act if he accepts such permit or license shall accept the same under the conditions precedent or issued under the provisions of this act, or for any rights granted or acquired under the provisions of this act, in respect to the regulations by any competent public authority of the services or the price of the services to be rendered by any permittee or licensee, his heirs, successors or assigns or by the holder of any rights granted or acquired under the provisions of this act, or in respect to any valuation for purposes of sale to or purchase, whether through condemnation proceedings or otherwise, by the state or any city, city and county, municipal water district, irrigation district, lighting district or any political subdivision of the state, of the rights and property of any permittee or licensee, or the possessor of any rights granted, issued, or acquired under the provisions of this act. The application for a permit by municipalities for the use of water for said municipalities or the inhabitants thereof for domestic purposes shall be considered first in right, irrespective of whether they are first in time; *provided, however*, that such application for a permit or the granting thereafter of permission to any municipality to appropriate waters, shall not authorize the appropriation of any water for other than municipal purposes; and *providing, further*, that where permission to appropriate is granted by the state water commission to any municipality for any quantity of water in excess of the existing municipal needs thereof, that pending the application of the entire appropriation permitted, the state water commission shall have the power to issue permits for the temporary appropriation of the excess of such permitted appropriation over and above the quantity being applied from time to time by such municipality; and *providing, further*, that in lieu of the granting of such temporary permits for appropriation, the state water commission may authorize such municipality to become as to such surplus a public utility, subject to the jurisdiction and control of the railroad commission of the State of California for such period or periods from and after the date of the issuance of such permission to appropriate, as may be allowed for the application to municipal uses of the entire appropriation permitted; and *providing, further*, that when such municipality shall desire to use the additional waters granted in its said application it may do so upon making just compensation for the facilities for taking, conveying and storing such additional water rendered valueless for said purposes, to the person, firm or corporation which constructed said facilities for the temporary use of said excess waters, and which compensation, if not agreed upon between the municipality and said person, firm or corporation, may be determined in the manner provided by law for determining the value of property taken by and through eminent domain proceedings.
