In the Matter of Water Right Permit 20818 (Application 30273)

**Burrows Ranch, Inc.**

**ORDER REVOKING WATER RIGHT**

---

SOURCES: (1) Unnamed Streams tributary to Smallwood Gulch  
(2) Smallwood Gulch

COUNTY: Tehama

---

**WHEREAS:**

1. Burrows Ranch, Inc. (Right Holder) is the right holder of Water Right Permit 20818. Bill Burrows (Agent) is the authorized agent for the right holder.
2. On March 10, 2014, the agent requested that the State Water Resources Control Board (State Water Board), Division of Water Rights (Division), revoke Water Right Permit 20818.
3. By signing the voluntary request for revocation, the right holder waived the right to the hearing and notice requirements set forth in Water Code sections 1410 et seq.
4. The State Water Board has delegated the authority to revoke water rights to the Deputy Director for Water Rights (Deputy Director) pursuant to Resolution No. 2012-0029. The Deputy Director has redelegated this authority to the Unit Seniors, pursuant to redelegation order dated July 6, 2012.

**THEREFORE, IT IS ORDERED THAT WATER RIGHT PERMIT 20818 IS HEREBY REVOKED, AND THE WATER IS DECLARED TO BE SUBJECT TO APPROPRIATION.**

This revocation may not result in additional water being available for new appropriations if there are applicable restrictions due to past State Water Board decisions regarding water availability.

It is right holder's responsibility to remove or modify diversion works and impoundments to ensure that water subject to this revocation is not diverted and used. Right holder is hereby put on notice that unauthorized diversion and use of water is considered a trespass and subject to enforcement action under Water Code sections 1052 and 1831. Pursuant to Water Code section 1052, any diversion of water from the points of diversion identified in this water right permit may be subject to Administrative Civil Liability of up to \$500 per day without further notice. The State Water Board also may issue a Cease and Desist Order in response to an unauthorized diversion or threatened unauthorized diversion pursuant to Water Code section 1831.

Before initiating any work in a stream channel, right holder should consult with the Department of Fish and Wildlife and the Regional Water Quality Control Board to ensure that removal of project facilities does not adversely affect a fishery or result in unregulated sediment discharge to a waterway. Right holder must also consult with the Department of Water Resources, Division of Safety of Dams, if a jurisdictional size dam will be removed or breached (dam height 25 feet or more, or reservoir volume 50 acre-feet or more). These agencies may require a permit or other approval prior to any construction activity.

Right holder shall document any diversions made under claim of right independent of a permit, license, registration or certification issued by the State Water Board, such as diversions under riparian or pre-1914 rights. With limited exceptions, Water Code section 5101 requires that a Statement of Water Diversion and Use be filed for these diversions. Water Code section 5107 (c)(1) provides that the State Water Board may impose a civil liability of \$1,000, plus \$500 per day for each additional day on which the violation continues if the person fails to file a statement within 30 days after the board has called the violation to the attention of that person. These penalties are in addition to any penalties that may be imposed if the diverter does not hold a valid right or diverts in excess of what is authorized under that right.

**DIVISION OF WATER RIGHTS**

**PERMIT FOR DIVERSION AND USE OF WATER**

**PERMIT 20818**

Application 30273 of Burrows Ranch Inc.,

12475 Colyear Springs Road, Red Bluff, CA 96080-9413-75

filed on August 9, 1993, has been approved by the State Water Resources Control Board  
 SUBJECT TO PRIOR RIGHTS and to the limitations and conditions of this permit.

Permittee is hereby authorized to divert and use water as follows:

- |                                                                                                                                                                                                                           |                                                                                                                                                                                                                                 |

2. Location of point of diversion:	40-acre subdivision of public land survey or projection thereof	Section	Township	Range	Base and Meridian
<u>Valley Reservoir</u> 1. North 262,200 feet and East 1,837,000 feet	NE $\frac{1}{4}$ of SW $\frac{1}{4}$	6	25N	6W	MD
<u>Coyote Hollow Reservoir</u> 2. North 261,700 feet and East 1,834,900 feet	SE $\frac{1}{4}$ of SE $\frac{1}{4}$	1	25N	7W	MD
<u>National Debt Reservoir</u> 3. North 261,800 feet and East 1,839,400 feet	SE $\frac{1}{4}$ of SE $\frac{1}{4}$	6	25N	6W	MD
<u>Hog Pasture Reservoir</u> 4. North 258,150 feet and East 1,836,850 feet	SE $\frac{1}{4}$ of NW $\frac{1}{4}$	7	25N	6W	MD
All by California Coordinates System, Zone 1					

3. Purpose of use:	4. Place of use:	Section	Township	Range	Base and Meridian	Acres
Fish and Wildlife Protection and/or Enhancement						
Stockwatering	At Valley Reservoir within NE $\frac{1}{4}$ of SW $\frac{1}{4}$	6	25N	6W	MD	
	At Coyote Hollow Reservoir within SE $\frac{1}{4}$ of SE $\frac{1}{4}$	1	25N	7W	MD	
	At National Debt Reservoir within SE $\frac{1}{4}$ of SE $\frac{1}{4}$	6	25N	6W	MD	
	At Hog Pasture Reservoir within SE $\frac{1}{4}$ of NW $\frac{1}{4}$	7	25N	6W	MD	

The place of use is shown on map on file with the State Water Resources Control Board.

