

STATE OF CALIFORNIA  
STATE WATER RESOURCES CONTROL BOARD  
DIVISION OF WATER RIGHTS

## License for Diversion and Use of Water

APPLICATION 23621  
Page 1 of 3

PERMIT 16223

OVER  
LICENSE 11772

THIS IS TO CERTIFY, That Pfizer, Inc., A Corporation  
P. O. Box 558  
Lucerne Valley, California 92356

has made proof as of September 29, 1983 (the date of inspection)  
to the satisfaction of the State Water Resources Control Board of a right to the use of the water of  
(1) An Unnamed Spring (AKA Veale Camp Spring) (2) Furnace Canyon in  
San Bernardino County  
tributary to (1) Furnace Canyon thence Lucerne Dry Lake (2) Lucerne Dry Lake

for the purpose of Industrial use

under Permit 16223 of the Board and that the right to the use of this water has been perfected  
in accordance with the laws of California, the Regulations of the Board and the permit terms; that the  
priority of this right dates from September 28, 1970 and that the amount of water to which  
this right is entitled and hereby confirmed is limited to the amount actually beneficially used for the stated  
purposes and shall not exceed forty-five thousandths (0.045) cubic foot per second to  
be diverted from January 1 to December 31 of each year. The maximum amount to  
be diverted under this license shall not exceed 19.1 acre-feet per year.

The total amount of water diverted under this license, together with that  
diverted under License 7524 (Application 18836) and license issued pursuant to  
Application 23622 shall not exceed 24.4 acre-feet per year.

The equivalent of such continuous flow allowance for any 30-day period may be  
diverted in a shorter time provided there be no interference with other vested  
rights and instream beneficial uses; and provided further that all terms or  
conditions protecting instream beneficial uses be observed.

THE POINT OF DIVERSION OF SUCH WATER IS LOCATED:

- (1) Veale Camp Spring - North 800 feet and East 1,300 feet from SW corner of  
Section 18, T3N, R1E, SBB&M, being within SW $\frac{1}{4}$  of SW $\frac{1}{4}$  of  
said Section 18.

THE POINT OF DIVERSION AND REDIVERSION OF SUCH WATER IS LOCATED:

- (2) Furnace Canyon Wells #5 and #6 - North 2,250 feet and East 1,600 feet from  
SW corner of Section 7, T3N, R1E, SBB&M,  
being within NE $\frac{1}{4}$  of SW $\frac{1}{4}$  of said Section 7.

A DESCRIPTION OF THE LANDS OR THE PLACE WHERE  
SUCH WATER IS PUT TO BENEFICIAL USE IS AS FOLLOWS:

At the Pfizer limestone processing plant within SE $\frac{1}{4}$  of SE $\frac{1}{4}$  of Section 6, and for dust control on haul roads within Sections 7, 8, 9, 15, 16, 17, 18, T3N, R1E, SBB&M, and Section 13, T3N, R1W, SBB&M, as shown on map on file with State Water Resources Control Board.

No water shall be diverted under this license unless sufficient flow of water is provided at all times to maintain an open concrete basin of not less than 50 gallons capacity of a design satisfactory to the California Department of Fish and Game for use by wildlife.

\*\*\*\*\*

2

Licensee shall allow representatives of the Board and other parties, as may be authorized from time to time by the Board, reasonable access to project works to determine compliance with the terms of this license.

The quantity of water diverted under this license is subject to modification by the State Water Resources Control Board if, after notice to the licensee and an opportunity for hearing, the Board finds that such modification is necessary to meet water quality objectives in water quality control plans which have been or hereafter may be established or modified pursuant to Division 7 of the Water Code. No action will be taken pursuant to this paragraph unless the Board finds that (1) adequate waste discharge requirements have been prescribed and are in effect with respect to all waste discharges which have any substantial effect upon water quality in the area involved, and (2) the water quality objectives cannot be achieved solely through the control of waste discharges.

