APPLICATION 28415

PERMIT 20159

LICENSE **13104**

### THIS IS TO CERTIFY, That

Stephan Tripp  
2541 Dessie Drive  
Lakeport, CA 95453

has made proof as of **May 11, 1993** (the date of inspection) to the satisfaction of the State Water Resources Control Board of a right to the use of the water of  
**2 Unnamed Streams in Lake County**

tributary to **Scotts Creek thence Rodman Slough thence Clear Lake**

for the purpose of **Wildlife Enhancement and Fire Protection uses**

under Permit **20159** of the Board and that the right to the use of this water has been perfected in accordance with the laws of California, the Regulations of the Board and the permit terms; that the priority of this right dates from **April 1, 1985** and that the amount of water to which this right is entitled and hereby confirmed is limited to the amount actually beneficially used for the stated purposes and shall not exceed a **total of four and five-tenths (4.5) acre-feet per annum to be collected from November 1 of each year to March 31 of the succeeding year as follows: (1) 2.5 acre-feet in Reservoir No. 1 and (2) 2 acre-feet in Reservoir No. 2.**

After the initial filling of the reservoirs, licensee's right under this license extends only to water necessary to keep the storage reservoirs full by replacing water lost by evaporation and seepage, and to refill if emptied for necessary maintenance or repair.

THE POINTS OF DIVERSION OF SUCH WATER ARE LOCATED:

- (1) Reservoir No. 1 - North 1,250 feet and East 600 feet from SW corner of Section 15, T14N, R10W, MDB&M, being within SW $\frac{1}{4}$  of SW $\frac{1}{4}$  of said Section 15, and
- (2) Reservoir No. 2 - North 450 feet and East 900 feet from SW corner of Section 15, T14N, R10W, MDB&M, being within SW $\frac{1}{4}$  of SW $\frac{1}{4}$  of said Section 15.

A DESCRIPTION OF THE LANDS OR THE PLACE WHERE  
SUCH WATER IS PUT TO BENEFICIAL USE IS AS FOLLOWS:

At Reservoir No. 1 and Reservoir No. 2, both within SW $\frac{1}{4}$  of SW $\frac{1}{4}$  of Section 15, T14N, R10W, MDB&M, as shown on map on file with State Water Resources Control Board.

Licensee shall, when required by the State Water Resources Control Board, install and maintain outlet pipes of adequate capacity in his dams as near as practicable to the bottom of the natural stream channel, or provide other means satisfactory to the State Water Resources Control Board, in order that water entering the reservoirs which is not authorized for appropriation under this license may be released. Licensee shall submit plans and specifications of the outlet pipes or other alternatives to the Chief of the Division of Water Rights for approval within 6 months of the date upon which the Board issues notice that outlets are required. Licensee shall furnish evidence which substantiates that outlets or alternatives have been installed in the dams. Evidence shall include photographs showing completed works or certification by a registered Civil or Agricultural Engineer.

Licensee shall comply with the following provisions which are derived from the contract between licensee and Yolo County Flood Control and Water Conservation District executed on July 23, 1986 and filed with the State Water Resources Control Board:

- (1) If during the period from September 1 of any year through April 30 of the succeeding year, either (a) the elevation of Clear Lake has reached 7.56 feet as measured on the Rumsey Gage or (b) water has been discharged from Clear Lake to hold the water level down in compliance with the Gopcevic Decree, water collected to storage during licensee's corresponding diversion season shall be water appropriated under this license. If during such period from September 1 through April 30, either (a) or (b) above does not occur, water collected in licensee's reservoirs shall be purchased from the Yolo County Flood Control and Water Conservation District.
- (2) Licensee shall install and maintain in the reservoirs an accurate direct reading staff gage, calibrated to storage in acre-feet, which is referenced to a permanent bench mark. Licensee shall supply the staff gage readings on or about October 1 of each year to the Yolo County Flood Control and Water Conservation District and to the State Water Resources Control Board.

- (3) Licensee shall allow a designated representative of the Yolo County Flood Control and Water Conservation District reasonable access to the reservoirs for the purpose of determining water levels.

Inclusion in this license of certain provisions of the referenced contract shall not be construed as disapproval of other provisions of the contract or as affecting the enforceability, as between the parties, of such other provisions insofar as they are not inconsistent with the terms of this license.