5. The water appropriated shall be limited to the quantity which can be beneficially used and shall not exceed a total of 31 acre-feet per annum to be collected from November 15 of each year to May 15 of the succeeding year as follows: 5 acre-feet per annum in Valley Reservoir, 2 acre-feet per annum in Coyote Hollow Reservoir, 14 acre-feet per annum in National Debt Reservoir, and 10 acre-feet per annum in Hog Pasture Reservoir. (0000005)
6. The amount authorized for appropriation may be reduced in the license if investigation warrants. (0000006)
7. Construction work shall be completed by December 31, 2000. (0000008)
8. Complete application of the water to the authorized use shall be made by December 31, 2004. (0000009)
9. Progress reports shall be submitted promptly by permittee when requested by the State Water Resources Control Board until a license is issued. (0000010)
10. Permittee shall allow representatives of the State Water Resources Control Board and other parties, as may be authorized from time to time by said Board, reasonable access to project works to determine compliance with the terms of this permit. (0000011)

11. Pursuant to California Water Code Sections 100 and 275, and the common law public trust doctrine, all rights and privileges under this permit and under any license issued pursuant thereto, including method of diversion, method of use, and quantity of water diverted, are subject to the continuing authority of the State Water Resources Control Board in accordance with law and in the interest of the public welfare to protect public trust uses and to prevent waste, unreasonable use, unreasonable method of use or unreasonable method of diversion of said water.

The continuing authority of the Board may be exercised by imposing specific requirements over and above those contained in this permit with a view to eliminating waste of water and to meeting the reasonable water requirements of permittee without unreasonable draft on the source. Permittee may be required to implement a water conservation plan, features of which may include but not necessarily be limited to (1) reusing or reclaiming the water allocated; (2) using water reclaimed by another entity instead of all or part of the water allocated; (3) restricting diversions so as to eliminate agricultural tailwater or to reduce return flow; (4) suppressing evaporation losses from water surfaces; (5) controlling phreatophytic growth; and (6) installing, maintaining, and operating efficient water measuring devices to assure compliance with the quantity limitations of this permit and to determine accurately water use as against reasonable water requirements for the authorized project. No action will be taken pursuant to this paragraph unless the Board determines, after notice to affected parties and opportunity for hearing, that such specific requirements are physically and financially feasible and are appropriate to the particular situation.

The continuing authority of the Board also may be exercised by imposing further limitations on the diversion and use of water by the permittee in order to protect public trust uses. No action will be taken pursuant to this paragraph unless the Board determines, after notice to affected parties and opportunity for hearing, that such action is consistent with California Constitution Article X, Section 2; is consistent with the public interest; and is necessary to preserve or restore the uses protected by the public trust. (000012)

12. The quantity of water diverted under this permit and under any license issued pursuant thereto is subject to modification by the State Water Resources Control Board if, after notice to the permittee and an opportunity for hearing, the Board finds that such modification is necessary to meet water quality objectives in water quality control plans which have been or hereafter may be established or modified pursuant to Division 7 of the Water Code. No action will be taken pursuant to this paragraph unless the Board finds that (1)adequate waste discharge requirements have been prescribed and are in effect with respect to all waste discharges which have any substantial effect upon water quality in the area involved, and (2)the water quality objectives cannot be achieved solely through the control of waste discharges. (000013)

13. After the initial filling of the storage reservoirs, permittee's right under this permit extends only to water necessary to keep the reservoirs full by replacing water beneficially used and water lost by evaporation and seepage and to refill if emptied for necessary maintenance or repair. Such right shall be exercised only during the authorized diversion season. (000041)

14. This permit is subject to the continuing authority of the State Water Resources Control Board to reduce the amount of water named in the permit upon a finding by the Board that the amount is in excess of that reasonably needed to be held in storage for the authorized use. No action will be taken by the Board without prior notice to the owner and an opportunity for hearing. (000042)

15. Permittee shall install and maintain an outlet pipe of adequate capacity in the dams as near as practicable to the bottom of the natural stream channel, or provide other means satisfactory to the State Water Resources Control Board, in order that water entering the reservoirs which is not authorized for appropriation under this permit may be released. Before storing water in the reservoirs, permittee shall furnish evidence which substantiates that the outlet pipes or alternative facilities have been installed. Evidence shall include photographs showing completed works or certification by a registered Civil or Agricultural Engineer. (005043)

16. This permit is subject to prior rights. Permittee is put on notice that, during some years, water will not be available for diversion during portions or all of the season authorized herein. The annual variations in demands and hydrologic conditions in the Sacramento River basin are such that, in any year of water scarcity, the season of diversion authorized herein may be reduced or completely eliminated on order of this Board made after notice to interested parties and opportunity for hearing. (000090)

**This permit is issued and permittee takes it subject to the following provisions of the Water Code:**

Section 1390. A permit shall be effective for such time as the water actually appropriated under it is used for a useful and beneficial purpose in conformity with this division (of the Water Code), but no longer.

Section 1391. Every permit shall include the enumeration of conditions therein which in substance shall include all of the provisions of this article and the statement that any appropriator of water to whom a permit is issued takes it subject to the conditions therein expressed.

Section 1392. Every permittee, if he accepts a permit, does so under the conditions precedent that no value whatsoever in excess of the actual amount paid to the State therefor shall at any time be assigned to or claimed for any permit granted or issued under the provisions of this division (of the Water Code), or for any rights granted or acquired under the provisions of this division (of the Water Code), in respect to the regulation by any competent public authority of the services or the price of the services to be rendered by any permittee or by the holder of any rights granted or acquired under the provisions of this division (of the Water Code) or in respect to any valuation for purposes of sale to or purchase, whether through condemnation proceedings or otherwise, by the State or any city, city and county, municipal water district, irrigation district, lighting district, or any political subdivision of the State, of the rights and property of any permittee, or the possessor of any rights granted, issued, or acquired under the provisions of this division (of the Water Code).
