

**STATE OF CALIFORNIA  
CALIFORNIA ENVIRONMENTAL PROTECTION AGENCY  
STATE WATER RESOURCES CONTROL BOARD**

**DIVISION OF WATER RIGHTS**

**AMENDED PERMIT FOR DIVERSION AND USE OF WATER**

APPLICATION 30522

PERMIT 21039

of:

Pajaro Valley Water Management Agency  
36 Brennan Street  
Watsonville, CA 95076

The Deputy Director for Water Rights finds that: (a) due diligence has been exercised; (b) failure to comply with previous time requirements has been occasioned by obstacles which could not be reasonably avoided; (c) satisfactory progress will be made if an extension is granted; and (d) the requirements of the California Environmental Quality Act (CEQA) have been met or the project is exempt from CEQA. The amended permit is being issued in accordance with the redelegations of authority (Resolution No. 2012-0029).

Additionally, the State Water Board has complied with its independent obligation to consider the effect of the proposed project on public trust resources and to protect those resources where feasible. (*National Audubon Society v. Superior Court* (1983) 33 Cal.3d 419 [189 Cal.Rptr. 346], 658 P.2d 709.)

Therefore, an amended permit on **Application 30522** filed on **March 11, 1996** has been approved by the State Water Board SUBJECT TO PRIOR RIGHTS and to the limitations and conditions of this amended permit.

**Permittee is hereby authorized to divert and use water as follows:**

1. Source of water

Source:

**(1) No. 2 Harkins Slough**

**(2) No. 3 Watsonville Slough**

Tributary to:

**Watsonville Slough thence Pajaro River**

**Pajaro River thence Pacific Ocean**

within the County of **Santa Cruz**.

2. Location of points of diversion

By California Coordinate System of 1983 in Zone 3	40-acre subdivision of public land survey or projection thereof	Section (Projected)*	Township	Range	Base and Meridian
<b>North 1,785,907 feet and East 6,180,364 feet</b>	<b>SE ¼ of NE ¼</b>	<b>13</b>	<b>12S</b>	<b>1E</b>	<b>MD</b>
<b>North 1,782,907 feet and East 6,178,614 feet</b>	<b>SE ¼ of SW ¼</b>	<b>13</b>	<b>12S</b>	<b>1E</b>	<b>MD</b>

3. Purpose of use	4. Place of use					
	40-acre subdivision of public land survey or projection thereof	Section (Projected)*	Township	Range	Base and Meridian	Acres
<b>Irrigation, Municipal, Industrial, Recreational, Fish and Wildlife Preservation and Enhancement, Fish Culture, Stockwatering, and Water Quality</b>	<b>Within the Pajaro Valley Water Management Agency service area boundary as shown on map dated January 1995.</b>					

The place of use is shown on map filed with the State Water Board.

5. The water appropriated shall be limited to the quantity which can be beneficially used and shall not exceed **30 cubic feet per second** to be diverted from **November 1** to **May 31** of each year. (000005A)
6. The water appropriated shall be limited to the quantity which can be beneficially used and shall not exceed **2,000 acre-feet per annum** to be collected to underground storage at a maximum rate of **30 cubic feet per second** from **November 1** of each year to **May 31** of the succeeding year. (000005H)
7. Construction work and complete application of the water to the authorized use shall be prosecuted with reasonable diligence and completed by December 31, 2021. (000009)
8. Permittee shall comply with the following provisions which are derived from the agreement between Permittee and the Department of Fish and Game dated January 18, 2000 and filed with the State Water Board:
  1. Pumping from Watsonville Slough be based on established, acceptable criteria, such as the water test in the Slough.
  2. Inlets for the pumps be adequately screened to protect fish, amphibians and other wildlife species. The repaired screens will be comprised entirely of ¼ inch wire screen.
  3. Diversions be gauged to insure that the diversion is limited to 2,000 acre feet per year.
  4. For future restoration projects in the degraded slough habitat in both Watsonville and Harkins Slough, the State Water Board will reserve jurisdiction to reopen water right.

Inclusion in this permit of certain provisions of the referenced agreement shall not be construed as disapproval of other provisions of the agreement or as affecting the enforceability, as between the parties, of such other provisions insofar as they are not inconsistent with the terms of this permit. (0000024)
9. Permittee shall comply with the provisions of the agreement between Permittee and the California Coastal Commission dated November 3, 1999 and filed with the State Water Board. (0000024)

10. Prior to diversion of water under this permit, Permittee shall (1) install devices to measure the quantities of water placed into underground storage and (2) install devices to measure or provide documentation of the method to be used to determine the quantity of water recovered from underground storage and placed to beneficial use. All measuring devices and the method of determining the quantity of water recovered from underground storage shall be approved by the State Water Board prior to diversion of water under this permit. All measuring devices shall be properly maintained.

