

STATE OF CALIFORNIA
CALIFORNIA ENVIRONMENTAL PROTECTION AGENCY
STATE WATER RESOURCES CONTROL BOARD
DIVISION OF WATER RIGHTS

In the Matter of Permit 992 (Application 1743)

City of Sacramento

**ORDER APPROVING EXTENSION OF TIME
AND AMENDING THE PERMIT**

SOURCE: Sacramento River

COUNTY: Sacramento

WHEREAS:

1. Permit 992 was issued to the City of Sacramento on February 18, 1922.
2. A petition for an extension of time to complete construction of the new point of diversion and fish screen on the Sacramento River, and to put the water authorized by Permit 992 to full beneficial use was filed with the State Water Resources Control Board (SWRCB) on March 6, 2001.
3. The permittee has proceeded with diligence and good cause has been shown for extension of time. Public notice of the request for extension of time was issued on April 20, 2001 and no protests were received.
4. The SWRCB has determined that the petition for extension of time does not constitute the initiation of a new right nor operate to the injury of any other lawful user of water.

NOW, THEREFORE, IT IS ORDERED THAT PERMIT 992 BE AMENDED TO READ AS FOLLOWS:

1. The development schedule in the permit be amended to read:

Construction work and complete application of the water to the authorized use shall be prosecuted with reasonable diligence and completed by December 31, 2030.

(0000009)

2. All other terms and conditions of Permit 992 are still applicable.

Dated: **AUG 24 2001**

STATE WATER RESOURCES CONTROL BOARD

David R. Bevinger
for Chief, Division of Water Rights

P. 992

STATE OF CALIFORNIA
STATE WATER RESOURCES CONTROL BOARD

In the Matter of Permit 992 (Application 1743)
City of Sacramento

ORDER APPROVING CHANGE IN
POINT OF DIVERSION
AND AMENDING THE PERMIT

SOURCE: Sacramento River
COUNTY: Sacramento

WHEREAS:

1. Permit 992 was issued to the City of Sacramento on February 18, 1922, pursuant to Application 1743.
2. A petition to change a point of diversion under Permit 992 was filed with the State Water Resources Control Board (SWRCB) on March 16, 2000 and the SWRCB has determined that good cause for such change has been shown. Public notice of the change was issued on April 14, 2000 and no protests were received.
3. The SWRCB has determined that the petition for change in point of diversion does not constitute the initiation of a new right nor operate to the injury of any other lawful user of water.
4. Fish, wildlife, and plant species have been or may be listed under the federal Endangered Species Act and/or the California Endangered Species Act. A term should be placed in the permit making the permittee aware of possible obligations resulting from these acts.
5. The permit term relating to the continuing authority of the SWRCB should be updated to conform to section 780(a), title 23 of the California Code of Regulations.
6. A permit term relating to the water quality objectives of the SWRCB should be added to the permit to conform to section 780(b), title 23 of the California Code of Regulations.

NOW, THEREFORE, IT IS ORDERED THAT Permit 992 IS AMENDED TO READ AS FOLLOWS:

1. The points of diversion for Permit 992 are amended to read as follows:

- (1) City of Sacramento Water Treatment Plant – A point of diversion located at North 337,400 and East 2,141,400, California Coordinate System of 1927, Zone 2, being within the SE $\frac{1}{4}$ of NE $\frac{1}{4}$ of said Section 35 T9N R4E MDB&M. (The current point of diversion; the existing City of Sacramento Water Treatment Plant intake structure located at North 338,100 and East 2,141,300, 1927 California Coordinate System Zone 2, being within the S $\frac{1}{2}$ of NE $\frac{1}{4}$ of Section 35 T9N R4E MDB&M; will be used until the completion of construction of the new intake structure. Upon completion of construction, the current point of diversion will be abandoned.)
- (2) Inlet at North 330,133.46 and East 2,139,393.33, California Coordinate System of 1927, Zone 2, being within the NE $\frac{1}{4}$ of NW $\frac{1}{4}$ of projected section 2 T8N R4E MDB&M

2. The continuing authority condition shall be updated to read as follows:

Pursuant to California Water Code sections 100 and 275 and the common law public trust doctrine, all rights and privileges under this permit, including method of diversion, method of use, and quantity of water diverted, are subject to the continuing authority of the SWRCB in accordance with law and in the interest of the public welfare to protect public trust uses and to prevent waste, unreasonable use, unreasonable method of use, or unreasonable method of diversion of said water.

