PERMIT 7152

LICENSE 4478

THIS IS TO CERTIFY, That

Robert H. and Amy V. Powell
1145 Cold Springs Road
Placerville, CA 95667

The Deputy Director for Water Rights finds that: (a) the change will not operate to the injury of any lawful user of water; (b) good cause has been shown for the change; (c) the petition does not constitute the initiation of a new right; and (d) the State Water Resources Control Board (State Water Board) has made the required findings pursuant to the California Environmental Quality Act (CEQA) or the project is exempt from CEQA.

Additionally, the State Water Resources Board has complied with its independent obligation to consider the effect of the proposed project on public trust resources and to protect those resources where feasible. (*National Audubon Society v. Superior Court* (1983) 33 Cal.3d 419 [189 Cal.Rptr. 346], 658 P.2d 709.)

This amended license is being issued in accordance with the redelegations of authority (Resolution No. 2007-0057.) Therefore, this amended license on **Application 12181** filed on **December 1, 1947** has been approved by the State Water Board SUBJECT TO PRIOR RIGHTS and to the limitations and conditions herein.

Licensee has the right to the use of the waters of **Unnamed Stream** in **El Dorado County**

tributary to **Weber Creek thence South Fork American River**

for the purpose of **Irrigation, Stockwatering, Recreation, Wildlife Enhancement and Fire Protection uses.**

Amended License 4478 supersedes the license originally issued on **December 18, 1956**, which was perfected in accordance with the laws of California, the Regulations of the State Water Board, or its predecessor, and the terms of **Permit 7152**. The priority of this right dates from **December 1, 1947**. Proof of maximum beneficial use of water under this license was made as of **June 1, 1954** (the date of inspection).

The amount of water to which this right is entitled and hereby confirmed is limited to the amount actually beneficially used for the stated purposes and shall not exceed **seven (7) acre-feet per annum to be collected from November 1 of each year to April 30 of the succeeding year. The maximum withdrawal in any one year shall not exceed seven acre-feet.**

THE POINT OF DIVERSION OF SUCH WATER IS LOCATED:

North 1,500 feet and West 100 feet from SE corner of Section 32, T11N, R10E, MDB&M, being within the NE $\frac{1}{4}$ of SE $\frac{1}{4}$ of said Section 32. It is also described by California Coordinate System of 1983, Zone 2, North 2,039,780 feet and East 6,881,660 feet.

A DESCRIPTION OF THE LANDS OR THE PLACE WHERE SUCH WATER IS PUT TO BENEFICIAL USE IS AS FOLLOWS:

Stockwatering, Recreational, Wildlife Enhancement, and Fire Protection uses at reservoir within NE $\frac{1}{4}$ of SE $\frac{1}{4}$ of Section 32, T11N, R10E, MDB&M, and Irrigation as follows:

6 acres within NW $\frac{1}{4}$ of SE $\frac{1}{4}$ of Section 32, T11N, R10E, MDB&M

4 acres within SE $\frac{1}{4}$ of SE $\frac{1}{4}$ of Section 32, T11N, R10E, MDB&M

10 acres total as shown on map on file with the State Water Board.

The right hereby confirmed to the diversion and use of water is restricted to the point or points of diversion herein specified and to the lands or place of use herein described.

Reports shall be filed promptly by the licensee on the appropriate forms which will be provided for the purpose from time to time by the State Water Board.

Licensee shall allow representatives of the State Water Board and other parties, as may be authorized from time to time by the State Water Board, reasonable access to project works to determine compliance with the terms of this license.

Pursuant to Water Code sections 100 and 275 and the common law public trust doctrine, all rights and privileges under this license, including method of diversion, method of use, and quantity of water diverted, are subject to the continuing authority of the State Water Board in accordance with law and in the interest of the public welfare to protect public trust uses and to prevent waste, unreasonable use, unreasonable method of use, or unreasonable method of diversion of said water.