*Licensee shall allow representatives of the State Water Resources Control Board and other parties, as may be authorized from time to time by said Board, reasonable access to project works to determine compliance with the terms of this license.*

*The quantity of water diverted under this license is subject to modification by the Board if, after notice to the licensee and an opportunity for hearing, the Board finds that such modification is necessary to meet water quality objectives in water quality control plans which have been or hereafter may be established or modified pursuant to Division 7 of the Water Code. No action will be taken pursuant to this paragraph unless the Board finds that (1) adequate waste discharge requirements have been prescribed and are in effect with respect to all waste discharges which have any substantial effect upon water quality in the area involved, and (2) the water quality objectives cannot be achieved solely through the control of waste discharges.*

*Pursuant to California Water Code Sections 100 and 275 and the common law public trust doctrine, all rights and privileges under this license, including method of diversion, method of use, and quantity of water diverted, are subject to the continuing authority of the Board in accordance with law and in the interest of the public welfare to protect public trust uses and to prevent waste, unreasonable use, unreasonable method of use or unreasonable method of diversion of said water.*

*This continuing authority of the Board may be exercised by imposing specific requirements over and above those contained in this license with a view to eliminating waste of water and to meeting the reasonable water requirements of licensee without unreasonable draft on the source. Licensee may be required to implement a water conservation plan, features of which may include but not necessarily be limited to: (1) reusing or reclaiming the water allocated; (2) using water reclaimed by another entity instead of all or part of the water allocated; (3) restricting diversions so as to eliminate agricultural tailwater or to reduce return flow; (4) suppressing evaporation losses from water surfaces; (5) controlling phreatophytic growth; and (6) installing, maintaining, and operating efficient water measuring devices to assure compliance with the quantity limitations of this license and to determine accurately water use as against reasonable water requirement for the authorized project. No action will be taken pursuant to this reasonable water requirements for the authorized project. No action will be taken pursuant to this paragraph unless the Board determines, after notice to affected parties and opportunity for hearing, that such specific requirements are physically and financially feasible and are appropriate to the particular situation.*

*The continuing authority of the Board also may be exercised by imposing further limitations on the diversion and use of water by the licensee in order to protect public trust uses. No action will be taken pursuant to this paragraph unless the Board determines, after notice to affected parties and opportunity for hearing, that such action is consistent with California Constitution Article X, Sec. 2; is consistent with the public interest and is necessary to preserve or restore the uses protected by the public trust.*

*Reports shall be filed promptly by licensee on appropriate forms which will be provided for the purpose from time to time by the Board.*

*The right hereby confirmed to the diversion and use of water is restricted to the point or points of diversion herein specified and to the lands or place of use herein described.*

*This license is granted and licensee accepts all rights herein confirmed subject to the following provisions of the Water Code:*

Section 1625. Each license shall be in such form and contain such terms as may be prescribed by the Board.

Section 1626. All licenses shall be under the terms and conditions of this division (of the Water Code).

Section 1627. A license shall be effective for such time as the water actually appropriated under it is used for a useful and beneficial purpose in conformity with this division (of the Water Code) but no longer.

Section 1628. Every license shall include the enumeration of conditions therein which in substance shall include all of the provisions of this article and the statement that any appropriator of water to whom a license is issued takes the license subject to the conditions therein expressed.

Section 1629. Every licensee, if he accepts a license does so under the conditions precedent that no value whatsoever in excess of the actual amount paid to the State therefor shall at any time be assigned to or claimed for any license granted or issued under the provisions of this division (of the Water Code), or for any rights granted or acquired under the provisions of this division (of the Water Code), in respect to the regulation by any competent public authority of the services or the price of the services to be rendered by any licensee or by the holder of any rights granted or acquired under the provisions of this division (of the Water Code) or in respect to any valuation for purposes of sale to or purchase, whether through condemnation proceedings or otherwise, by the State or any city, city and county, municipal water district, irrigation district, lighting district, or any political subdivision of the State, of the rights and property of any licensee, or the possessor of any rights granted, issued, or acquired under the provisions of this division (of the Water Code).

Section 1630. At any time after the expiration of twenty years after the granting of a license, the State or any city, city and county, municipal water district, irrigation district, lighting district, or any political subdivision of the State shall have the right to purchase the works and property occupied and used under the license and the works built or constructed for the enjoyment of the rights granted under the license.

Section 1631. In the event that the State, or any city, city and county, municipal water district, irrigation district, lighting district, or political subdivision of the State so desiring to purchase and the owner of the works and property cannot agree upon the purchase price, the price shall be determined in such manner as is now or may hereafter be provided by law for determining the value of property taken in eminent domain proceedings.