(0080117)

---

**THIS PERMIT IS ALSO SUBJECT TO THE FOLLOWING TERMS AND CONDITIONS:**

- A. The amount authorized for appropriation may be reduced in the license if investigation warrants. (0000006)
- B. Progress reports shall be submitted promptly by permittee when requested by the State Water Board until a license is issued. (0000010)
- C. Permittee shall allow representatives of the State Water Board and other parties, as may be authorized from time to time by the State Water Board, reasonable access to project works to determine compliance with the terms of this permit. (0000011)
- D. Pursuant to California Water Code sections 100 and 275 and the common law public trust doctrine, all rights and privileges under this permit and under any license issued pursuant thereto, including method of diversion, method of use, and quantity of water diverted, are subject to the continuing authority of the State Water Board in accordance with law and in the interest of the public welfare to protect public trust uses and to prevent waste, unreasonable use, unreasonable method of use, or unreasonable method of diversion of said water.

The continuing authority of the State Water Board may be exercised by imposing specific requirements over and above those contained in this permit with a view to eliminating waste of water and to meeting the reasonable water requirements of permittee without unreasonable draft on the source. Permittee may be required to implement a water conservation plan, features of which may include but not necessarily be limited to (1) reusing or reclaiming the water allocated; (2) using water reclaimed by another entity instead of all or part of the water allocated; (3) restricting diversions so as to eliminate agricultural tailwater or to reduce return flow; (4) suppressing evaporation losses from water surfaces; (5) controlling phreatophytic growth; and (6) installing, maintaining, and operating efficient water measuring devices to assure compliance with the quantity limitations of this permit and to determine accurately water use as against reasonable water requirements for the authorized project. No action will be taken pursuant to this paragraph unless the State Water Board determines, after notice to affected parties and opportunity for hearing, that such specific requirements are physically and financially feasible and are appropriate to the particular situation.

The continuing authority of the State Water Board also may be exercised by imposing further limitations on the diversion and use of water by the permittee in order to protect public trust uses. No action will be taken pursuant to this paragraph unless the State Water Board determines, after notice to affected parties and opportunity for hearing, that such action is consistent with California Constitution Article X, Section 2; is consistent with the public interest; and is necessary to preserve or restore the uses protected by the public trust.

(0000012)

- E. The quantity of water diverted under this permit and under any license issued pursuant thereto is subject to modification by the State Water Board if, after notice to the permittee and an opportunity for hearing, the State Water Board finds that such modification is necessary to meet water quality objectives in water quality control plans which have been or hereafter may be established or modified pursuant to Division 7 of the Water Code. No action will be taken pursuant to this paragraph unless the State Water Board finds that (1) adequate waste discharge requirements have been prescribed and are in effect with respect to all waste discharges which have any substantial effect upon water quality in the area involved, and (2) the water quality objectives cannot be achieved solely through the control of waste discharges. (0000013)

- F. This permit does not authorize any act which results in the taking of a threatened or endangered species or any act which is now prohibited, or becomes prohibited in the future, under either the California Endangered Species Act (Fish and Game Code sections 2050 to 2097) or the federal Endangered Species Act (16 U.S.C.A. sections 1531 to 1544). If a "take" will result from any act authorized under this water right, the permittee shall obtain authorization for an incidental take prior to construction or operation of the project. Permittee shall be responsible for meeting all requirements of the applicable Endangered Species Act for the project authorized under this permit. (0000014)
- G. Permittee shall maintain records of the amount of water diverted and used to enable the State Water Board to determine the amount of water that has been applied to beneficial use pursuant to Water Code section 1605. (0000015)
- H. No work shall commence and no water shall be diverted, stored or used under this permit until a copy of a stream or lake alteration agreement between the Department of Fish and Game and the permittee is filed with the Division of Water Rights. Compliance with the terms and conditions of the agreement is the responsibility of the permittee. If a stream or lake agreement is not necessary for this permitted project, the permittee shall provide the Division of Water Rights a copy of a waiver signed by the Department of Fish and Game. (0000063)

***This permit is issued and permittee takes it subject to the following provisions of the Water Code:***

*Section 1390. A permit shall be effective for such time as the water actually appropriated under it is used for a useful and beneficial purpose in conformity with this division (of the Water Code), but no longer.*

