

STATE OF CALIFORNIA
STATE WATER RESOURCES CONTROL BOARD
DIVISION OF WATER RIGHTS

License for Diversion and Use of Water

Page 1 of 3
APPLICATION 27799

PERMIT 19609

LICENSE 12926

THIS IS TO CERTIFY, That

Stephen P. Garrett and Earlene J. Garrett
11588 Bottle Rock Road
Kelseyville, CA 95451

have made proof as of **May 13, 1992** (the date of inspection) to the satisfaction of the State Water Resources Control Board of a right to the use of the water of
(1) Sweetwater Creek and (2)(3)(4) 3 Unnamed Springs in Lake County

tributary to **(2)(3)(4) Sweetwater Creek thence (1) Kelsey Creek thence Clear Lake**

for the purpose of **Stockwatering use**

under Permit **19609** of the Board and that the right to the use of this water has been perfected in accordance with the laws of California, the Regulations of the Board and the permit terms; that the priority of this right dates from **July 18, 1983** and that the amount of water to which this right is entitled and hereby confirmed is limited to the amount actually beneficially used for the stated purposes and shall not exceed a total of one and thirty-five hundredths (1.35) acre-feet per annum to be collected from October 1 of each year to March 30 of the succeeding year as follows: (1) 0.6 acre-foot in Reservoir No. 1, (2) 0.27 acre-foot in Reservoir No. 2, (3) 0.26 acre-foot in Reservoir No. 3, and (4) 0.22 acre-foot in Reservoir No. 4.

This license does not authorize collection of water to storage outside of the specified season to offset evaporation and seepage losses or for any other purpose.

(0000005)

After the initial filling of the reservoirs, licensee's right under this license extends only to water necessary to keep the storage reservoirs full by replacing water beneficially used and water lost by evaporation and seepage, and to refill if emptied for necessary maintenance or repair.

(0000041)

THE POINTS OF DIVERSION OF SUCH WATER ARE LOCATED:

- (1) Reservoir No. 1 - North 400 feet and East 1,800 feet from SW corner of Section 18, T12N, R8W, MDB&M, being within SE $\frac{1}{4}$ of SW $\frac{1}{4}$ of said Section 18,
- (2) Reservoir No. 2 - North 2,350 feet and East 100 feet from SW corner of Section 18, T12N, R8W, MDB&M, being within NW $\frac{1}{4}$ of SW $\frac{1}{4}$ of said Section 18,
- (3) Reservoir No. 3 - South 2,100 feet and West 150 feet from NE corner of Section 13, T12N, R9W, MDB&M, being within SE $\frac{1}{4}$ of NE $\frac{1}{4}$ of said Section 13, and
- (4) Reservoir No. 4 - South 1,350 feet and West 300 feet from NE corner of Section 13, T12N, R9W, MDB&M, being within SE $\frac{1}{4}$ of NE $\frac{1}{4}$ of said Section 13.

*A DESCRIPTION OF THE LANDS OR THE PLACE WHERE
SUCH WATER IS PUT TO BENEFICIAL USE IS AS FOLLOWS:*

At Reservoir No. 1 within SE $\frac{1}{4}$ of SW $\frac{1}{4}$ of Section 18, Reservoir No. 2 within NW $\frac{1}{4}$ of SW $\frac{1}{4}$ of Section 18, both within T12N, R8W, MDB&M, and Reservoir No. 3 within SE $\frac{1}{4}$ of NE $\frac{1}{4}$ of Section 13 and Reservoir No. 4 within SE $\frac{1}{4}$ of NE $\frac{1}{4}$ of Section 13, both within T12N, R9W, MDB&M, as shown on map on file with State Water Resources Control Board.

Licensee shall maintain in the reservoirs staff gages, satisfactory to the State Water Resources Control Board, for the purpose of determining water levels in the reservoirs.

Licensee shall record the staff gage readings on or about October 1 of each year. Such readings shall be supplied to the State Water Resources Control Board with the next Report of Licensee submitted to the Board by licensee.

Licensee shall allow Yolo County Flood Control and Water Conservation District or a designated representative, reasonable access to the reservoirs for the purpose of verifying staff gage readings and determining water levels in the reservoirs.

(0070047)
(0100047)

Licensee shall comply with the following provisions which are derived from the contract between licensee and Yolo County Flood Control and Water Conservation District executed on May 6, 1985 and filed with the State Water Resources Control Board:

Licensee shall divert water under this license during the period from November 1 of each year through March 30 of the succeeding year only if (a) the elevation of Clear Lake has reached 7.56 feet as measured on the Rumsey Gage or (b) the elevation of Clear Lake would have reached 7.56 feet as measured on the Rumsey gage but for water having been discharged from Clear Lake to waste in compliance with the Gopcevic Decree.

