

STATE OF CALIFORNIA
STATE WATER RESOURCES CONTROL BOARD
DIVISION OF WATER RIGHTS

ORDER

Application 17114 Permit 11390 License _____

ORDER TO CORRECT PERMIT

WHEREAS:

1. Permit 11390 was issued to the City of San Luis Obispo on June 16, 1958 pursuant to Application 17114.
2. A request was made by the Whale Rock Commission representing the permittee, the California Men's Colony and the California Polytechnic State University (collectively referred to as "Commission") and the Paso Robles Beach Water Association, Morro Rock Mutual Water Company, County Service Area 10A, and the Cayucos-Morro Bay Cemetary District (collectively referred to as the "Cayucos Area Water Organization") to correct Permit 11390 to reference the new Agreement for Supply of Water from Whale Rock Reservoir to Cayucos Area Water Organizations dated April 17, 1996. The existing agreement is reflected under Condition 8 of Permit 11390 as follows:

This permit is expressly subject to the "Agreement for Supply of Water from Whale Rock Reservoir to Cayucos Area Water Organizations" dated March 20, 1958, among the City of San Luis Obispo, the California Men's Colony of the Department of Corrections of the State of California, the California State Polytechnic College, the Paso Robles Beach Water Association, the Morro Rock Mutual Water Company, County Water Works District No. 7, County Water Works District No. 8, the Cayucos-Morro Bay Cemetary District, and the California Department of Water Resources. The said agreement is by reference made a part of limitations and conditions of this permit.

3. The State Water Resources Control Board (SWRCB) has determined that the correction to existing Condition 8 of Permit 11390 will not initiate a new right nor operate to the injury of any other lawful user of water.
4. The permit condition pertaining to the continuing authority of the SWRCB should be updated to conform to Section 780(a) of the California Code of Regulations.

NOW, THEREFORE, IT IS ORDERED THAT:

1. Condition 8 of the permit be corrected to read:

This permit is expressly subject to the "Agreement for Supply of Water from Whale Rock Reservoir to Cayucos Area Water Organizations" dated April 17, 1996, among the City of San Luis Obispo, the California Men's Colony of the Department of Corrections, California Polytechnic State

University, the Paso Robles Beach Water Association, the Morro Rock Mutual Water Company, County Service Area 10A, Cayucos-Morro Bay Cemetary District, and the California State Department of Water Resources. The said agreement is by reference made a part of limitations and conditions of this permit.

2. Condition 7 of the permit be corrected to read:

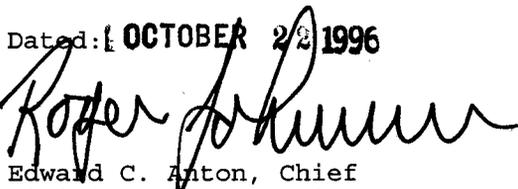

Pursuant to California Water Code Sections 100 and 275, and the common law public trust doctrine, all rights and privileges under this permit and under any license issued pursuant thereto, including method of diversion, method of use, and quantity of water diverted, are subject to the continuing authority of the SWRCB in accordance with law and in the interest of the public welfare to protect public trust uses and to prevent waste, unreasonable use, unreasonable method of use, or unreasonable method of diversion of said water.

The continuing authority of the SWRCB may be exercised by imposing specific requirements over and above those contained in this permit with a view to eliminating waste of water and to meeting the reasonable water requirements of licensee without unreasonable draft on the source. Permittee may be required to implement a water conservation plan, features of which may include but not necessarily be limited to: (1) reusing or reclaiming the water allocated; (2) using water reclaimed by another entity instead of all or part of the water allocated; (3) restricting diversions so as to eliminate agricultural tailwater or to reduce return flow; (4) suppressing evaporation losses from water surfaces; (5) controlling phreatophytic growth; and (6) installing, maintaining, and operating efficient water measuring devices to assure compliance with the quantity limitations of this permit and to determine accurately water use as against reasonable water requirements for the authorized project. No action will be taken pursuant to this paragraph unless the SWRCB determines, after notice to affected parties and opportunity for hearing, that such specific requirements are physically and financially feasible and are appropriate to the particular situation.

