

STATE OF CALIFORNIA
CALIFORNIA ENVIRONMENTAL PROTECTION AGENCY
STATE WATER RESOURCES CONTROL BOARD

DIVISION OF WATER RIGHTS

In the Matter of License 3442 (Application 12228)

U. S. National Park Service
ORDER REVOKING LICENSE

SOURCE: Two Unnamed Streams

COUNTY: Del Norte

WHEREAS:

1. License 3442 was issued to L. W. Hosford and Byrel Hosford on March 31, 1952, pursuant to Application 12228, and was recorded by the County Recorder of Del Norte County on April 03, 1952.
2. License 3442 was subsequently assigned to U. S. National Park Service on January 14, 1972.
3. Caleb Waters, facility specialist for U. S. National Park Service, requested on May 26, 2011, that the License be revoked by the State Water Resources Control Board (State Water Board), Division of Water Rights (Division).
4. The Division interprets the Licensee's request for revocation as a waiver of the notice and hearing requirements set forth in Water Code sections 1675 through 1675.1.

Therefore, it is ordered that License 3442 is hereby revoked by the State Water Board, and the water is declared to be subject to appropriation. This revocation may not result in additional water being available for new appropriations if there are applicable restrictions due to past State Water Board decisions regarding water availability.

STATE WATER RESOURCES CONTROL BOARD

ORIGINAL SIGNED BY
JOHN O'HAGAN FOR:

Barbara Evoy, Deputy Director
Division of Water Rights

Dated: SEP 12 2011

STATE OF CALIFORNIA
STATE WATER RESOURCES CONTROL BOARD
DIVISION OF WATER RIGHTS

ORDER

APPLICATION 12228 PERMIT 7272 LICENSE 3442

ORDER CORRECTING THE PURPOSE OF
USE AND AMENDING THE LICENSE

WHEREAS:

1. License 3442 was issued to L.W. Hosford and Byrel Hosford, on March 31, 1952 pursuant to Application 12228.
2. On April 3, 1952, License 3442 was recorded with the County Recorder of Del Norte.
3. License 3442 was subsequently assigned to U.S. Department of Interior - Redwood National Park.
4. On June 28, 1988, the National Park Service informed the State Water Resources Control Board (State Board) that water is no longer used for domestic or stockwatering purposes, but is used for recreation and fish and wildlife purposes.
5. Section 798 of Title 23, California Code of Regulations (CCR) provides that recreational, and fish and wildlife uses at a reservoir are incidental uses and can be added as a correction.
6. The State Board has determined that said correction will not initiate a new right nor operate to the injury of any legal user of the water.
7. The State Board's continuing authority condition should be amended to conform to CCR Section 780(a).

NOW, THEREFORE, IT IS ORDERED THAT:

1. The condition of the license regarding the Purpose of Use be amended to read:

Purposes of Use are Recreational, and Fish and Wildlife Enhancement

(000003)

2. The condition regarding the State Board's continuing authority be amended to read:

Pursuant to California Water Code Sections 100 and 275, and the common law public trust doctrine, all rights and privileges under this permit and under any license issued pursuant thereto, including method of diversion, method of use, and quantity of water diverted, are subject to the continuing authority of the

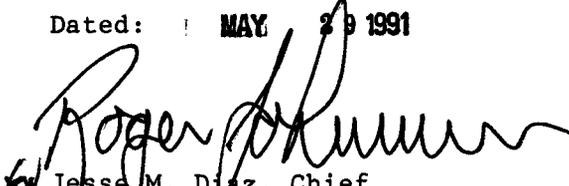

State Water Resources Control Board in accordance with law and in the interest of the public welfare to protect public trust uses and to prevent waste, unreasonable use, unreasonable method of use, or unreasonable method of diversion of said water.

The continuing authority of the Board may be exercised by imposing specific requirements over and above those contained in this permit with a view to eliminating waste of water and to meeting the reasonable water requirements of permittee without unreasonable draft on the source. Permittee may be required to implement a water conservation plan, features of which may include but not necessarily be limited to: (1) reusing or reclaiming the water allocated; (2) using water reclaimed by another entity instead of all or part of the water allocated; (3) restricting diversions so as to eliminate agricultural tailwater or to reduce return flow; (4) suppressing evaporation losses from water surfaces; (5) controlling phreatophytic growth; and (6) installing, maintaining, and operating efficient water measuring devices to assure compliance with the quantity limitations of this permit and to determine accurately water use as against reasonable water requirements for the authorized project. No action will be taken pursuant to this paragraph unless the Board determines, after notice to affected parties and opportunity for hearing, that such specific requirements are physically and financially feasible and are appropriate to the particular situation.

