ORDER

APPLICATION 26424 PERMIT 18524 LICENSE _____

ORDER APPROVING A NEW DEVELOPMENT SCHEDULE

WHEREAS:

1. Permit 18524 was issued to Peter A. Gasser on May 19, 1982 pursuant to Application 26424.
2. Permit 18524 was subsequently assigned to William E. Jarvis.
3. A petition for an extension of time within which to develop the project and apply the water to the proposed use has been filed with the State Water Resources Control Board (Board).
4. The permittee has proceeded with diligence and good cause has been shown for said extension of time.

NOW, THEREFORE, IT IS ORDERED THAT:

1. Condition 7 of the permit be amended to read:

COMPLETE APPLICATION OF THE
WATER TO THE PROPOSED USE
SHALL BE MADE ON OR BEFORE

December 31, 1998

PERMIT 18524

LICENSE _____

ORDER APPROVING A NEW DEVELOPMENT SCHEDULE
AND AMENDING THE PERMIT

WHEREAS:

1. Permit 18524 was issued to Peter A. Gasser on May 10, 1982 pursuant to Application 26424.
2. Permit 18524 was subsequently assigned to Tower Conservatory.
3. A petition for extension of time within which to develop the project and apply the water to the proposed use has been filed with the State Water Resources Control Board.
4. The permittee has proceeded with diligence and good cause has been shown for extension of time.
5. Permit Condition 10 pertaining to the continuing authority of the Board should be updated to conform to standard permit term 12 as contained in Title 23, California Code of Regulations, Section 780(a).

NOW, THEREFORE, IT IS ORDERED THAT:

1. Condition 7 of the permit be amended to read:

CONSTRUCTION WORK SHALL BE
COMPLETED ON OR BEFORE

December 31, 1991 (0000008)

COMPLETE APPLICATION OF THE
WATER TO THE PROPOSED USE
SHALL BE MADE ON OR BEFORE

December 31, 1992 (0000009)

2. Condition 10 of this permit be amended to read:

Pursuant to California Water Code Sections 100 and 275, and the common law public trust doctrine, all rights and privileges under this permit and under any license issued pursuant thereto, including method of diversion, method of use, and quantity of water diverted, are subject to the continuing authority of the State Water Resources Control Board in accordance with law and in the interest of the public welfare to protect public trust uses and to prevent waste, unreasonable use, unreasonable method of use, or unreasonable method of diversion of said water.

The continuing authority of the Board may be exercised by imposing specific requirements over and above those contained in this permit with a view to eliminating waste of water and to meeting the reasonable water requirements of permittee without unreasonable draft on the source. Permittee may be required to implement a water conservation plan, features of which may include but not necessarily be limited to: (1) reusing or reclaiming the water allocated; (2) using water reclaimed by another entity instead of all or part of the water allocated; (3) restricting diversions so as to eliminate agricultural tailwater or to reduce return flow; (4) suppressing

evaporation losses from water surfaces; (5) controlling phreatophytic growth; and (6) installing, maintaining, and operating efficient water measuring devices to assure compliance with the quantity limitations of this permit and to determine accurately water use as against reasonable water requirements for the authorized project. No action will be taken pursuant to this paragraph unless the Board determines, after notice to affected parties and opportunity for hearing, that such specific requirements are physically and financially feasible and are appropriate to the particular situation.

The continuing authority of the Board also may be exercised by imposing further limitations on the diversion and use of water by the permittee in order to protect public trust uses. No action will be taken pursuant to this paragraph unless the Board determines, after notice to affected parties and opportunity for hearing, that such action is consistent with California Constitution Article X, Section 2; is consistent with the public interest and is necessary to preserve or restore the uses protected by the public trust.

PERMIT FOR DIVERSION AND USE OF WATER

PERMIT 18524

Application 26424 of Peter A. Gasser *owner*
2826 Monticello Road, Napa, California 94558

filed on June 19, 1980, has been approved by the State Water Resources Control Board SUBJECT TO VESTED RIGHTS and to the limitations and conditions of this Permit.

