4. The State Water Resources Control Board has determined that said correction of license term will not initiate a new right nor operate to the injury of any other lawful user of the water and that good and sufficient cause has been shown for said correction.

NOW, THEREFORE, IT IS ORDERED THAT:

1. Paragraph 1 on Page 2 of License 10513 relating to fish releases from Slab Creek Reservoir under said License 10513, be replaced by the following term:

The Licensee shall release through a near-streambed outlet of Slab Creek Dam the flows specified in the following schedule as measured by the existing U.S. Geological Survey gaging station located about one-eighth of a mile below the Slab Creek dam or at such new location as may be determined pursuant to Article 7 of Form L-2 of FERC license 2101:

The May 1 bulletin shall apply until March 1 bulletin of the succeeding year is issued.

- This license is subject to the agreement dated July 15, 1982 between Licensee and the State Department of Boating and Waterways, to the extent such agreement covers matters within the Board's jurisdiction.
