DIVISION OF WATER RIGHTS

In the Matter of Water Right Permit 20732 (Application 29669)

Mark and Maureen Sanders

ORDER REVOKING WATER RIGHT

SOURCE: Unnamed Stream tributary to Pomponio Creek thence Pacific Ocean

COUNTY: San Mateo

WHEREAS:

1. Mark Sanders (Water Right Holder) is the water right holder or authorized agent for the water right holder of Water Right Permit 20732.
2. On December 7, 2011, the Water Right Holder requested that the State Water Resources Control Board (State Water Board), Division of Water Rights (Division), revoke Water Right Permit 20732.
3. The Division interprets the Water Right Holder's request for revocation as a waiver of the notice and hearing requirements set forth in Water Code sections 1410 et seq.
4. The State Water Board has delegated the authority to revoke water rights to the Deputy Director of the Division pursuant to Resolution No. 2007-0057. The Deputy Director has redelegated this authority to the Assistant Deputy Director and Program Managers, pursuant to redelegation order dated October 4, 2007.

THEREFORE, IT IS ORDERED THAT WATER RIGHT PERMIT 20732 IS HEREBY REVOKED, AND THE WATER IS DECLARED TO BE SUBJECT TO APPROPRIATION.

This revocation may not result in additional water being available for new appropriations if there are applicable restrictions due to past State Water Board decisions regarding water availability.

It is Water Right Holder's responsibility to remove or modify diversion works and impoundments to ensure that water subject to this revocation is not diverted and used. Water Right Holder is hereby put on notice that unauthorized diversion and use of water is considered a trespass and subject to enforcement action under Water Code sections 1052 and 1831. Pursuant to Water Code section 1052, any diversion of water from the point of diversion identified in this permit may be subject to Administrative Civil Liability of up to \$500 per day without further notice. The State Water Board also may issue a Cease and Desist Order in response to an unauthorized diversion or threatened unauthorized diversion pursuant to Water Code section 1831.

Before initiating any work in a stream channel, Water Right Holder should consult with the Department of Fish and Game and the Regional Water Quality Control Board to ensure that removal of project facilities does not adversely affect a fishery or result in unregulated sediment discharge to a waterway. Water Right Holder must also consult with the Department of Water Resources, Division of Safety of Dams, if a jurisdictional size dam will be removed or breached (dam height 25 feet or more, or reservoir volume 50

acre-feet or more). These agencies may require a permit or other approval prior to any construction activity.

Water Right Holder shall document any diversions made under claim of right independent of a permit, license, registration or certification issued by the State Water Board, such as diversions under riparian or pre-1914 rights. With limited exceptions, Water Code section 5101 requires that a Statement of Water Diversion and Use be filed for these diversions. Water Code section 5107 (c)(1) provides that the State Water Board may impose a civil liability of \$1,000, plus \$500 per day for each additional day on which the violation continues if the person fails to file a statement within 30 days after the board has called the violation to the attention of that person. These penalties are in addition to any penalties that may be imposed if the diverter does not hold a valid right or diverts in excess of what is authorized under that right.

DIVISION OF WATER RIGHTS

PERMIT FOR DIVERSION AND USE OF WATER

PERMIT 20732

Application 29669 of Mark Sanders and Maureen Sanders

16075 Skyline Boulevard, Woodside, CA 94062

filed on March 1, 1990, has been approved by the State Water Resources Control Board
SUBJECT TO VESTED RIGHTS and to the limitations and conditions of this Permit.

Permittee is hereby authorized to divert and use water as follows:

1. Source:

Tributary to:

Unnamed Stream

Pomponio Creek thence

Pacific Ocean

2. Location of point of diversion:	40-acre subdivision of public land survey or projection thereof	Section	Township	Range	Base and Meridian
N 298,150 feet and E 1,464,550 feet of California Coordinantes System, Zone 3	SE $\frac{1}{4}$ of SE $\frac{1}{4}$	24	7S	5W	MD

County of San Mateo

3. Purpose of use:	4. Place of use:	Section	Township	Range	Base and Meridian	Acre
Irrigation	SE $\frac{1}{4}$ of SE $\frac{1}{4}$	24	7S	5W	MD	6
	NE $\frac{1}{4}$ of NE $\frac{1}{4}$	25	7S	5W	MD	<u>7</u>
					TOTAL	13

The place of use is shown on map on file with the State Water Resources Control Board.