Permittee is hereby authorized to divert and use water as follows:

<p>I. Source:</p> <p><u>Unnamed Stream</u></p> <p>_____</p> <p>_____</p> <p>_____</p> <p>_____</p>	<p style="text-align: right;">Tributary to:</p> <p><u>Milliken Creek thence</u></p> <p><u>Napa River thence</u></p> <p><u>San Pablo Bay</u></p> <p>_____</p> <p>_____</p>
--	---

2. Location of point of diversion:	40-acre subdivision of public land survey or projection thereof	Section	Township	Range	Base and Meridian
Direct Diversion and Diversion to Offstream Storage	SW $\frac{1}{4}$ of SW $\frac{1}{4}$	17	6N	3W	MD
North 620 feet and East 610 feet from SW corner of Section 17					
Offstream Storage and Rediversion	NE $\frac{1}{4}$ of NE $\frac{1}{4}$	19	6N	3W	MD
South 520 feet and West 800 feet from NE corner of Section 19					

County of Napa

3. Purpose of use:	4. Place of use:	Section	Township	Range	Base and Meridian	Acres
Fire Protection						
Recreational						
Stockwatering	Ruby Lake in NE $\frac{1}{4}$ of NE $\frac{1}{4}$	19	6N	3W	MD	
Irrigation	NW $\frac{1}{4}$ of NE $\frac{1}{4}$	19	6N	3W	MD	15
	NE $\frac{1}{4}$ of NE $\frac{1}{4}$	19	6N	3W	MD	15
	SE $\frac{1}{4}$ of NE $\frac{1}{4}$	19	6N	3W	MD	15
					Total	45

The place of use is shown on map filed with the State Water Resources Control Board.

5. The water appropriated shall be limited to the quantity which can be beneficially used and shall not exceed a total 1.0 cubic foot per second by direct diversion to be diverted from April 15 to June 1 of each year and 45 acre-feet per annum by storage to be collected from November 1 of each year to June 1 of the succeeding year. The total amount of water to be taken from the source shall not exceed 135 acre-feet per water year of October 1 to September 30.

This permit does not authorize collection of water to storage outside of the specified season to offset evaporation and seepage losses or for any other purpose.

The maximum rate of diversion to offstream storage shall not exceed 1.0 cubic foot per second. (000 000 5)

6. The amount authorized for appropriation may be reduced in the license if investigation warrants. (000 000 6)

7. Complete application of the water to the authorized use shall be made by December 1, 1986. (000 000 9)

8. Progress reports shall be submitted promptly by permittee when requested by the State Water Resources Control Board until license is issued. (000 000 10)
amended 6-13-88

9. Permittee shall allow representatives of the State Water Resources Control Board and other parties as may be authorized from time to time by said Board, reasonable access to project works to determine compliance with the terms of this permit. (000 001 1)

10. Pursuant to California Water Code Sections 100 and 275, all rights and privileges under this permit and under any license issued pursuant thereto, including method of diversion, method of use, and quantity of water diverted, are subject to the continuing authority of the State Water Resources Control Board in accordance with law and in the interest of the public welfare to prevent waste, unreasonable use, unreasonable methods of use, or unreasonable method of diversion of said water.

The continuing authority of the Board may be exercised by imposing specific requirements over and above those contained in this permit with a view to minimizing waste of water and to meeting the reasonable water requirements of permittee without unreasonable draft on the source. Permittee may be required to implement such programs as (1) reusing or reclaiming the water allocated; (2) using water reclaimed by another entity instead of all or part of the water allocated; (3) restricting diversions so as to eliminate agricultural tailwater or to reduce return flow; (4) suppressing evaporation losses from water surfaces; (5) controlling phreatophytic growth; and (6) installing, maintaining, and operating efficient water measuring devices to assure compliance with the quantity limitations of this permit and to determine accurately water use as against reasonable water requirements for the authorized project. No action will be taken pursuant to this paragraph unless the Board determines, after notice to affected parties and opportunity for hearing, that such specific requirements are physically and financially feasible and are appropriate to the particular situation. (000 001 2)
amended 6-13-88

11. The quantity of water diverted under this permit and under any license issued pursuant thereto is subject to modification by the State Water Resources Control Board if, after notice to the permittee and an opportunity for hearing, the Board finds that such modification is necessary to meet water quality objectives in water quality control plans which have been or hereafter may be established or modified pursuant to Division 7 of the Water Code. No action will be taken pursuant to this paragraph unless the Board finds that (1) adequate waste discharge requirements have been prescribed and are in effect with respect to all waste discharges which have any substantial effect upon water quality in the area involved, and (2) the water quality objectives cannot be achieved solely through the control of waste discharges. (000 001 3)

The water appropriated shall be limited to the quantity which can be beneficially used and shall not exceed a total of 4.0 cubic feet per second by direct diversion to be diverted from April 15 to June 1 of each year and 4.5 cubic feet per second by storage to be collected from November 1 of each year to June 1 of the succeeding year. The total amount of water to be taken from the source shall not exceed 1.2 cubic feet per second for water diverted to California.