Inclusion in this license of certain provisions of the referenced contract shall not be construed as disapproval of other provisions of the contract or as affecting the enforceability, as between the parties, of such other provisions insofar as they are not inconsistent with the terms of this license.

(0100001)

Licensee shall allow representatives of the State Water Resources Control Board and other parties as may be authorized from time to time by said Board, reasonable access to project works to determine compliance with the terms of this license.

The quantity of water diverted under this license is subject to modification by the Board if, after notice to the licensee and an opportunity for hearing, the Board finds that such modification is necessary to meet water quality objectives in water quality control plans which have been or hereafter may be established or modified pursuant to Division 7 of the Water Code. No action will be taken pursuant to this paragraph unless the Board finds that (1) adequate waste discharge requirements have been prescribed and are in effect with respect to all waste discharges which have any substantial effect upon water quality in the area involved, and (2) the water quality objectives cannot be achieved solely through the control of waste discharges.

Pursuant to California Water Code Sections 100 and 275 and the common law public trust doctrine, all rights and privileges under this license, including method of diversion, method of use, and quantity of water diverted, are subject to the continuing authority of the Board in accordance with law and in the interest of the public welfare to protect public trust uses and to prevent waste, unreasonable use, unreasonable method of use or unreasonable method of diversion of said water.

This continuing authority of the Board may be exercised by imposing specific requirements over and above those contained in this license with a view to eliminating waste of water and to meeting the reasonable water requirements of licensee without unreasonable draft on the source. Licensee may be required to implement a water conservation plan, features of which may include but not necessarily be limited to: (1) reusing or reclaiming the water allocated; (2) using water reclaimed by another entity instead of all or part of the water allocated; (3) restricting diversions so as to eliminate agricultural tailwater or to reduce return flow; (4) suppressing evaporation losses from water surfaces; (5) controlling phreatophytic growth; and (6) installing, maintaining, and operating efficient water measuring devices to assure compliance with the quantity limitations of this license and to determine accurately water use as against reasonable water requirements for the authorized project. No action will be taken pursuant to this paragraph unless the Board determines, after notice to affected parties and opportunity for hearing, that such specific requirements are physically and financially feasible and are appropriate to the particular situation.

The continuing authority of the Board also may be exercised by imposing further limitations on the diversion and use of water by the licensee in order to protect public trust uses. No action will be taken pursuant to this paragraph unless the Board determines, after notice to affected parties and opportunity for hearing, that such action is consistent with California Constitution Article X, Sec. 2; is consistent with the public interest and is necessary to preserve or restore the uses protected by the public trust.

Reports shall be filed promptly by licensee on appropriate forms which will be provided for the purpose from time to time by the Board.

The right hereby confirmed to the diversion and use of water is restricted to the point or points of diversion herein specified and to the lands or place of use herein described.

This license is granted and licensee accepts all rights herein confirmed subject to the following provisions of the Water Code:

Section 1625. Each license shall be in such form and contain such terms as may be prescribed by the Board.

Section 1626. All licenses shall be under the terms and conditions of this division (of the Water Code).

Section 1627. A license shall be effective for such time as the water actually appropriated under it is used for a useful and beneficial purpose in conformity with this division (of the Water Code) but no longer.

Section 1628. Every license shall include the enumeration of conditions therein which in substance shall include all of the provisions of this article and the statement that any appropriator of water to whom a license is issued takes the license subject to the conditions therein expressed.

Section 1629. Every licensee, if he accepts a license does so under the conditions precedent that no value whatsoever in excess of the actual amount paid to the State therefor shall at any time be assigned to or claimed for any license granted or issued under the provisions of this division (of the Water Code), or for any rights granted or acquired under the provisions of this division (of the Water Code), in respect to the regulation by any competent public authority of the services or the price of the services to be rendered by any licensee or by the holder of any rights granted or acquired under the provisions of this division (of the Water Code) or in respect to any valuation for purposes of sale to or purchase, whether through condemnation proceedings or otherwise, by the State or any city, city and county, municipal water district, irrigation district, lighting district, or any political subdivision of the State, of the rights and property of any licensee, or the possessor of any rights granted, issued, or acquired under the provisions of this division (of the Water Code).

Section 1630. At any time after the expiration of twenty years after the granting of a license, the State or any city, city and county, municipal water district, irrigation district, lighting district, or any political subdivision of the State shall have the right to purchase the works and property occupied and used under the license and the works built or constructed for the enjoyment of the rights granted under the license.

Section 1631. In the event that the State, or any city, city and county, municipal water district, irrigation district, lighting district, or political subdivision of the State so desiring to purchase and the owner of the works and property cannot agree upon the purchase price, the price shall be determined in such manner as is now or may hereafter be provided by law for determining the value of property taken in eminent domain proceedings.