The continuing authority of the SWRCB also may be exercised by imposing further limitations on the diversion and use of water by the permittee in order to protect public trust uses. No action will be taken pursuant to this paragraph unless the SWRCB determines, after notice to affected parties and opportunity for hearing, that such action is consistent with California Constitution Article X, Section 2; is consistent with the public interest and is necessary to preserve or restore the uses protected by the public trust.

ORDER

Application 17114 Permit 11390 License _____

**ORDER APPROVING A NEW DEVELOPMENT SCHEDULE
AND AMENDING THE PERMIT**

WHEREAS:

1. Permit 11390 was issued to City of San Luis Obispo on June 16, 1958 pursuant to Application 17114.
2. A petition for an extension of time within which to develop the project and apply the water to the proposed use has been filed with the State Water Resources Control Board (SWRCB).
3. The permittee has proceeded with diligence and good cause has been shown for said extension of time.
4. Permit Condition 7 pertaining to the continuing authority of the SWRCB should be updated to conform to Section 780(a), Title 23 of the California Code of Regulations.
5. To mitigate for the loss of natural Steelhead habitat in Old Creek, as a result of the construction and operation of Whale Rock reservoir, a condition is added to this permit requiring the development of Steelhead habitat in Pennington Creek.

NOW, THEREFORE, IT IS ORDERED THAT:

1. Condition 5 of the permit be amended to read:

COMPLETE APPLICATION OF THE
WATER TO THE PROPOSED USE
SHALL BE MADE ON OR BEFORE

December 31, 2005 (000009)

2. Condition 7 of the permit be amended to read:

Pursuant to California Water Code Sections 100 and 275, and the common law public trust doctrine, all rights and privileges under this permit and under any license issued pursuant thereto, including method of diversion, method of use, and quantity of water diverted, are subject to the continuing authority of the State Water Resources Control Board in accordance with law and in the interest of the public welfare to protect public trust uses and to prevent waste, unreasonable use, unreasonable method of use, or unreasonable method of diversion of said water.

The continuing authority of the Board may be exercised by imposing specific requirements over and above those contained in this permit with a view to eliminating waste of water and to meeting the reasonable water requirements of permittee without unreasonable draft on the source. Permittee may be required to implement a water conservation plan, features of which may include but not necessarily be limited to: (1) reusing or reclaiming the water allocated; (2) using water reclaimed by another entity instead of all or part of the water allocated; (3) restricting diversions so as to eliminate agricultural tailwater or to reduce return flow; (4) suppressing evaporation losses from water surfaces; (5) controlling phreatophytic growth; and (6) installing, maintaining, and operating efficient water measuring devices to assure compliance with the quantity limitations of this permit and to determine accurately water use as against reasonable water requirements for the authorized project. No action will be taken pursuant to this paragraph unless the Board determines, after notice to affected parties and opportunity for hearing, that such specific requirements are physically and financially feasible and are appropriate to the particular situation.

The continuing authority of the Board also may be exercised by imposing further limitations on the diversion and use of water by the permittee in order to protect public trust uses. No action will be taken pursuant to this paragraph unless the Board determines, after notice to affected parties and opportunity for hearing, that such action is consistent with California Constitution Article X, Section 2; is consistent with the public interest and is necessary to preserve or restore the uses protected by the public trust.

(0000012)

3. The Permittee shall develop a habitat restoration plan to remove fish passage obstructions in Pennington Creek for enhancing access to Steelhead spawning habitat. The length of restored habitat will be approximately equal to the length of viable spawning habitat in Old Creek which was lost due to the construction and operation of White Rock Reservoir.