*Section 1391. Every permit shall include the enumeration of conditions therein which in substance shall include all of the provisions of this article and the statement that any appropriator of water to whom a permit is issued takes it subject to the conditions therein expressed.*

*Section 1392. Every permittee, if he accepts a permit, does so under the conditions precedent that no value whatsoever in excess of the actual amount paid to the State therefor shall at any time be assigned to or claimed for any permit granted or issued under the provisions of this division (of the Water Code), or for any rights granted or acquired under the provisions of this division (of the Water Code), in respect to the regulation by any competent public authority of the services or the price of the services to be rendered by any permittee or by the holder of any rights granted or acquired under the provisions of this division (of the Water Code) or in respect to any valuation for purposes of sale to or purchase, whether through condemnation proceedings or otherwise, by the State or any city, city and county, municipal water district, irrigation district, lighting district, or any political subdivision of the State, of the rights and property of any permittee, or the possessor of any rights granted, issued, or acquired under the provisions of this division (of the Water Code).*

**DIVISION OF WATER RIGHTS**

**PERMIT FOR DIVERSION AND USE OF WATER**

PERMIT 21039

Application 30522 of **Pajaro Valley Water Management Agency**  
**145 Westridge Drive**  
**Watsonville, CA 95076**

filed on **March 11, 1996**, has been approved by the State Water Resources Control Board (SWRCB) SUBJECT TO PRIOR RIGHTS and to the limitations and conditions of this permit.

**Permittee is hereby authorized to divert and use water as follows:**

1. Source of water

Source <b>No. 2 Harkins Slough</b>	Tributary to <b>Watsonville Slough thence Pajaro River thence Pacific Ocean</b>
<b>No. 3 Watsonville Slough</b>	<b>Pajaro River thence Pacific Ocean</b>

within the County of **Santa Cruz**

2. Location of point of diversion

By California Coordinate System in Zone 3	40-acre subdivision of public land survey or projection thereof	Section (Projected)*	Township	Range	Base and Meridian
<b>No. 2: North 145,500 feet and East 1,619,000 feet</b>	<b>SE ¼ of NE ¼</b>	<b>13</b>	<b>12S</b>	<b>1E</b>	<b>MD</b>
<b>No. 3: North 142,500 feet and East 1,617,250 feet</b>	<b>SE ¼ of SW ¼</b>	<b>13</b>	<b>12S</b>	<b>1E</b>	<b>MD</b>

3. Purpose of use	4. Place of use within the	Section	Township	Range	Base and Meridian	Acres
<b>Irrigation, Municipal, Industrial, Recreational, Fish And Wildlife Enhancement, Fish Culture, Stockwatering, and Water Quality</b>	<b>Pajaro Valley Water Management Agency Service Area**</b>					

**\*\*The place of use for Pajaro Valley Water Management Agency is shown on map on file with the SWRCB dated January 1995.**

5. The water appropriated shall be limited to the quantity, which can be beneficially used and shall not exceed 30 cubic feet per second to be diverted from November 1 to May 31 of each year. (000005A)

The water appropriated shall be limited to the quantity which can be beneficially used and shall not exceed 2,000 acre-feet per annum to be collected to underground storage at a maximum rate of 30 cubic feet per second from November 1 to May 31 of each year.

The total amount taken from the source shall not exceed 2,000 acre-feet per water year of October 1 to September 30. (000005H)

6. Complete application of the water to the authorized use shall be made by December 31, 2011. (000009)

7. The Permittee shall comply with the following provisions which are derived from the agreement between the permittee and the Department of Fish and Game dated, January 18, 2000, and filed with the SWRCB.

- a. Pumping from Watsonville Slough be based on established, acceptable criteria, such as the water test in the Slough.
- b. Inlets for the pumps be adequately screened to protect fish, amphibians and other wildlife species. The repaired screens will be comprised entirely of ¼ inch wire screen.
- c. Diversions be gauged to insure that the diversion is limited to 2,000 acre feet per year.

- d. For future restoration projects in the degraded slough habitat in both Watsonville and Harkins Slough, the SWRCB will reserve jurisdiction to reopen water right.

(0140300)

8. This permit shall be subject to the conditions agreed to by the permittee and the California Coastal Commission dated, November 3, 1999, on file with the SWRCB, as to matters which are within jurisdiction of the SWRCB.