Pursuant to California Water Code Sections 100 and 275 and the public trust doctrine, all rights and privileges under this license, including method of diversion, method of use, and quantity of water diverted, are subject to the continuing authority of the State Water Resources Control Board in accordance with law and in the interest of the public welfare to protect public trust uses, prevent waste, unreasonable use, unreasonable method of use, or unreasonable method of diversion of said water.

This continuing authority of the Board may be exercised by imposing specific requirements over and above those contained in this license with a view to minimizing waste of water and to meeting the reasonable water requirements of licensee without unreasonable draft on the source. Licensee may be required to implement such programs as (1) reusing or reclaiming the water allocated; (2) using water reclaimed by another entity instead of all or part of the water allocated; (3) restricting diversions so as to eliminate agricultural tailwater or to reduce return flow; (4) suppressing evaporation losses from water surfaces; (5) controlling phreatophytic growth; and (6) installing, maintaining, and operating efficient water measuring devices to assure compliance with the quantity limitations of this license and to determine accurately water use as against reasonable water requirements for the authorized project. No action will be taken pursuant to this paragraph unless the Board determines, after notice to affected parties and opportunity for hearing, that such specific requirements are physically and financially feasible and are appropriate to the particular situation.

The continuing authority of the board also may be exercised by imposing further limitations on the diversion and use of water by the licensee in order to protect public trust uses. No action will be taken pursuant to this paragraph unless the board determines, after notice to affected parties and opportunity for hearing, that such action takes into account the public interest and is necessary to protect public trust uses. All such actions shall conform to the standard of reasonableness contained in Article X, Section 2 of the California Constitution.

Reports shall be filed promptly by licensee on appropriate forms which will be provided for the purpose from time to time by the Board.

The right hereby confirmed to the diversion and use of water is restricted to the point or points of diversion herein specified and to the lands or place of use herein described.

This license is granted and licensee accepts all rights herein confirmed subject to the following provisions of the Water Code:

- Section 1625. Each license shall be in such form and contain such terms as may be prescribed by the Board.
- Section 1626. All licenses shall be under the terms and conditions of this division (of the Water Code).
- Section 1627. A license shall be effective for such time as the water actually appropriated under it is used for a useful and beneficial purpose in conformity with this division (of the Water Code) but no longer.
- Section 1628. Every license shall include the enumeration of conditions therein which in substance shall include all of the provisions of this article and the statement that any appropriator of water to whom a license is issued takes the license subject to the conditions therein expressed.
- Section 1629. Every licensee, if he accepts a license does so under the conditions precedent that no value whatsoever in excess of the actual amount paid to the State therefor shall at any time be assigned to or claimed for any license granted or issued under the provisions of this division (of the Water Code), or for any rights granted or acquired under the provisions of this division (of the Water Code), in respect to the regulation by any competent public authority of the services or the price of the services to be rendered by any licensee or by the holder of any rights granted or acquired under the provisions of this division (of the Water Code) or in respect to any valuation for purposes of sale to or purchase, whether through condemnation proceedings or otherwise, by the State or any city, city and county, municipal water district, irrigation district, lighting district, or any political subdivision of the State, of the rights and property of any licensee, or the possessor of any rights granted, issued, or acquired under the provisions of this division (of the Water Code).
- Section 1630. At any time after the expiration of twenty years after the granting of a license, the State or any city, city and county, municipal water district, irrigation district, lighting district, or any political subdivision of the State shall have the right to purchase the works and property occupied and used under the license and the works built or constructed for the enjoyment of the rights granted under the license.
- Section 1631. In the event that the State, or any city, city and county, municipal water district, irrigation district, lighting district, or political subdivision of the State so desiring to purchase and the owner of the works and property cannot agree upon the purchase price, the price shall be determined in such manner as is now or may hereafter be provided by law for determining the value of property taken in eminent domain proceedings.
