THIS IS TO CERTIFY, That

David Walden
General Delivery
Cobb Mountain, CA 95426

Has the right to use waters of an Unnamed Stream (AKA North Fork Callayomi Brook) in Lake County tributary to Unnamed Stream (AKA Callayomi Brook) thence Putah Creek

for the following purposes: Domestic

Amended License 10915 supersedes the license originally issued 05/15/1979, which was perfected in accordance with the laws of California, the regulations of the SWRCB or its predecessor, and the terms of Permit 16222. The priority of this right dates from 09/24/1969. Proof of maximum beneficial use of water pursuant to Application 23348 was made as of 08/19/1976 (the date of inspection).

The amount of water that may be used under this license is limited to the amount actually beneficially used for the stated purposes and shall not exceed 300 gallons per day to be diverted from January 1st to December 31st of each year.

The equivalent of such continuous flow allowance for any 7-day period may be diverted in a shorter time, if there be no interference with other vested rights.

Unless a change is approved by the State Water Resources Control Board (SWRCB), water used under this license may be diverted, rediverted, stored and used only as specified below;

THE POINT OF DIVERSION OF SUCH WATER IS LOCATED:

North 500 feet and East 225 feet from center of Section 14, T11N, R8W, MDB&M, being within SW $\frac{1}{4}$ of NE $\frac{1}{4}$ of said Section 14.

A DESCRIPTION OF THE LANDS OR THE PLACE WHERE SUCH WATER IS PUT TO BENEFICIAL USE IS AS FOLLOWS:

Within SE $\frac{1}{4}$ of NW $\frac{1}{4}$ of Section 14, T11N, R8W, MDB&M, as shown on map on file with SWRCB.

This license shall not be construed as conferring upon the licensee right of access to the point of diversion.

The quantity of water diverted under this license is subject to modification by the State Water Resources Control Board if, after notice to the licensee and an opportunity for hearing, the Board finds that such modification is necessary to meet water quality objectives in water quality control plans which have been or hereafter may be established or modified pursuant to Division 7 of the Water Code. No action will be taken pursuant to this paragraph unless the Board finds that (1) adequate waste discharge requirements have been prescribed and are in effect with respect to all waste discharges which have any substantial effect upon water quality in the area involved, and (2) the water quality objectives can not be achieved solely through the control of waste discharges.

Licensee shall comply with the following provisions which are derived from the Condition 12 Settlement Agreement dated March 10, 1995 (Agreement) pursuant to the Sacramento County Superior Court, Judicial Council Coordination Proceeding No. 2565:

- (1) Licensee is hereby put on notice that the Sacramento County Superior Court, Judicial Council Coordination Proceeding No. 2565, has retained jurisdiction over the parties and, upon application by the watermaster, has the right to temporarily enjoin the diversion of water under this license for noncompliance with the terms of this license and any order of the Court.
- (2) The Court has appointed a watermaster to implement the provisions of the March 10, 1995, Condition 12 Settlement Agreement.
- (3) Licensee may employ existing methods or means of measurement (or alternatively any other standard means of measurement normally acceptable or satisfactory to the SWRCB in its administration of appropriative water rights) for determining the amount of water directly diverted for use to storage under this license.
- (4) Licensee shall install at licensee's own cost such additional or other measurement devices as are necessary to measure actual diversions, if the SWRCB at the request of the watermaster, determines that additional measures are necessary to effectively administer the diversion and use of water in upper Putah Creek under Condition 14 of Decision 869 and Order WR 96-002.
- (5) Licensee shall report to the watermaster annually, on or about September 1, the amount of water directly diverted and/or diverted to storage under this license. Such annual reports shall be made in writing on forms approved by the watermaster.
- (6) The watermaster shall have the right to enter property to inspect measuring equipment and to observe compliance with this license's terms and conditions, upon 48-hours prior notice and upon such reasonable conditions as licensee may prescribe.
- (7) Licensee is hereby put on notice that there may be years when diversion of water under this license will not be within the reservation of water established for the Putah Creek watershed upstream of Monticello Dam, as provided in Condition 14 of Decision 869 and Order WR 96-002, and that in such years no water may be available under this license.
- (8) In the event Allowable Depletion as determined under the Condition 12 Settlement Agreement is exceeded in any year, licensee shall bypass/release water diverted to the extent necessary to bring Allowable Depletion into compliance as determined by the watermaster. Licensee's obligation to bypass/release water shall be governed by the following repayment provisions:
 - a. Licensee is required to curtail direct diversion of water during years when water is not available under the reservation. Licensee's obligation to repay shall be in reverse order of the priority of the license in relation to all other permits and licenses affected by Condition 14 of Decision 869.
 - b. Licensee is required to curtail diversion of water to storage during years when water is not within the reservation. During such years, unless replacement water is provided on an exchange basis, licensee shall release water collected to storage under this license, during the preceding collection season at the maximum practical rate to flow into Lake Berryessa. Licensee's obligation to repay shall be in reverse order of the priority of the license in relation of all other permittees and licensees affected by Condition 14 of Decision 869.
 - c. In the event that Lake Berryessa spills at any time prior to full payback of excess depletion, licensee shall be excused from any further obligation for repayment.

- (9) Licensee shall provide the watermaster prior notice of any repayment. Repayment may be made either by releases from storage, curtailment of diversion, or by the provision of water from other sources.
- (10) Licensee shall notify the watermaster of any change in ownership of land, changes in the water right, or changes in address related to the license.
- (11) Licensee is hereby put on notice of licensee's right, upon reasonable prior notice, to inspect and to copy, at licensee's own expense, all records and reports of the watermaster.
- (11) The State Water Resources Control Board (SWRCB) shall have continuing authority under Article X, Section 2 of the California Constitution, Water Code Sections 100 and 275, and the common law public trust doctrine over this license to delete, revise, amend, or adopt new terms or conditions to: (1) implement the March 10, 1995, Condition 12 Settlement Agreement and any amendments to the agreement and (2) make the terms or conditions consistent with any order of the superior court. No action shall be taken pursuant to this paragraph unless the SWRCB provides notice to affected parties and provides an opportunity for a hearing.

(0000012)

Reports shall be filed promptly by licensee on appropriate forms which will be provided for the purpose from time to time by the SWRCB.