The continuing authority of the State Water Board may be exercised by imposing specific requirements over and above those contained in this license with a view to eliminating waste of water and to meeting the reasonable water requirements of licensee without unreasonable draft on the source. Licensee may be required to implement a water conservation plan, features of which may include but not necessarily be limited to: (1) reusing or reclaiming the water allocated; (2) using water reclaimed by another entity instead of all or part of the water allocated; (3) restricting diversions so as to eliminate agricultural tailwater or to reduce return flow; (4) suppressing evaporation losses from water surfaces; (5) controlling phreatophytic growth; and (6) installing, maintaining, and operating efficient water measuring devices to assure compliance with the quantity limitations of this license and to determine accurately water use as against reasonable water requirement for the authorized project. No action will be taken pursuant to this paragraph unless the State Water Board determines, after notice to affected parties and opportunity for hearing, that such specific requirements are physically and financially feasible and are appropriate to the particular situation.

The continuing authority of the State Water Board also may be exercised by imposing further limitations on the diversion and use of water by the licensee in order to protect public trust uses. No action will be taken pursuant to this paragraph unless the State Water Board determines, after notice to affected parties and opportunity for hearing, that such action is consistent with California Constitution article X, section 2; is consistent with the public interest and is necessary to preserve or restore the uses protected by the public trust.

The quantity of water diverted under this license is subject to modification by the State Water Board if, after notice to the licensee and an opportunity for hearing, the State Water Board finds that such modification is necessary to meet water quality objectives in water quality control plans which have been or hereafter may be established or modified pursuant to division 7 of the Water Code. No action will be taken pursuant to this paragraph unless the State Water Board finds that: (1) adequate waste discharge requirements have been prescribed and are in effect with respect to all waste discharges which have any substantial effect upon water quality in the area involved, and (2) the water quality objectives cannot be achieved solely through the control of waste discharges.

This license does not authorize any act which results in the taking of a threatened or endangered species or candidate species or any act which is now prohibited, or becomes prohibited in the future, under either the California Endangered Species Act (Fish and Game Code sections 2050 to 2089) or the federal Endangered Species Act (16 U.S.C.A. sections 1531 to 1544). If a "take" will result from any act authorized under this water right, the licensee shall obtain authorization for an incidental take prior to construction or operation of the project. Licensee shall be responsible for meeting all requirements of the state or federal Endangered Species Acts for the project authorized under this license.

If construction or rehabilitation work is required for the diversion works covered by this license within the bed, channel, or bank of the affected water body, the licensee shall enter into a streambed or lake alteration agreement with the State Department of Fish and Game. Licensee shall submit a copy of the agreement, or waiver thereof, to the Division of Water Rights prior to commencement of work. Compliance with the terms and conditions of the agreement is the responsibility of the licensee.

This license is granted and the licensee accepts all rights herein confirmed subject to the following provisions of the Water Code:

Section 1625. Each license shall be in such form and contain such terms as may be prescribed by the State Water Board.

Section 1626. All licenses shall be under the terms and conditions of this division (of the Water Code).

Section 1627. A license shall be effective for such time as the water actually appropriated under it is used for a useful and beneficial purpose in conformity with this division (of the Water Code) but no longer.

Section 1628. Every license shall include the enumeration of conditions therein which in substance shall include all of the provisions of this article (of the Water Code) and the statement that any appropriator of water to whom a license is issued takes the license subject to the conditions therein expressed.

Section 1629. Every licensee, if he accepts a license, does so under the conditions precedent that no value whatsoever in excess of the actual amount paid to the State therefor shall at any time be assigned to or claimed for any license granted or issued under the provisions of this division (of the Water Code), or for any rights granted or acquired under the provisions of this division (of the Water Code), in respect to the regulation by any competent public authority of the services or the price of the services to be rendered by any licensee or by the holder of any rights granted or acquired under the provisions of this division (of the Water Code) or in respect to any valuation for purposes of sale to or purchase, whether through condemnation proceedings or otherwise, by the State or any city, city and county, municipal water district, irrigation district, lighting district, or any political subdivision of the State, of the rights and property of any licensee, or the possessor of any rights granted, issued, or acquired under the provisions of this division (of the Water Code).

Section 1630. At any time after the expiration of twenty years after the granting of a license, the State or any city, city and county, municipal water district, irrigation district, lighting district, or any political subdivision of the State shall have the right to purchase the works and property occupied and used under the license and the works built or constructed for the enjoyment of the rights granted under the license.