The continuing authority of the SWRCB may be exercised by imposing specific requirements over and above those contained in this permit with a view to eliminating waste of water and to meeting the reasonable water requirements of licensee without unreasonable draft on the source. Permittee may be required to implement a water conservation plan, features of which may include but not necessarily be limited to: (1) reusing or reclaiming the water allocated; (2) using water reclaimed by another entity instead of all or part of the water allocated; (3) restricting diversions so as to eliminate agricultural tailwater or to reduce return flow; (4) suppressing evaporation losses from water surfaces; (5) controlling phreatophytic growth; and (6) installing, maintaining, and operating efficient water measuring devices to assure compliance with the quantity limitations of this permit and to determine accurately water use as against reasonable water requirement for the authorized project. No action will be taken pursuant to this paragraph unless the SWRCB determines, after notice to affected parties and opportunity for hearing, that such specific requirements are physically and financially feasible and are appropriate to the particular situation. The continuing authority of the SWRCB also may be exercised by imposing further limitations on the diversion and use of water by the permittee in order to protect public trust uses.

No action will be taken pursuant to this paragraph unless the SWRCB determines, after notice to affected parties and opportunity for hearing, that such action is consistent with California Constitution article X, section 2; is consistent with the public interest and is necessary to preserve or restore the uses protected by the public trust.

(0000012)

3. A water quality objectives condition shall be added to Permit 992 to read as follows:

The quantity of water diverted under this permit is subject to modification by the SWRCB if, after notice to the licensee and an opportunity for hearing, the SWRCB finds that such modification is necessary to meet water quality objectives in water quality control plans which have been or hereafter may be established or modified pursuant to Division 7 of the Water Code. No action will be taken pursuant to this paragraph unless the SWRCB finds that: (1) adequate waste discharge requirements have been prescribed and are in effect with respect to all waste discharges which have any substantial effect upon water quality in the area involved, and (2) the water quality objectives cannot be achieved solely through the control of waste discharges.

(0000013)

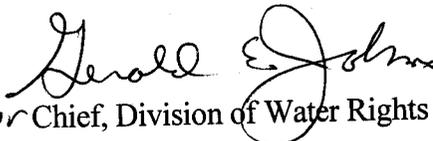

4. An endangered Species term shall be added to Permit 992 to read as follows:

This permit does not authorize any act which results in the taking of a threatened or endangered species or any act which is now prohibited, or becomes prohibited in the future, under either the California Endangered Species Act (Fish and Game Code sections 2050 to 2097) or the federal Endangered Species Act (16 U.S.C.A. sections 1531 to 1544). If a "take" will result from any act authorized under this water right, the permittee shall obtain authorization for an incidental take prior to construction or operation of the project. Permittee shall be responsible for meeting all requirements of the applicable Endangered Species Act for the project authorized under this permit.

ORDER APPROVING A NEW DEVELOPMENT SCHEDULE
AND AMENDING PERMIT

WHEREAS:

1. A petition for extension of time within which to develop the project and apply the water to the proposed use has been filed with the State Water Resources Control Board.
2. It appears that the permittee has proceeded with diligence and that good cause has been shown for extension of time.

NOW, THEREFORE, IT IS ORDERED THAT:

1. A new development schedule is approved as follows:

CONSTRUCTION WORK SHALL BE COMPLETED ON OR BEFORE DECEMBER 1, 1988

APPLICATION OF THE WATER TO THE PROPOSED USE

SHALL BE COMPLETED ON OR BEFORE

DECEMBER 1, 1988

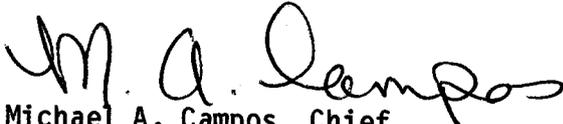

2. Paragraph 3 of the permit be amended to read as follows:

Pursuant to California Water Code Sections 100 and 275, all rights and privileges under this permit and under any license issued pursuant thereto, including method of diversion, method of use, and quantity of water diverted, are subject to the continuing authority of the State Water Resources Control Board in accordance with law and in the interest of the public welfare to prevent waste, unreasonable use, unreasonable method of use, or unreasonable method of diversion of said water.