(0210300)

**ALL PERMITS ISSUED BY THE STATE WATER RESOURCES CONTROL BOARD ARE SUBJECT TO THE FOLLOWING TERMS AND CONDITIONS:**

- (A) Permittee shall maintain records of the amount of water diverted and used to enable SWRCB to determine the amount of water that has been applied to beneficial use pursuant to Water Code section 1605.
- (B) The amount authorized for appropriation may be reduced in the license if investigation warrants.
- (C) Progress reports shall be submitted promptly by permittee when requested by the SWRCB until a license is issued.
- (D) Permittee shall allow representatives of the SWRCB and other parties, as may be authorized from time to time by said SWRCB, reasonable access to project works to determine compliance with the terms of this permit.
- (E) Pursuant to California Water Code sections 100 and 275, and the common law public trust doctrine, all rights and privileges under this permit and under any license issued pursuant thereto, including method of diversion, method of use, and quantity of water diverted, are subject to the continuing authority of SWRCB in accordance with law and in the interest of the public welfare to protect public trust uses and to prevent waste, unreasonable use, unreasonable method of use, or unreasonable method of diversion of said water.

The continuing authority of the SWRCB may be exercised by imposing specific requirements over and above those contained in this permit with a view to eliminating waste of water and to meeting the reasonable water requirements of permittee without unreasonable draft on the source. Permittee may be required to implement a water conservation plan, features of which may include but not necessarily be limited to (1) reusing or reclaiming the water allocated; (2) using water reclaimed by another entity instead of all or part of the water allocated; (3) restricting diversions so as to eliminate agricultural tailwater or to reduce return flow; (4) suppressing evaporation losses from water surfaces; (5) controlling phreatophytic growth; and (6) installing, maintaining, and operating efficient water measuring devices to assure compliance with the quantity limitations of

this permit and to determine accurately water use as against reasonable water requirements for the authorized project. No action will be taken pursuant to this paragraph unless the SWRCB determines, after notice to affected parties and opportunity for hearing, that such specific requirements are physically and financially feasible and are appropriate to the particular situation. The continuing authority of the SWRCB also may be exercised by imposing further limitations on the diversion and use of water by the permittee in order to protect public trust uses. No action will be taken pursuant to this paragraph unless the SWRCB determines, after notice to affected parties and opportunity for hearing, that such action is consistent with California Constitution Article X, Section 2; is consistent with the public interest; and is necessary to preserve or restore the uses protected by the public trust.

(F) The quantity of water diverted under this permit and under any license issued pursuant thereto is subject to modification by the SWRCB if, after notice to the permittee and an opportunity for hearing, the SWRCB finds that such modification is necessary to meet water quality objectives in water quality control plans which have been or hereafter may be established or modified pursuant to Division 7 of the Water Code. No action will be taken pursuant to this paragraph unless the SWRCB finds that (1) adequate waste discharge requirements have been prescribed and are in effect with respect to all waste discharges which have any substantial effect upon water quality in the area involved, and (2) the water quality objectives cannot be achieved solely through the control of waste discharges.

(G) This permit does not authorize any act which results in the taking of a threatened or endangered species or any act which is now prohibited, or becomes prohibited in the future, under either the California Endangered Species Act (Fish and Game Code sections 2050 to 2097) or the federal Endangered Species Act (16 U.S.C.A. sections 1531 to 1544). If a "take" will result from any act authorized under this water right, the permittee shall obtain authorization for an incidental take prior to construction or operation of the project. Permittee shall be responsible for meeting all requirements of the applicable Endangered Species Act for the project authorized under this permit.

***This permit is issued and permittee takes it subject to the following provisions of the Water Code:***

*Section 1390. A permit shall be effective for such time as the water actually appropriated under it is used for a useful and beneficial purpose in conformity with this division (of the Water Code), but no longer.*

*Section 1391. Every permit shall include the enumeration of conditions therein which in substance shall include all of the provisions of this article and the statement that any appropriator of water to whom a permit is issued takes it subject to the conditions therein expressed.*

*Section 1392. Every permittee, if he accepts a permit, does so under the conditions precedent that no value whatsoever in excess of the actual amount paid to the State therefor shall at any time be*

*assigned to or claimed for any permit granted or issued under the provisions of this division (of the Water Code), or for any rights granted or acquired under the provisions of this division (of the Water Code), in respect to the regulation by any competent public authority of the services or the price of the services to be rendered by any permittee or by the holder of any rights granted or acquired under the provisions of this division (of the Water Code) or in respect to any valuation for purposes of sale to or purchase, whether through condemnation proceedings or otherwise, by the State or any city, city and county, municipal water district, irrigation district, lighting district, or any political subdivision of the State, of the rights and property of any permittee, or the possessor of any rights granted, issued, or acquired under the provisions of this division (of the Water Code).*