Section 1631. In the event that the State, or any city, city and county, municipal water district, irrigation district, lighting district, or political subdivision of the State so desiring to purchase and the owner of the works and property cannot agree upon the purchase price, the price shall be determined in such manner as is now or may hereafter be provided by law for determining the value of property taken in eminent domain proceedings.

ORDER

APPLICATION 12181

PERMIT 7152

LICENSE 4478

ORDER CORRECTING THE DESCRIPTION OF THE
POINT OF DIVERSION

WHEREAS:

1. License 4478 was issued to L. W. Veerkamp and filed with the County Recorder of El Dorado County on January 9, 1957.
2. License 4478 was subsequently assigned to William and Alma Graham.
3. An error in the description of the point of diversion has been discovered in an ORDER issued on October 16, 1986.

NOW, THEREFORE, IT IS ORDERED THAT:

The point of diversion in License 4478 be described as follows:

North 1,750 feet and West 500 feet from SE corner of Section 32, T11N, R10E, MDB&M, being within the NE $\frac{1}{4}$ of SE $\frac{1}{4}$ of said Section 32. It is also described by California Coordinate System, Zone 2, N 398,600 and E 2,319,100.

ORDER

APPLICATION 12181

PERMIT 7152

LICENSE 4478

ORDER CORRECTING THE POINT OF DIVERSION, REDUCING
THE PLACE OF USE AND AMENDING THE LICENSE

WHEREAS:

1. License 4478 was issued to L. W. Veerkamp and was filed with the County Recorder of El Dorado County on January 9, 1957.
2. License 4478 was subsequently assigned to William and Alma Graham.
3. A request to correct the description of the point of diversion and reduce the place of use under said license has been received by the State Water Resources Control Board.
4. The State Water Resources Control Board has determined that said correction in the description of the point of diversion and the reduction in the place of use will not initiate a new right nor operate to the injury of any other lawful user of the water and that good and sufficient cause has been shown for said correction and reduction.

NOW, THEREFORE, IT IS ORDERED THAT:

The point of diversion and place of use under License 4478 be described as follows:

1. Point of diversion:
North 800 feet and West 1,350 feet from SE corner of Section 32, T11N, R10E, MDB&M, being within the SE $\frac{1}{4}$ of SE $\frac{1}{4}$ of said Section 32.
2. Place of Use:
6 acres within NW $\frac{1}{4}$ of SE $\frac{1}{4}$ of Section 32, T11N, R10E, MDB&M
4 acres within SE $\frac{1}{4}$ of SE $\frac{1}{4}$ of Section 32, T11N, R10E, MDB&M

10 acres total
3. The paragraph pertaining to the continuing authority of the Board is replaced with the following:

Pursuant to California Water Code Sections 100 and 275, and the common law public trust doctrine, all rights privileges under this license are subject to the continuing authority of the State Water Resources Control Board in accordance with law and in the interest of the public welfare to protect public trust uses and to prevent waste, unreasonable use, unreasonable method of use, or unreasonable method of diversion of said water.

The continuing authority of the Board may be exercised by imposing specific requirements over and above those contained in this license with a view to eliminating waste of water and to meeting the reasonable water requirements of permittee without unreasonable draft on the source. Licensee may be required to implement a water conservation plan, features of which may include but not necessarily be limited to: (1) reusing or reclaiming the water allocated; (2) using water reclaimed by another entity instead of all or part of the water allocated; (3) restricting diversions so as to eliminate agricultural tailwater or to reduce return flow; (4) suppressing evaporation losses from water surfaces; (5) controlling phreatophytic growth; and (6) installing, maintaining, and operating efficient water measuring devices to assure compliance with the quantity limitations of this license and to determine accurately water use as against reasonable water requirements for the authorized project. No action will be taken pursuant to this paragraph unless the Board determines, after notice to affected parties and opportunity for hearing, that such specific requirements are physically and financially feasible and are appropriate to the particular situation.

The continuing authority of the Board also may be exercised by imposing further limitations on the diversion and use of water by the licensee in order to protect public trust uses. No action will be taken pursuant to this paragraph unless the Board determines, after notice to affected parties and opportunity for hearing, that such action is consistent with California Constitution Article X, Section 2; is consistent with the public interest and is necessary to preserve or restore the uses protected by the public trust.

