

STATE OF CALIFORNIA  
THE RESOURCES AGENCY  
STATE WATER RESOURCES CONTROL BOARD  
DIVISION OF WATER RIGHTS

**ORDER**

APPLICATION 6464

PERMIT 3431

LICENSE 2299

ORDER CORRECTING DESCRIPTION OF SOURCE

WHEREAS, Application 6464 was filed on October 21, 1929, and  
WHEREAS License 2299 was issued to Thomas S. Van Vleet and  
was filed with the County Recorder of Mendocino County on October 8,  
1941, and

WHEREAS said license was subsequently assigned to Russell B.  
Strickland, and

WHEREAS, it having been determined that the stream which is  
the source of the appropriation named in said Application 6464 is  
incorrect, and

IT IS HEREBY ORDERED that the description of the source in  
said License 2299, be corrected to read as follows, to wit:

WEST FORK RUSSIAN RIVER, TRIBUTARY TO RUSSIAN RIVER  
THENCE PACIFIC OCEAN.

Dated: **APR 10 1968**

Division of Water Rights

STATE OF CALIFORNIA  
DEPARTMENT OF PUBLIC WORKS  
DIVISION OF WATER RESOURCES

License for Diversion and Use of Water

LICENSE 2299

PERMIT 3431

APPLICATION 6444

THIS IS TO CERTIFY, That Thomas S. Van Fleet, Redwood Valley, Calif.

Notice of Assignment (Over)

has made proof to the satisfaction of the Division of Water Resources of California of a right to the use of the waters of West (Redwood Valley) Branch of Russian River in Mendocino County,

tributary of Russian River

for the purpose of irrigation use

under Permit 3431 of the Division of Water Resources and that said right to the use of said waters has been perfected in accordance with the laws of California, the rules and regulations of the Division of Water Resources and the terms of the said permit; that the priority of the right herein confirmed dates from October 21, 1929;

that the amount of water to which such right is entitled and hereby confirmed, for the purposes aforesaid, is limited to the amount actually beneficially used for said purposes and shall not exceed nineteen hundredths (0.19) cubic foot per second from about April 1st to about November 15th of each season.

In case of rotation the equivalent of such continuous flow allowance for any thirty day period may be diverted in a shorter time if there be no interference with other vested rights.

The point of diversion of such water is located South seven hundred (700) feet and East thirteen hundred (1300) feet from the northeast corner of Section 32, T 17 N, R 12 W, N.D.B. & M. and being within the NE 1/4 of NE 1/4 of said Section 32 and being also within Lot 26 of Calpella Fruit Land Tract Number 3.

A description of the lands or the place where such water is put to beneficial use is as follows:

3	acres	within	NE 1/4	of	NE 1/4	of	Section 32,	T 17 N,	R 12 W,	N.D.B. & M.
10	"	"	NW 1/4	of	NE 1/4	"	"	"	"	"
2	"	"	SW 1/4	of	NE 1/4	"	"	"	"	"
<hr/>										
15	acres	total								

Being also within the easterly portions of Lots 25, 26 and 27 of the Calpella Fruit Lands Tract No. 3.

All rights and privileges under this license including method of diversion, method of use and quantity of water diverted are subject to the continuing authority of the Division of Water Resources in accordance with law and in the interest of the public welfare to prevent waste, unreasonable use, unreasonable method of use or unreasonable method of diversion of said water.

Reports shall be filed annually by licensee on specified forms which will be provided for the purpose from time to time by the Division of Water Resources.

The right to the diversion and use of the water aforesaid hereby confirmed is restricted to the point of diversion herein specified and to the lands or place of use herein described.

