February 17, 1995

Mr. Ronald M. Duff
Associate WRC Engineer
Permit and License Unit
State Water Resources Control Board
Division of Water Rights
P.O. Box 2000
Sacramento, CA 95812-2000

Subject: Water Rights Reporting, El Dorado Irrigation District

Dear Mr. Duff:

Thank you for sending copies of the various reporting forms relating to the District's water rights. As indicated in your letter of January 12, 1995 to Mr. Frederick C. McKain, the information provided is based on the Division's automated database and doesn't include a comprehensive review of your files. A review of the District's water right files, however, shows that the information you provided is substantial in agreement with the District's records.

In order to bring the District's reporting requirements up-to-date, we have attached completed forms for the tri-annual periods dating back to 1989 for the following diversion facilities:

- a) South Fork American River - Supplemental Statements 1990-92
- b) North Fork Cosumnes River - Supplemental Statements 1992-94
- c) Clear Creek - Supplemental Statements 1992-94
- d) Slab Creek - Supplemental Statements 1994
- e) Weber Creek - Report of Licensee 1989-94
- f) Middle Fork Cosumnes River - Progress Report 1990-93

With regard to the Statement covering item d) Slab Creek, we have apparently overlooked this filing, or it has been misplaced. Please assign a Statement number for this diversion for future use if one has not been assigned previously.

In addition to the Statements, we have enclosed "Progress Reports By Permittee" covering years 1990 through 1993 for Application 007478, Middle Fork Cosumnes River. A report will be prepared for 1994 upon receipt of your mailing of the blank form.

Letter No. O0295-3066
February 17, 1995
Page 2 of 2

We are continuing to review our records for the remainder of the District's water rights and will forward the forms to you as soon as the information becomes available.

To assist the District in maintaining more timely submittals on water diversions and use, please send all future reporting forms to the undersigned at the above address. *

Thank you for your assistance in this matter.

Sincerely,

EL DORADO IRRIGATION DISTRICT

Ron Jones
Director, Operations and Maintenance

C&D, G.1.a., G.1.b "see attached"

GENERAL INFORMATION PERTAINING TO WATER RIGHTS IN CALIFORNIA

There are two principal types of surface water rights in California. They are riparian and appropriative rights.

A riparian right enables an owner of land bordering a natural lake or stream to take and use water on his riparian land. Riparian land must be in the same watershed as the water source and must never have been severed from the sources of supply by an intervening parcel without reservation of the riparian right to the severed parcel. Generally, a riparian water user must share the water supply with other riparian users. Riparian rights may be used to divert the natural flow of a stream but may not be used to store water for later use or to divert water which originates in a different watershed, water previously stored by others, return flows from use of groundwater, or other "foreign" water to the natural stream system.

An appropriative right is required for use of water on non-riparian land and for storage of water. Generally, appropriative rights may be exercised only when there is a surplus not needed by riparian water users. After the formation of the California Water Commission back on December 19, 1914, new appropriators have been required to obtain a permit and license from the State. Appropriative rights can be granted to waters "foreign" to the natural stream system.

Statements of Water Diversion and Use must be filed by riparian and pre-1914 appropriative water users as set forth in Water Code section 5100 with specific exceptions. The filing of a statement (1) provides a record of water use, (2) enables the State to notify such users if someone proposes a new appropriation upstream from their diversions, and (3) assists the State to determine if additional water is available for future appropriators.

The above discussion is provided for general information. For more specific information concerning water rights, please contact an attorney or write to this office. We have several pamphlets available. They include: (1) Statements of Water Diversion and Use, (2) Information Pertaining to Water Rights in California, and (3) Appropriation of Water in California.

- C & D These values have been estimated, existing gage is not functioning properly.
- G.1.a. The District is currently implementing water conservation best management practices, including all urban measures reported in our Urban Water Management Plan 2005 Update; and all agricultural measures reported in our USBR Five-Year Water Management Plan Update.
- G.1.b Reduction/substitution volumes are District-wide , and not attributable solely to this right.

Mr. Walter Pettit
Chief
State Water Resources Control Board
P.O. Box 2000
Sacramento, CA 95812-2000

Subject: Statement of Water Diversion and Use
North Fork Cosumnes River Diversion to Crawford Ditch
Clear Creek Diversion to Crawford Ditch

Dear Mr. Pettit:

This is in response to the request by Mr. W. Rowlands to replace our September 13, 1990 Statement of Water Diversion and Use relating to the subject Diversion with your newly revised form (WR-40-9/90). Apparently our original submittal used a form now out of date. We have completed the information requested and have also provided you with maps showing the point of diversion (Exhibit A) on the N.F. Cosumnes River and the place of use (Exhibit C) as required by items D and J of the Statement.