License for Diversion and Use of Water

APPLICATION 12181

PERMIT 7152

LICENSE 4478
OVER

THIS IS TO CERTIFY, That **L. W. Veerkamp**
Route 2, Box 189, Placerville, California

has made proof as of June 1, 1954
(the date of inspection) to the satisfaction of the State Water Rights Board of a right to the use of the water of
an unnamed stream in El Dorado County

tributary to Weber Creek thence South Fork American River

for the purpose of irrigation and stockwatering
under Permit 7152 of the State Water Rights Board and that said right to the use of said water has been
perfected in accordance with the laws of California, the Rules and Regulations of the State Water Rights Board and the
terms of the said permit; that the priority of the right herein confirmed dates from December 1, 1947;
and that the amount of water to which such right is entitled and hereby confirmed, for the purposes aforesaid, is limited
to the amount actually beneficially used for said purposes and shall not exceed seven (7) acre-feet per annum
to be collected from about November 1 of each year to about April 30 of the
succeeding year.

The point of diversion of such water is located north one thousand three hundred twenty
(1,320) feet and east fifty (50) feet from SW corner of Section 33, T 11 N, R 10 E,
MDB&M, being within SW $\frac{1}{4}$ of SW $\frac{1}{4}$ of said Section 33.

A description of the lands or the place where such water is put to beneficial use is as follows: Stockwatering use
and irrigation of:

19 acres within NW $\frac{1}{4}$ of SE $\frac{1}{4}$ of Section 32, T 11 N, R 10 E, MDB&M.
14 acres within NE $\frac{1}{4}$ of SE $\frac{1}{4}$ of Section 32, T 11 N, R 10 E, MDB&M.
19 acres within SE $\frac{1}{4}$ of SE $\frac{1}{4}$ of Section 32, T 11 N, R 10 E, MDB&M.
52 acres total

All rights and privileges under this license including method of diversion, method of use and quantity of water
diverted are subject to the continuing authority of the State Water Rights Board in accordance with law and in the
interest of the public welfare to prevent waste, unreasonable use, unreasonable method of use or unreasonable method of
diversion of said water.

Reports shall be filed promptly by licensee on appropriate forms which will be provided for the purpose from time
to time by the State Water Rights Board.

The right hereby confirmed to the diversion and use of water is restricted to the point or points of diversion herein
specified and to the lands or place of use herein described.

This license is granted and licensee accepts all rights herein confirmed subject to the following provisions of the Water Code:

Section 1625. Each license shall be in such form and contain such terms as may be prescribed by the board.

Section 1626. All licenses shall be under the terms and conditions of this division (of the Water Code).

Section 1627. A license shall be effective for such time as the water actually appropriated under it is used for a useful and beneficial purpose in conformity with this division (of the Water Code) but no longer.

Section 1628. Every license shall include the enumeration of conditions therein which in substance shall include all of the provisions of this article and the statement that any appropriator of water to whom a license is issued takes the license subject to the conditions therein expressed.

Section 1629. Every licensee, if he accepts a license does so under the conditions precedent that no value whatsoever in excess of the actual amount paid to the State therefor shall at any time be assigned to or claimed for any license granted or issued under the provisions of this division (of the Water Code), or for any rights granted or acquired under the provisions of this division (of the Water Code), in respect to the regulation by any competent public authority of the services or the price of the services to be rendered by any licensee or by the holder of any rights granted or acquired under the provisions of this division (of the Water Code) or in respect to any valuation for purposes of sale to or purchase, whether through condemnation proceedings or otherwise, by the State or any city, city and county, municipal water district, irrigation district, lighting district, or any political subdivision of the State, of the rights and property of any licensee, or the possessor of any rights granted, issued, or acquired under the provisions of this division (of the Water Code).

Section 1630. At any time after the expiration of twenty years after the granting of a license, the State or any city, city and county, municipal water district, irrigation district, lighting district, or any political subdivision of the State shall have the right to purchase the works and property occupied and used under the license and the works built or constructed for the enjoyment of the rights granted under the license.

Section 1631. In the event that the State, or any city, city and county, municipal water district, irrigation district, lighting district, or political subdivision of the State so desiring to purchase and the owner of the works and property cannot agree upon the purchase price, the price shall be determined in such manner as is now or may hereafter be provided by law for determining the value of property taken in eminent domain proceedings.