This license is granted and said appropriator takes all rights herein mentioned subject to the terms and conditions set forth in Section 20 of Chapter 586, Statutes of 1913, as amended, which is as follows:

Sec. 20. All permits and licenses for the appropriation of water shall be under the control of the State Engineer, and shall be effective for such term as the water actually appropriated under such permits and licenses shall actually be used for the useful and beneficial purposes for which said water was appropriated, but no longer; and every such permit or license shall include the enumeration of conditions therein which in substance shall include all of the following conditions: section and likewise the statement that any appropriator of water, to whom said permit or license may be issued, shall take the same subject to such conditions therein expressed; provided, that at any time after the expiration of twenty years after the granting of a license, the state or any city, county and municipal water district, irrigation district, lighting district, or any political subdivision of the state shall have the right to purchase the works and property occupied and used under said license and the works built or constructed for the enjoyment of the rights granted under said license; and in the event that the said state, city, county and municipal water district, irrigation district, lighting district or political subdivision of the state so desiring to purchase and the said owner of said works and property can not agree upon said purchase price, said price shall be determined in such manner as is now or may hereafter be determined in eminent domain proceedings. If it shall appear to the state water commission at any time after a permit or license is issued as in this act provided that the permittee, or licensee, or the heirs, successors, or assigns, of said permittee or licensee, has not put the water granted under said permit or license to the useful or beneficial purpose for which the permit or license was granted, or that the permittee or licensee, or the heirs, successors, or assigns of said permittee or licensee, has failed to observe any of the terms and conditions in the permit or license as issued, then and in that case the said commission, after due notice to the permittee or licensee, or the heirs, successors, or assigns of such permittee or licensee, and a hearing thereon, may revoke said permit or license and declare the water to be unappropriated and open to further appropriation in accordance with the terms of this act. The findings and declaration of said commission shall be deemed to be prima facie correct until modified or set aside by a court of competent jurisdiction; provided, that any action brought so to modify or set aside such finding or declaration must be commenced within thirty days after the service of notice of said revocation on said permittee or licensee, his heirs, successors or assigns. And every licensee or permittee under the provisions of this act if he accepts such permit or license shall accept the same under the conditions precedent that no value whatsoever in excess of the actual amount paid to the state therefor shall at any time be assigned to or claimed for any permit or license granted or issued under the provisions of this act, or for any rights granted or acquired under the provisions of this act, in respect to the regulation by any competent public authority of the services or the price of the services to be rendered by any permittee or licensee, his heirs, successors or assigns or by the holder of any rights granted or acquired under the provisions of this act, or in respect to any valuation for purposes of sale to or purchase, whether through condemnation proceedings or otherwise, by the state or any city, county and municipal water district, irrigation district, lighting district or any political subdivision of the state, of the rights and property of any permittee or licensee, or the possessor of any rights granted, issued, or acquired under the provisions of this act. The application for a permit by municipalities for the use of water for said municipalities or the inhabitants thereof for domestic purposes shall be considered first in right irrespective of whether they are first in time; provided, however, that such application for a permit or the granting hereafter of permission to any municipality to appropriate waters, shall not authorize the appropriation of any water for other than municipal purposes; and providing, further, that where permission to appropriate is granted by the state water commission to any municipality for any quantity of water in excess of the existing municipal needs therefor, then pending the application of the entire appropriation permitted, the state water commission shall have the power to issue permits for the temporary appropriation of the excess of such permitted appropriation over and above the quantity being applied from time to time by such municipality; and providing, further, that in lieu of the granting of such temporary permits for appropriation, the state water commission may authorize such municipality to become as to such surplus a public utility, subject to the jurisdiction and control of the railroad commission of the State of California for such period or periods from and after the date of the issuance of such permission to appropriate, as may be allowed for the application to municipal uses of the entire appropriation permitted; and providing, further, that when such municipality shall desire to use the additional water granted in its said application it may do so upon making just compensation for the facilities for taking, conveying and storing such additional water rendered valueless for said purposes, to the person, firm or corporation which constructed said facilities for the temporary use of said excess waters, and which compensation, if not agreed upon between the municipality and said person, firm or corporation, may be determined in the manner provided by law for determining the value of property taken by and through eminent domain proceedings.