5. The water appropriated shall be limited to the quantity which can be beneficially used and shall not exceed 14 acre-feet per annum to be collected from December 1 of each year to May 1 of the succeeding year. (0000005)

This permit does not authorize collection of water to storage outside of the specified season to offset evaporation and seepage losses or for any other purpose. (000005I)

The maximum rate of diversion to off stream storage shall not exceed 0.25 cubic feet per second. (000005J)

6. The amount authorized for appropriation may be reduced in the license if investigation warrants. (0000006)

7. Construction work shall begin within two years of the date of this permit and shall thereafter be prosecuted with reasonable diligence, and if not so commenced and prosecuted, this permit may be revoked. (0000007)

8. Construction work shall be completed by December 31, 1997. (0000008)

9. Complete application of the water to the authorized use shall be made by December 31, 1998. (0000009)

10. Progress reports shall be submitted promptly by permittee when requested by the State Water Resources Control Board until a license is issued. (0000010)

11. Permittee shall allow representatives of the State Water Resources Control Board and other parties, as may be authorized from time to time by said Board, reasonable access to project works to determine compliance with the terms of this permit. (0000011)

12. Pursuant to California Water Code Sections 100 and 275, and the common law public trust doctrine, all rights and privileges under this permit and under any license issued pursuant thereto, including method of diversion, method of use, and quantity of water diverted, are subject to the continuing authority of the State Water Resources Control Board in accordance with law and in the interest of the public welfare to protect public trust uses and to prevent waste, unreasonable use, unreasonable method of use or unreasonable method of diversion of said water.

The continuing authority of the Board may be exercised by imposing specific requirements over and above those contained in this permit with a view to eliminating waste of water and to meeting the reasonable water requirements of permittee without unreasonable draft on the source. Permittee may be required to implement a water conservation plan, features of which may include but not necessarily be limited to: (1) reusing or reclaiming the water allocated; (2) using water reclaimed by another entity instead of all or part of the water allocated; (3) restricting diversions so as to eliminate agricultural tailwater or to reduce return flow; (4) suppressing evaporation losses from water surfaces; (5) controlling phreatophytic growth; and (6) installing, maintaining, and operating efficient water measuring devices to assure compliance with the quantity limitations of this permit and to determine accurately water use as against reasonable water requirements for the authorized project. No action will be taken pursuant to this paragraph unless the Board determines, after notice to affected parties and opportunity for hearing, that such specific requirements are physically and financially feasible and are appropriate to the particular situation.

The continuing authority of the Board also may be exercised by imposing further limitations on the diversion and use of water by the permittee in order to protect public trust uses. No action will be taken pursuant to this paragraph unless the Board determines, after notice to affected parties and opportunity for hearing, that such action is consistent with California Constitution Article X, Section 2; is consistent with the public interest and is necessary to preserve or restore the uses protected by the public trust. (0000012)

13. The quantity of water diverted under this permit and under any license issued pursuant thereto is subject to modification by the state Water Resources Control Board if, after notice to the permittee and an opportunity for hearing, the Board finds that such modification is necessary to meet water quality objectives in water quality control plans which have been or hereafter may be established or modified pursuant to Division 7 of the Water Code. No action will be taken pursuant to this paragraph unless the Board finds that (1)adequate waste discharge requirements have been prescribed and are in effect with respect to all waste discharges which have any substantial effect upon water quality in the area involved, and (2)the water quality objectives cannot be achieved solely through the control of waste discharges. (0000013)

14. During the season specified in this permit, the total quantity and rate of water diverted, stored, and used under this permit and under permittee's claimed existing right for the place of use specified in the permit shall not exceed the quantity and rate of diversion, storage, and use, respectively, specified in this permit. If the permittee's claimed existing right is quantified at some later date as a result of an adjudication or other legally binding proceeding, the quantity and rate of diversion, storage, and use allowed under this permit shall be the net of the face value of the permit less the amounts of water available under the existing right.

Permittee shall forfeit all rights under this permit if permittee transfers all or any part of the claimed existing right for the place of use covered by this permit to another place of use without the prior approval of the State Water Resources Control Board.

Permittee shall take and use water under the existing right claimed by permittee only in accordance with law. (0000021)

15. No construction shall be commenced and no water shall be used under this permit until all necessary federal, state and local approvals have been obtained. (000J001)

16. The State Water Resources Control Board reserves jurisdiction in the public interest to modify the terms and conditions of this permit, including imposition of requirements to alter project facilities or operations and to modify instream flow releases, in the event of unforeseen adverse impacts to fish or wildlife. Board action will be taken only after notice to interested parties and opportunity for hearing. (000M001)

This permit is issued and permittee takes it subject to the following provisions of the Water Code:

Section 1390. A Permit shall be effective for such time as the water actually appropriated under it is used for a useful and beneficial purpose in conformity with this division (of the Water Code), but no longer.

Section 1391. Every permit shall include the enumeration of conditions therein which in substance shall include all of the provisions of this article and the statement that any appropriator of water to whom a permit is issued takes it subject to the conditions therein expressed.

Section 1392. Every permittee, if he accepts a permit, does so under the conditions precedent that no value whatsoever in excess of the actual amount paid to the State therefor shall at any time be assigned to or claimed for any permit granted or issued under the provisions of this division (of the Water Code), or for any rights granted or acquired under the provisions of this division (of the Water Code), in respect to the regulation by any competent public authority of the services or the price of the services to be rendered by any permittee or by the holder of any rights granted or acquired under the provisions of this division (of the Water Code) or in respect to any valuation for purposes of sale to or purchase, whether through condemnation proceedings or otherwise, by the State or any city, city and county, municipal water district, irrigation district, lighting district, or any political subdivision of the State, of the rights and property of any permittee, or the possessor of any rights granted, issued, or acquired under the provisions of this division (of the Water Code).