The continuing authority of the Board also may be exercised by imposing further limitations on the diversion and use of water by the permittee in order to protect public trust uses. No action will be taken pursuant to this paragraph unless the Board determines, after notice to affected parties and opportunity for hearing, that such action is consistent with California Constitution Article X, Section 2; is consistent with the public interest and is necessary to preserve or restore the uses protected by the public trust.

and Water Rights

STATE OF CALIFORNIA—DEPARTMENT OF PUBLIC WORKS
DIVISION OF WATER RESOURCES
STATE ENGINEER

License for Diversion and Use of Water

APPLICATION 12228

PERMIT 7272

LICENSE 3442

THIS IS TO CERTIFY, That **L. W. Hosford and Byrel Hosford** Notice of Change (Over)
Klamath, California

have made proof as of August 21, 1950
(the date of inspection) to the satisfaction of the State Engineer of California of a right to the use of the water of
two unnamed streams in Del Norte County

tributary to an unnamed slough thence Klamath River

for the purpose of domestic and stock watering uses
under Permit 7272 of the Department of Public Works and that said right to the use of said water has
been perfected in accordance with the laws of California, the Rules and Regulations of the Department of Public Works
and the terms of the said permit; that the priority of the right herein confirmed dates from January 6, 1948;
and that the amount of water to which such right is entitled and hereby confirmed, for the purposes aforesaid, is limited
to the amount actually beneficially used for said purposes and shall not exceed six thousand (6000) gallons
per day total to be diverted from January 1 to December 31 of each year, provided,
however, that diversion shall not exceed five thousand (5000) gallons per day from
point of diversion (2).

The points of diversion of such water are located as follows: (1) North fifty-one degrees
fifty-six minutes West (N 51° 56' W) four thousand five hundred eighteen (4518)
feet from SE corner of Section 9, T 13 N, R 1 E, H.B.&M., and (2) North forty-
eight degrees West (N 48° W) two thousand seven hundred fifty-seven (2757) feet
from SE corner of Section 9, T 13 N, R 1 E, H.B.&M., being within (1) SE $\frac{1}{4}$ NW $\frac{1}{4}$,
(2) NW $\frac{1}{4}$ SE $\frac{1}{4}$ of said Section 9.

A description of the lands or the place where such water is put to beneficial use is as follows: Within Lots
4 and 6 and NW $\frac{1}{4}$ of SE $\frac{1}{4}$ of Section 9, T 13 N, R 1 E, H.B.&M.

All rights and privileges under this license including method of diversion, method of use and quantity of water
diverted are subject to the continuing authority of the Department acting through the State Engineer in accordance
with law and in the interest of the public welfare to prevent waste, unreasonable use, unreasonable method of use or
unreasonable method of diversion of said water.

Reports shall be filed promptly by licensee on appropriate forms which will be provided for the purpose from
time to time by the State Engineer.

The right hereby confirmed to the diversion and use of water is restricted to the point or points of diversion
herein specified and to the lands or place of use herein described.

This license is granted and licensee accepts all rights herein confirmed subject to the following provisions of the Water Code:

Section 1625. Each license shall be in such form and contain such terms as may be prescribed by the Department.

Section 1626. All licenses shall be under the terms and conditions of this division (of the Water Code).

Section 1627. A license shall be effective for such time as the water actually appropriated under it is used for a useful and beneficial purpose in conformity with this division (of the Water Code) but no longer.

Section 1628. Every license shall include the enumeration of conditions therein which in substance shall include all of the provisions of this article and the statement that any appropriator of water to whom a license is issued takes the license subject to the conditions therein expressed.

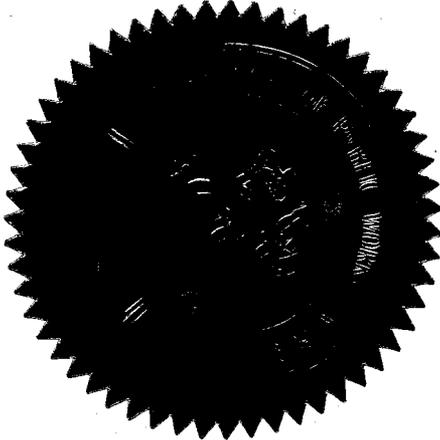

Section 1629. Every licensee, if he accepts a license does so under the conditions precedent that no value whatsoever in excess of the actual amount paid to the State therefor shall at any time be assigned to or claimed for any license granted or issued under the provisions of this division (of the Water Code), or for any rights granted or acquired under the provisions of this division (of the Water Code), in respect to the regulation by any competent public authority of the services or the price of the services to be rendered by any licensee or by the holder of any rights granted or acquired under the provisions of this division (of the Water Code) or in respect to any valuation for purposes of sale to or purchase, whether through condemnation proceedings or otherwise, by the State or any city, city and county, municipal water district, irrigation district, lighting district, or any political subdivision of the State, of the rights and property of any licensee, or the possessor of any rights granted, issued, or acquired under the provisions of this division (of the Water Code).

Section 1630. At any time after the expiration of twenty years after the granting of a license, the State or any city, city and county, municipal water district, irrigation district, lighting district, or any political subdivision of the State shall have the right to purchase the works and property occupied and used under the license and the works built or constructed for the enjoyment of the rights granted under the license.

Section 1631. In the event that the State, or any city, city and county, municipal water district, irrigation district, lighting district, or political subdivision of the State so desiring to purchase and the owner of the works and property can not agree upon the purchase price, the price shall be determined in such manner as is now or may hereafter be provided by law for determining the value of property taken in eminent domain proceedings.