The continuing authority of the Board may be exercised by imposing specific requirements over and above those contained in this permit with a view to minimizing waste of water and to meeting the reasonable water requirements of permittee without unreasonable draft on the source. Permittee may be required to implement such programs as (1) reusing or reclaiming the water allocated; (2) using water reclaimed by another entity instead of all or part of the water allocated; (3) restricting diversions so as to eliminate agricultural tailwater or to reduce return flow; (4) suppressing evaporation losses from water surfaces; (5) controlling phreatophytic growth; and

(6) to installing, maintaining, and operating efficient water measuring devices to assure compliance with the quantity limitations of this permit and to determine accurately water use as against reasonable water requirements for the authorized project. No action will be taken pursuant to this paragraph unless the Board determines, after notice to affected parties and opportunity for hearing, that such specific requirements are physically and financially feasible and are appropriate to the particular situation.

ORDER ALLOWING CHANGE IN POINT OF DIVERSION AND AMENDING PERMIT

WHEREAS:

1. A petition for change in point of diversion under Permit 992 has been filed with the State Water Resources Control Board.
2. The Board has determined that good cause for such change has been shown and will not operate to the injury of any other legal user of water involved.

NOW, THEREFORE, IT IS ORDERED:

1. That permission is hereby granted change the point of diversion under Permit 992 to points of diversion described as follows:
 - (1) 2,510 feet more or less south 45° west of NE corner Section 35, T9N, R4E. Also 2710 feet more or less north 5° west of Southern Pacific Railroad Bridge across Sacramento River at Sacramento being within SW $\frac{1}{4}$ of NE $\frac{1}{4}$ of Section 35, T9N, R4E, MDB&M.
 - (2) Inlet at north 330, 133.46 and east 2,139,393.33, MDB&M, California Coordinate System, Zone 2, being within NE $\frac{1}{4}$ of NW $\frac{1}{4}$ of projected Section 2, T8N, R4E, MDB&M.
2. That paragraph 1 be added to the Permit to read as follows:

Progress reports shall be submitted promptly by permittee when requested by the State Water Resources Control Board until license is issued.
3. That paragraph 2 be added to the Permit to read as follows:

Permittee shall allow representatives of the State Water Resources Control Board and other parties, as may be authorized from time to time by said Board, reasonable access to project works to determine compliance with the terms of this permit.
4. That paragraph 3 be added to the Permit to read as follows:

Pursuant to California Water Code Section 100, all rights and privileges under this permit and under any license issued pursuant thereto, including method of diversion, method of use, and quantity of water diverted, are subject to the continuing authority of the State Water Resources

Control Board in accordance with law and in the interest of the public welfare to prevent waste, unreasonable use, unreasonable method of use, or unreasonable method of diversion of said water.

This continuing authority of the Board may be exercised by imposing specific requirements over and above those contained in this permit with a view to minimizing waste of water and to meeting the reasonable water requirements of permittee without unreasonable draft on the source. Permittee may be required to implement such programs as (1) reusing or reclaiming the water allocated; (2) restricting diversions so as to eliminate agricultural tailwater or to reduce return flow; (3) suppressing evaporation losses from water surfaces; (4) controlling phreatophytic growth; and (5) installing, maintaining, and operating efficient water measuring devices to assure compliance with the quantity limitations of this permit and to determine accurately water use as against reasonable water requirements for the authorized project. No action will be taken pursuant to this paragraph unless the Board determines, after notice to affected parties and opportunity for hearing, that such specific requirements are physically and financially feasible and are appropriate to the particular situation.

5. That paragraph 4 be added to the Permit to read as follows:

The quantity of water diverted under this permit and under any license issued pursuant thereto is subject to modification by the State Water Resources Control Board if, after notice to the permittee and an opportunity for hearing, the Board finds that such modification is necessary to meet water quality objectives in water quality control plans which have been or hereafter may be established or modified pursuant to Division 7 of the Water Code. No action will be taken pursuant to this paragraph unless the Board finds that (1) adequate waste discharge requirements have been prescribed and are in effect with respect to all waste discharges which have any substantial effect upon water quality in the area involved, and (2) the water quality objective cannot be achieved solely through the control of waste discharges.