This permit does not authorize collection of water to storage outside of the specified season to offset evaporation and seepage losses or for any other purpose.

The maximum rate of diversion to offstream storage shall not exceed 1.0 cubic foot per second.

6. The amount authorized for appropriation may be reduced in this license if investigation warrants.

7. To insure application of the water to the beneficial use shall be made by December 1, 1968.

8. Progress reports shall be submitted promptly by permittee when required by the State Water Resources Control Board until license is issued.

9. Permittee shall allow representatives of the State Water Resources Control Board and other parties as may be authorized from time to time by said Board, reasonable access to project works to view same and to comply with the terms of this permit.

10. Pursuant to California Water Code Sections 100 and 277, all rights and privileges under this permit and under any license issued pursuant thereto, including method of diversion, point of use, and quantity of water diverted, are subject to the controlling authority of the State Water Resources Control Board in accordance with law and in the interest of the public welfare to prevent waste, undue depletion, and reasonable methods of use, or unreasonable method of diversion of said water.

The controlling authority of the Board may be exercised by imposing specific requirements over and above those contained in this permit with a view to minimizing waste of water and to meeting the reasonable water requirements of permittees without unreasonable first on the source. Permittees may be required to implement such programs as (1) retaining or reclaiming the water allocated; (2) using water reclaimed by another entity instead of all or part of the water allocated; (3) restricting diversions so as to minimize agricultural tillage or to reduce return flow; (4) suppressing evaporation losses from water surfaces; (5) controlling phreatophyte growth; and (6) installing, maintaining, and repairing efficient water measuring devices to assure compliance with the quantity limitations of this permit and to determine accurately water use as required for water rights. The Board may also require that such specific notice be taken pursuant to this permit unless the Board determines that notice to affected parties and opportunity for hearing that such specific requirements are physically and financially feasible and are appropriate to the particular situation.

11. The quantity of water diverted under this permit and under any license issued pursuant thereto is subject to modification by the State Water Resources Control Board. After notice to the permittee and an opportunity for hearing, the Board finds that such modification is necessary to protect water quality objectives in water quality control plans which have been or hereafter may be established or modified pursuant to Division 7 of the Water Code, no action will be taken pursuant to this permit unless the Board finds that (1) chemistic waste discharge requirements have been prescribed and are in effect with respect to all waste discharges which have any substantial effect upon water quality in the area involved, and (2) the water quality objectives cannot be achieved solely through the control of waste discharge.

12. Permittee shall, when required by the State Water Resources Control Board, install and maintain an outlet pipe of adequate capacity in his dam as near as practicable to the bottom of the natural stream channel, or provide other means satisfactory to the State Water Resources Control Board, in order that water entering the reservoir which is not authorized for appropriation under this permit may be released.
(0050044)

13. The total quantity of water diverted under this permit, together with that diverted under permits issued pursuant to Applications 26423, shall not exceed 135 acre-feet per annum.
(0000114)

This permit is issued and permittee takes it subject to the following provisions of the Water Code:

Section 1390. A permit shall be effective for such time as the water actually appropriated under it is used for a useful and beneficial purpose in conformity with this division (of the Water Code), but no longer.

Section 1391. Every permit shall include the enumeration of conditions therein which in substance shall include all of the provisions of this article and the statement that any appropriator of water to whom a permit is issued takes it subject to the conditions therein expressed.

Section 1392. Every permittee, if he accepts a permit, does so under the conditions precedent that no value whatsoever in excess of the actual amount paid to the State therefor shall at any time be assigned to or claimed for any permit granted or issued under the provisions of this division (of the Water Code), or for any rights granted or acquired under the provisions of this division (of the Water Code), in respect to the regulation by any competent public authority of the services or the price of the services to be rendered by any permittee or by the holder of any rights granted or acquired under the provisions of this division (of the Water Code) or in respect to any valuation for purposes of sale to or purchase, whether through condemnation proceedings or otherwise, by the State or any city, city and county, municipal water district, irrigation district, lighting district, or any political subdivision of the State, of the rights and property of any permittee, or the possessor of any rights granted, issued, or acquired under the provisions of this division (of the Water Code).