Mr. Rowlands also requested that the District submit a separate statement covering diversions from Clear Creek, which also diverts water into the District's Crawford Ditch system. This diversion has been in service since about 1852 and supplies water to 22 customers, year round, when water is available. Supplemental releases are made from previously stored water in Jenkinson Lake when flows in Clear Creek are insufficient to meet demands. Water deliveries will also be made to the Clear Creek ditch segment (of the Crawford Ditch System) from the N.F. Cosumnes River diversion, once the Camp Creek siphon is placed back into service. This siphon together with other portions of the ditch system are currently undergoing repairs to improve flow and reduce losses. The attached map (Exhibit B) shows the location of the point of diversion on Clear Creek.

As in the case of the previously submitted information on the historic operation of the N.F. Cosumnes diversion, we have based our Statement of water Diversion and Use for the Clear Creek Diversion on interviews with District employees and persons familiar with the operation of Crawford ditch over the past 40 to 50 years. During recent times we have also collected recorded data from the Parshall Flume installed at the headworks of the Clear Creek diversion. The rate of diversion has varied throughout the year from a low of 0.5 cfs to 21 cfs.

Letter No. E0990-487
September 27, 1990
Page 2 of 2

The attached Statement has been prepared on the basis of an average rate of diversion of 15 cfs. The monthly flow amounts have also been adjusted to simulate as close as possible to the actual diversions occurring, based on water availability and system demands.

We believe the attached information complies with Mr. Rowlands' request. However, if additional information is needed, please contact the undersigned at (916) 622-4534.

Sincerely,

EL DORADO IRRIGATION DISTRICT

Frederick C. McKain
Director, Resource Planning and Development

 STATEMENT OF WATER DIVERSION AND USE

(This is not a Water Right)
 This statement should be typewritten or legibly written in ink.

A. Name of person diverting water El Dorado Irrigation District (EID)
 Address 2890 Mosquito Road, Placerville, CA 95667
 Telephone: (916) 622-4534

B. Water is used under: _____ Riparian claim; x Pre 1914 right; _____ Other (explain)

C. Name of body of water at point of diversion North Fork Cosumnes River
 Tributary to Cosumnes River

D. Place of diversion NE 1/4 NW 1/4 Section 18, Township 9N, Range 13E, MD B&M,
El Dorado County, or locate it on sketch of section grid on reverse side
 with regard to section lines or prominent local landmarks. Name of works _____
North Fork Extension of Crawford Ditch - North Fork Cosumnes & Steely Fork

E. Do you own the land at the point of diversion? YES NO

F. Capacity of diversion works 15 ^{cubic feet per second} _{gallons per minute} Capacity of storage reservoir _____ ^{gallons} _{acre-feet}

Type of diversion facility: Gravity x, Pump _____

Method of measurement: Weir _____, Flume x, Electric Meter _____, Water Meter _____, Estimate _____

G. State quantity of water used each month in gallons or acre-feet

Year	Jan.	Feb.	March	April	May	June	July	Aug.	Sept.	Oct.	Nov.	Dec.	Total Annual
1912													
1987	0	0	0	416	922	857	738	486	405	584	411	0	4819

If monthly and annual use are not known, check months in which water was used. State extent of use in units, such as acres of each crop irrigated, average number of persons served, number of stock watered, etc.

H. Annual water use in recent years: Maximum 922 Minimum 411 ^{gallons} _{acre-feet}

I. Purpose of use (what water is being used for) Irrigation & Domestic

J. General description or location of place of use (use sketch of section grid on reverse if you desire) El Dorado Irrigation District Service Area - Exhibit C

K. Year of first use as nearly as known 1854

L. Name of person filing statement Frederick C. McKain

Position: Director, Resource Planning & Development Organization: EID

Address: 2890 Mosquito Road, Placerville, CA 95667 Telephone: (916) 622-4534

I declare under penalty of perjury that the above is true and correct to the best of my knowledge and belief

Dear Mr. McKain:

STATEMENTS OF WATER DIVERSION AND USE - NUMBERS S13501 AND S13502

Your statements of water diversion and use have been received and assigned the above numbers. You should refer to these numbers in any correspondence to this office regarding the statements.

A copy of each statement is enclosed for your records.

Please notify us of any change in address or change in ownership.

The law requires that supplemental statements be filed at three-year intervals, and we will send you the necessary forms.

If you have any questions or concerns, feel free to contact the Division of Water Rights at (916) 324-5624 and a staff engineer in the Application Section will be available to assist you.

Thank you for your cooperation.