ORDER APPROVING A NEW DEVELOPMENT SCHEDULE
AND LIMITING TOTAL ANNUAL DIVERSION

APPLICATION 1743

PERMIT 992

The State Water Resources Control Board having determined that good cause has been shown for extension of time within which to develop the project proposed by Permit 992 and that a limitation of the total annual diversion to 81,800 acre-feet per annum under this permit is in conformity with a contract between permittee and the U. S. Bureau of Reclamation; and having directed that this order be issued;

NOW, THEREFORE, IT IS ORDERED that a new development schedule be and the same is hereby approved as follows:

Construction work shall be completed on or before December 1, 1978; application of water to the proposed use shall be completed on or before December 1, 1978;
and

IT IS FURTHER ORDERED that the total annual diversion allowed under said Permit 992 be and the same is hereby limited to 81,800 acre-feet.

Permit No. _____

AMENDED APPLICATION FOR A PERMIT

to Appropriate Unappropriated Waters of the State of California FOR MUNICIPAL PURPOSES

I, _____ of California, do hereby make application for a permit to appropriate the following described public waters of the State of California, SUBJECT TO EXISTING RIGHTS:

If the applicant is a corporation, give date and place of incorporation First incorporated 1951

1. The source of the proposed appropriation is Sacramento River (Name of stream, lake, or other source)

located in Sacramento County, tributary of _____

2. The amount of water which the applicant intends to apply to beneficial use is Three Hundred (300) cubic feet per second. (One cubic foot per second equals 40 miner's inches)

3. The use to which the water is to be applied is Municipal Water Supply for General Purposes

(Give distance and bearing to section corner)

located at Northern Pacific R.R. Bridge across Sacramento River at Sacramento.

lying within the 1/4 quarter (1/4) of U.S. quarter (1/4) (Give smallest legal subdivision not to exceed 40 acres)

Sec. 25 Twp. 9 N. R. 4 E. M., in the county of Sacramento

5. The main intake pipe line to be 1,000 ft. ± in length, terminating in the filtration tank, thence to City Distributing System of _____ (Smallest legal subdivision)

Q. N. 20 N. R. 4 E. M., the proposed location being shown throughout on the accompanying map

6. The name of the ditch, canal or other works is Filtration Plant.

7. (a) Height of dam _____ feet; length on top _____ feet; length at bottom _____ feet; material to be used and character of construction _____ (Loose rock, concrete, masonry, rock and timber crib, etc., wasteway over or around dam)

(b) Description of headgate Yellow cone gate concrete with four _____ (Timber, concrete, etc.)

_____ openings. _____ (Number and size of openings)

17

NOTE - In case of insufficient space for answers in form attach extra sheets.

Canal System

8. Give dimensions at each point of canal where materially changed in size, stating miles from headgate:

(a) At headgate: Width on top (at water line)-----feet; width on bottom-----

feet; depth of water-----feet; grade-----feet fall per one thousand feet.

(b) At-----miles from headgate: Width on top (at water line)-----feet

width on bottom-----feet; depth of water-----feet; grade-----

IRRIGATION PLANT WORKS: LIST OF CAPACITIES

Site - Suitable for works having capacity of - - - - -	400	sec. ft.
Intake and Intake Lines - - - - -	300	" "
Low Lift pumping Installation, present proposed installation - - - - -	124	" "
High Lift pumping Installation, present proposed installation - - - - -	116	" "
Coagulating Basins - - - - -	43.5	acre ft.
10 Rapid Sand Filters (at overload) - - - - -	93.0	sec. ft.
Clear Water Basin - - - - -	27.6	acre ft.
42 in. and 36 in. pressure lines to City - - - - -	155.0	sec. ft.

Height of dam above water line when full-----feet.

12. Character of construction of dam and the materials of which it is to be built-----

13. Estimated cost of/proposed works, \$-----^{total} 1,800,000

14. Construction work will begin on or before-----1921

15. Construction work will be completed on or before-----1923 Amended by order of OCT 20 1950

16. The water will be completely applied to the proposed use on or before-----1923 Amended by order of OCT 20 1950

17. To supply the city of-----Sacramento, Sacramento-----County

city's amount of water needed-----300 cfs. sec. in 1950

Character of construction: concrete, reinforced concrete, iron and steel---Permanent construction.