The habitat restoration plan shall receive prior written approval by the State Department of Fish and Game and shall be submitted for approval to the Chief of the State Division of Water Rights within six months of the date of this order. The Plan shall be fully implemented within three years from the date of this order. The Permittee shall provide written documentation from the State Department of Fish and Game that the approved plan has been fully implemented.

ORDER ALLOWING CHANGE IN PLACE OF USE

Application 17114

Permit 11390

WHEREAS the State Water Resources Control Board has found that the change in place of use under Application 17114, Permit 11390, for which petition was submitted on January 8, 1968, will not operate to the injury of any other legal user of water, and

WHEREAS the Board has approved and allowed said change and has directed that an order be issued to describe said place of use in accordance with said petition;

NOW THEREFORE IT IS ORDERED that permission be and the same is hereby granted to change the place of use under said Application 17114, Permit 11390, to a place of use described as follows, to wit:

CITY OF SAN LUIS OBISPO AND VICINITY INCLUDING
CUESTA JUNIOR COLLEGE AND ENVIRONS DESCRIBED AS
BEING WITHIN T30S, R11E, T30S, R12E, T31S, R12E,
AND T31S, R13E, MDB&M, AS OUTLINED ON MAP FILED
WITH STATE WATER RESOURCES CONTROL BOARD.

Dated: JUL 18 1968

K. L. Woodward, Chief
Division of Water Rights

IMPORTANT

[Please Read Carefully]

1. Note the terms and conditions of this permit. Construction work must be prosecuted, and the water applied to the beneficial uses intended with due diligence. Annual reports of progress will be expected from you upon forms which will be furnished for the purpose. When the water has been fully applied to the beneficial uses intended the Water Code requires that you notify the State Water Rights Board thereof.
2. Neither this application nor the permit is a water right, but if the terms and conditions of the permit are observed a water right can be obtained through beneficial use of the water—the extent of the right to be determined by a field inspection which will be made by a representative of the State Water Rights Board.
3. No change in point of diversion, or place of use or character of use, can be made under this application and permit without the approval of the State Water Rights Board.
4. If the rights under this permit are assigned immediate notice to that effect with the name and address of the new owner should be forwarded to the State Water Rights Board, Sacramento, California.
5. Please advise immediately of any change of address. Until otherwise advised communications will be sent to the address used in the letter transmitting this permit.

[For full information concerning the filling out of this form refer to
Article 4 of Rules and Regulations Pertaining to Appropriation of Water]

STATE OF CALIFORNIA—STATE WATER RIGHTS BOARD

Application No. 17114 Filed June 7, 1956 at 8:02 A. M.
(Applicant must not fill in the above blanks)

APPLICATION TO APPROPRIATE UNAPPROPRIATED WATER

AMENDED APPLICATION RECEIVED AUGUST 16, 1956

I, *City of San Luis Obispo, a municipal corporation,
Name of applicant
of San Luis Obispo County of San Luis Obispo
Address
State of California, do hereby make application for a permit to appropriate the
following described unappropriated waters of the State of California, *SUBJECT TO VESTED RIGHTS*:

Source, Amount, Use and Location of Diversion Works

1. The source of the proposed appropriation is Old Creek
Give name of stream, lake, etc., if named; if unnamed state nature of source and that it is unnamed
located in San Luis Obispo County, tributary to Pacific Ocean

2. The amount of water which applicant desires to appropriate under this application is as follows:

(a) For diversion to be directly applied to beneficial use 16 cubic feet per
1 cubic foot per second equals 40 statute miner's inches or 646,317 gallons per day
second, to be diverted from January 1 to December 31 of each year.
Beginning date Closing date

(b) For diversion to be stored and later applied to beneficial use 22,040 acre-feet
1 acre-foot equals 325,851 gallons
per annum, to be collected between November 1 and June 30 of each season.
Beginning date Closing date

NOTE.—Answer (a) or (b) or both (a) and (b) as may be necessary. If amount under (a) is less than .025 cubic foot per second, state in gallons per day. Neither the amount nor the season may be increased after application is filed. If underground storage is proposed a special supplemental form will be supplied by the State Water Rights Board upon request.

3. The use to which the water is to be applied is municipal
Domestic, irrigation, power, municipal, mining, industrial, recreational
purposes.

4. The point of diversion is to be located S. 36° 38' 35" E - 1818.24 feet from the SW corner
State bearing and distance or coordinate distances from section or quarter section corner
of Section 34, T28S, R10E, MDB&M

being within the NW¼ of NE¼
projected State 40-acre subdivision of public land survey or projection thereof
of Section 3, T. 29S, R. 10E, MD B. & M., in the County of San Luis Obispo
projected

5. The main conduit terminates in SE¼ of SE¼ of Sec. 10, T. 30S, R. 12E, MD B. & M.
State 40-acre subdivision of U. S. Government survey or projection thereof

Description of Diversion Works

NOTE.—An application cannot be approved for an amount grossly in excess of the estimated capacity of the diversion works.

6. Intake or Headworks (fill only those blanks which apply)

(a) Diversion will be made by pumping from _____
Sump, offset wall, unobstructed channel, etc.

(b) Diversion will be by gravity, the diverting dam being _____ feet in height (stream bed to
level of overflow); _____ feet long on top; and constructed of _____
Concrete, earth, brush, etc.

(c) The storage dam will be 163 feet in height (stream bed to overflow level); 720 feet
long on top; have a freeboard of 12 feet, and be constructed of earthfill
Concrete, earth, etc.

7. Storage Reservoir Whale Rock & 35
Name Lot 38, T28S, R10E Book B Patents pgs 48/U.S. Gov. Rec
The storage reservoir will flood lands in Secs. 26, 27, 34, 35, T28S, R10E, MDB&M
Indicates section or sections, also 40-acre subdivisions unless shown upon map

It will have a surface area of 610 acres, and a capacity of 40,000 acre-feet.

In case of insufficient space for answers in form, attach extra sheets at top of page 3 and cross reference.

8. Conduit System (describe main conduits only)

(a) Canal, ditch, flume: Width on top (at water line) _____ feet; width at bottom _____ feet; depth of water _____ feet; length _____ feet; grade _____ feet per 1,000 feet; materials of construction _____
Cross out two not used
Earth, rock, timber, etc.

(b) Pipe line: Diameter 27 inches; length 94,000 feet; grade 1.9 feet per 1,000 feet; total ^{fall} from intake to outlet _____ feet; kind reinforced concrete
Riveted steel, concrete, wood-stave, etc.

NOTE.—If a combination of different sizes or kinds of conduit is to be used, attach extra sheets with complete description, also show location of each clearly on map.

9. The estimated capacity of the diversion conduit or pumping plant proposed is 16 cubic feet per second
State cubic feet per second or gallons per minute

The estimated cost of the diversion works proposed is \$5,000,000.00
Give only cost of intake, or headworks, pumps, storage reservoirs and main conduits described herein

Completion Schedule

10. Construction work will begin on or before 2 years after approval of this application
 Construction work will be completed on or before 5 years after approval of this application
 The water will be completely applied to the proposed use on or before 1990

Description of Proposed Use

11. Place of Use. City of San Luis Obispo and vicinity, in Sections 21, 22, 23, 24, 25, 26, 27, 28, 34, 35, 36, T30S, R12E - Sections 1, 2, 3, T31S, R12E, MDB&M, as
State 40-acre subdivisions of the public land survey. If area is unsurveyed indicate the location as if lines of the public land survey were projected. In the case of irrigation use state the number of acres to be irrigated in each 40-acre tract, if space permits. If space does not permit listing of all 40-acre tracts, describe area in a general way and show detail upon map.
shown on map filed with State Water Rights Board.

Do(es) applicant(s) own the land whereon use of water will be made? Yes Jointly? _____
 It is also proposed to supply water to the Department of ^{Yes or No} Corrections and the ^{Yes or No} State of ~~California Polytechnic College~~ under their own applications
If applicant does not own land whereon use of water will be made, give name and address of owner and state what arrangements have been made with him.

12. Other Rights. Describe all rights except those on file with the State Water Rights Board under which water is served to the above named lands.

Nature of Right (riparian, appropriative, purchased water, etc.)	Year of First Use	Use made in recent years including amount if known	Season of Use	Source of Other Supply
1.				
2.				
3.				
4.				

Attach supplement at top of page 3 if necessary.

13. Irrigation Use. The area to be irrigated is _____ acres.
State net acreage to be irrigated

The segregation of acreage as to crops is as follows: Rice _____ acres; alfalfa _____ acres; orchard _____ acres; general crops _____ acres; pasture _____ acres.

NOTE.—Care should be taken that the various statements as to acreage are consistent with each other, with the statement in Paragraph 11, and with the map.

The irrigation season will begin about _____ and end about _____
Beginning date Closing date

14. Power Use. The total fall to be utilized is _____ feet.
Difference between nozzle or draft tube water level and first free water surface above

The maximum amount of water to be used through the penstock is _____ cubic feet per second.

The maximum theoretical horsepower capable of being generated by the works is _____ horsepower.
Second feet X fall + 5.5

The use to which the power is to be applied is _____
For distribution and sale or private use, etc.

The nature of the works by means of which power is to be developed is _____
Turbine, Pelton wheel, etc.

The size of the nozzle to be used is _____ inches.

The water ^{will} be returned to _____ in _____ of _____
Name stream State 40-acre subdivision

Sec. _____, T. _____, R. _____, B. & M.

15. Municipal Use. This application is made for the purpose of serving City of San Luis Obispo
Name city or cities, town or towns. Urban areas only
having a present population of 17,600

The estimated average daily consumption during the month of maximum use at the end of each five-year period until the full

amount applied for is put to beneficial use is as follows:

1956	1960	1965	1970	1975	1980	1985	1990
12.6 A. F.	14.8 A. F.	17.7 A. F.	20.5 A. F.	23.3 A. F.	26.1 A. F.	28.9 A. F.	31.7 A. F.

16. Mining Use. The name of the mining property to be served is _____
Name of claim
and the nature of the mines is _____
Gold placer, quartz, etc.

The method of utilizing the water is _____

It is estimated that the ultimate water requirement for this project will be _____
Cubic feet per second, gallons per minute. State basis of estimate

The water will be polluted by chemicals or otherwise _____
Explain nature of pollution, if any

and it will be returned to _____ in _____ of
Name stream State 40-acre subdivision

Sec. _____, T. _____, R. _____, B. & M. _____

17. Other Uses. The nature of the use proposed is _____
Industrial, recreational, domestic, stockwatering, fish culture, etc.

State basis of determination of amount needed. _____
Number of persons, residences, area of domestic lawns and gardens, number and kind of stock, type

Industrial use, and unit requirements.

*This application is to be of equal priority with applications to be filed by
the State of California, Department of Corrections and by the California State
Polytechnic College for the Whale Rock Project.

General

18. Are the maps as required by the Rules and Regulations filed with Application? No If not,
Yes or No
state specifically the time required for filing same 60 days

19. Does the applicant own the land at the proposed point of diversion? No If not, give name and
Yes or No
address of owner and state what steps have been taken to secure right of access thereto Angelo F. and Anna J. Mainini - No steps have been taken to secure right of access Box 137, Cayucos, Calif.

20. What is the name of the post office most used by those living near the proposed point of diversion?
Cayucos, California

21. What are the names and addresses of claimants of water from the source of supply below the proposed point of diversion?

City of San Luis Obispo, Inc.
[SIGNATURE OF APPLICANT] /s/ Fred H. Lucksinger
Mayor

PERMIT No. 11390

This is to certify that the application of which the foregoing is a true and correct copy has been considered and approved by the State Water Rights Board SUBJECT TO VESTED RIGHTS and the following limitations and conditions:

- The amount of water appropriated shall be limited to the amount which can be beneficially used, and shall not exceed **sixteen (16) cubic feet per second by direct diversion to be diverted from January 1 to December 31, and twenty-two thousand forty (22,040) acre-feet** ... about November 1 of each year to

FORM 61-A

PERMIT No. 11390

This is to certify that the application of which the foregoing is a true and correct copy has been considered and approved by the State Water Rights Board SUBJECT TO VESTED RIGHTS and the following limitations and conditions:

1. The amount of water appropriated shall be limited to the amount which can be beneficially used, and shall not exceed **sixteen (16) cubic feet per second by direct diversion to be diverted from January 1 to December 31, and twenty-two thousand forty (22,040) acre-feet per annum by storage to be collected from about November 1 of each year to about June 30 of the succeeding year.** (0000005)

2. The maximum amount herein stated may be reduced in the license if investigation so warrants. (0000006)

3. Actual construction work shall begin on or before **September 1, 1960,** and shall thereafter be prosecuted with reasonable diligence, and if not so commenced and prosecuted this permit may be revoked. (0000007)

4. Said construction work shall be completed on or before **December 1, 1965.** (0000008)

5. Complete application of the water to the proposed use shall be made on or before **December 1, 1990.** (0000009)

6. Progress reports shall be filed promptly by permittee on forms which will be provided annually by the State Water Rights Board until license is issued. (0000010)

7. All rights and privileges under this permit including method of diversion, method of use and quantity of water diverted are subject to the continuing authority of the State Water Rights Board in accordance with law and in the interest of the public welfare to prevent waste, unreasonable use, unreasonable method of use or unreasonable method of diversion of said water. (0000012)

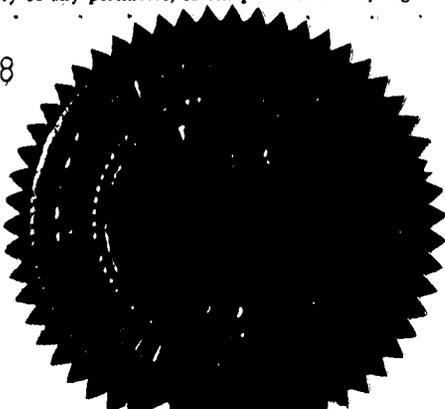

This permit is issued and permittee takes it subject to the following provisions of the Water Code:

Section 1390. A permit shall be effective for such time as the water actually appropriated under it is used for a useful and beneficial purpose in conformity with this division (of the Water Code), but no longer.

Section 1391. Every permit shall include the enumeration of conditions therein which in substance shall include all of the provisions of this article and the statement that any appropriator of water to whom a permit is issued takes it subject to the conditions therein expressed.

Section 1392. Every permittee, if he accepts a permit, does so under the conditions precedent that no value whatsoever in excess of the actual amount paid to the State therefor shall at any time be assigned to or claimed for any permit granted or issued under the provisions of this division (of the Water Code), or for any rights granted or acquired under the provisions of this division (of the Water Code), in respect to the regulation by any competent public authority of the services or the price of the services to be rendered by any permittee or by the holder of any rights granted or acquired under the provisions of this division (of the Water Code) or in respect to any valuation for purposes of sale to or purchase, whether through condemnation proceedings or otherwise, by the State or any city, city and county, municipal water district, irrigation district, lighting district, or any political subdivision of the State, of the rights and property of any permittee, or the possessor of any rights granted, issued, or acquired under the provisions of this division (of the Water Code).