18
19. It is understood and agreed that this application and the permit and license which may be granted hereunder shall be subject to all the conditions set forth in Section 20 of the Water Commission Act (Statutes 1913, Chapter 586), which is as follows:

SEC. 20. All permits and licenses for the appropriation of water shall be under the terms and conditions of this act, and shall be valid for such time as the water actually appropriated under such permits and licenses shall actually be used for the useful and beneficial purpose for which said water was appropriated, but no longer; and every such permit or license shall include the enumeration of the conditions therein which in substance shall include all of the provisions of this section and likewise the statement that any appropriator, to whom said permit or license may be issued, shall take the same subject to such conditions as therein expressed; provided, however, that if, at any time after the expiration of twenty years after the granting of a license, the state, or any city, city and county, municipal water district, irrigation district, lighting district, or any political subdivision of the state shall have the right to purchase the works and property occupied and used under said license and the works built or constructed for the enjoyment of the rights granted under said license; and in the event that the said state, city, city and county, municipal water district, irrigation district, lighting district or any political subdivision of the state so desiring to purchase and the said owner of said works and property can not agree upon said purchase price, said price shall be determined in such manner as is now or may hereafter be determined in eminent domain proceedings; and the said owner shall appear to the state water commission at any time after a permit or license is issued as in this act provided that the permittee, licensee, or the heirs, successors or assigns of said permittee or licensee, has not put the water granted under said permit or license to such useful or beneficial purpose for which the permit or license was granted, or that the permittee or licensee, or the heirs, successors or assigns of said permittee or licensee, has ceased to put said water to such useful or beneficial purpose, or that the permittee or licensee, or the heirs, successors or assigns of said permittee or licensee, has failed to observe any of the terms and conditions of said permit or license as issued, then and in that case the said commission, after due notice to the permittee, licensee, or the heirs, successors or assigns of such permittee or licensee, and a hearing thereon, may revoke said permit or license, and declare the water appropriated thereunder to be unappropriated and open to further appropriation in accordance with the terms of this act. And the findings and declaration of the said commission shall be deemed to be prima facie correct until modified or set aside by a court of competent jurisdiction; provided, however, that any action brought so to modify or set aside such finding or declaration must be commenced within thirty days after the date of the said finding or declaration.

the proceeds of the sale of the property so appropriated shall at any time be assigned to or credited to the account of the state water commission.

or in respect to any valuation for purposes of sale to or purchase, whether through condemnation proceedings or otherwise, of the rights and property of any permittee or licensee, or the possessor of any rights granted, issued, or acquired under the provisions of this act. The application for a permit by municipalities for the use of water for said municipalities or the inhabitants thereof for domestic purposes shall be considered first in right, irrespective of whether they are first in time; provided, however, that the application for a permit or the granting thereafter of permission to any municipality to appropriate waters, shall not authorize the appropriation of any water for other than municipal purposes; and providing, further, that where permission to appropriate water is granted by the state water commission to any municipality for any quantity of water in excess of the existing municipal needs therefor, that pending the application of the entire appropriation permitted, the state water commission shall have the power to issue permits for the temporary appropriation of the excess of such permitted appropriation over and above the quantity being applied for to time by such municipality; and providing, further, that in lieu of the granting of such temporary permits for appropriation, the state water commission may authorize such municipality to become as to such surplus a public utility, subject to the jurisdiction and control of the railroad commission of the State of California for such period or periods from and after the date of the issuance of such permit to appropriate, as may be allowed for the application to municipal uses of the entire appropriation permitted; and providing, further, that when such municipality shall desire to use the additional water granted in its said application it may so do upon making compensation for the facilities for taking, conveying and storing such additional water rendered valueless for said purposes, the person, firm or corporation which constructed said facilities for the temporary use of said excess waters, and which compensation is not agreed upon between the municipality and said person, firm or corporation, may be determined in the manner provided by law for determining the value of property taken by and through eminent domain proceedings.

This is to certify that we have examined the application of which the foregoing is a true and correct copy and hereby grant the same, subject to VESTED RIGHTS and the following limitations and conditions, in addition to those enumerated in Section 20 (Statutes 1913, Chapter 586) set forth above, to-wit:

That water may be diverted to the full capacity of the pumping plant diverting works to be constructed for such time during any thirty day period to result in an amount equivalent to continuous flow allowance.

The maximum amount herein stated may be reduced in the license if investigation so warrants.

Actual construction work shall begin on or before April 1st, 1922

and shall thereafter be prosecuted with reasonable diligence, and if not so commenced and prosecuted this permit may be revoked.

The amount of water appropriated shall be limited to the amount which can be applied to beneficial use and (Two hundred twenty-five) (225) cubic feet per second from January 1st to December 31st of each season, or its equivalent in case of rotation as stated above.

Said construction work shall be completed on or before April 1st, 1924

Complete application of the water to the proposed use shall be made ~~on or before~~ according to a graduated scale of use increasing from time to time as follows:
