DIV. OF WATER RIGHTS

2010 JUN 29 AM 11:02

INITIAL STATEMENT OF WATER DIVERSION AND USE
NOTE: A Statement is not a Water Right

This Statement should be typewritten or legibly written in ink and submitted to the address above.
A separate statement must be filed for each point of diversion.

An (*) indicates a required section. Required sections must be completed for the Statement to be accepted.

*A. Claimant/Agent Information

Claimant/Owner:	Agent:
Provident Irrigation District	J. Mark Atlas
Mailing Address 258 South Butte Street	Mailing Address 332 W. Sycamore Street
Willows, CA 95988	Willows, CA 95988
Phone No. (530) 934-4801	Phone No. (530) 934-5416
Fax No. (530) 934-3066	Fax No. (530) 934-3508
E-mail Address:	E-mail Address: jma@jmatlaslaw.com

*B. Water is diverted and used under the claim of: Riparian claim Pre 1914 claim Court Decree No _____
Note, if you have an application on file for a water right or have an existing license, please provide your application number _____
Other (explain): _____

*C. Name of the body of water at the point of diversion
Sacramento River

Tributary to _____

*D. Point of diversion is located within Glenn County on Assessor's Parcel No. _____
being within the _____ 1/4 of _____ 1/4 of Section _____, of Township _____, Range _____, _____ B&M.

Provide the location of the point of diversion using the California Coordinate System (NAD 1983) or Latitude / Longitude measurements.
Same as Sacramento River POD in Application 30813

Identify the point of diversion and outline the place of use on a United States Geological Survey (USGS) topographic map and submit the map with the Statement.

Name of the diversion works is PGCID/PID Pumping ^{Plant} Related Water Right(s) A462;A640;A892;A30813

E. Do you own the land at the point of diversion? Yes No If No, please provide the name and address of the land owner at the point of diversion: _____

*F. Capacity of diversion works 305 cfs (PID share) (cfs, gpm, or gpd) Capacity of storage tanks or reservoir _____ (gallons or acre-feet)

Type of diversion facility: Gravity Creek Pump Well Pump

Method of measurement: Weir Flume In line flow meter Electric Meter Estimate

NOTE: #Monthly report below is optional until January 1, 2012, at which time the information becomes mandatory.

#Provide the maximum rate of diversion achieved in each month in the table below as measured in: cfs gpm or gpd

Year	Jan	Feb	Mar	Apr	May	June	July	Aug	Sept	Oct	Nov	Dec

*G. Provide the quantity of water diverted each month in the table below as measured in: Gallons Million gallons Acre-feet

Year	Jan	Feb	Mar	Apr	May	June	July	Aug	Sept	Oct	Nov	Dec	Total Annual

H. Annual water use in recent years: Maximum _____ (gallons or acre-feet) Minimum _____ (gallons or acre-feet)

State the year of first use at diversion site or storage facility by 1903 _____

*I. Beneficial water use is for: (example, number of acres and type of crop irrigated, average number of persons served, number of stock watered, etc.) Irrigation

*J. General description and location of the place of use shall be identified using a USGS topographic map, or if assigned, may be provided using the public land description to the nearest 40 acre parcel accompanied by the County Assessor's parcel map.
Approximately 7,500 acres within PID boundaries

K. Please answer only those questions below that are applicable to your project.

1. Conservation of water

a. Describe any water conservation efforts you have in place _____

2. Water quality and wastewater reclamation

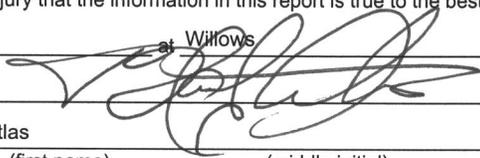

a. Are you now or have you been using reclaimed water from a wastewater treatment facility, desalination facility or water polluted by waste to a degree that unreasonably affects such water for other beneficial uses? YES NO

3. Conjunctive use of surface water and groundwater

a. Are you using groundwater in lieu of surface water? YES NO

I declare under penalty of perjury that the information in this report is true to the best of my knowledge and belief.

*DATE: June 28, 2010 _____ at Willows, California

*SIGNATURE: 

*PRINTED NAME: J. Mark Atlas
(first name) (middle initial) (last name)

COMPANY NAME: Agent and Attorney for claimant

GENERAL INFORMATION PERTAINING TO WATER RIGHTS IN CALIFORNIA

There are two principal types of surface water rights in California. They are riparian and appropriative rights.

A riparian right enables an owner of land bordering a natural lake or stream to take and use water on his riparian land. Riparian land must be in the same watershed as the water source and must never have been severed from the source of supply by an intervening parcel without reservation of the riparian right to the severed parcel. Generally, a riparian water user must share the water supply with other riparian users. Riparian rights may be used to divert the natural flow of a stream but may not be used to 1) store water for later use 2) divert water which originates in a different watershed 3) divert water released from storage, or 4) divert return flows from groundwater use.

An appropriative right is required for use of water on non-riparian land and for storage of water. Generally, appropriative rights may be exercised only when there is a surplus not needed by riparian water users. After the formation of the California Water Commission in December 1914, new appropriators have been required to obtain a permit or license from the State.

Statements of Water Diversion and Use must be filed by a riparian and/or pre-1914 appropriative water user. The filing of a statement 1) provides a record of water use, 2) enables the State to notify such users if someone proposes a new appropriation upstream from their diversion, and 3) assists the State in determining if additional water is available for future appropriators.

The above discussion is provided for general information. For more specific information concerning water rights, please visit the website http://www.waterboards.ca.gov/waterrights/water_issues/programs/diversion_use/, or write to this office.

Additional copies of this form and water right information can be obtained at www.waterboards.ca.gov/waterrights.

DIV. OF WATER RIGHTS

September 1, 2011

Kelly Garver
State Water Resources Control Board
P.O. Box 2000
Sacramento, CA 95812

Re: Princeton-Codora-Glenn ID
Provident ID (DEF: 207)
2010 Statements of Water Diversion and Use

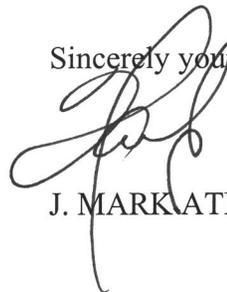

Dear Kelly:

Enclosed are color copies of maps depicting the district boundaries of each of the above-captioned irrigation districts. As you can see from the maps, the two districts parallel one another in southern Glenn County and northern Colusa County. They also share a pumping plant located at Sidds Landing. That is the Point of Diversion, and is shown both on the map and, by an asterisked footnote of the approximate longitude and latitude noted on the map.

I believe these maps address the request you made in your May 18, 2011 deficiency letter regarding Provident ID. You and I previously discussed the fact that, given the similarity of the two districts and their Statements of Water Diversion and Use, and the joint location of their Point of Diversion, we should anticipate addressing the same deficiency with respect to Princeton-Codora-Glenn ID. We have done that here.

If you have any questions about this, please do not hesitate to call me. Thank you.

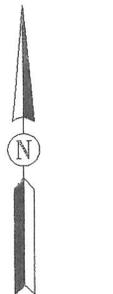

Sincerely yours,

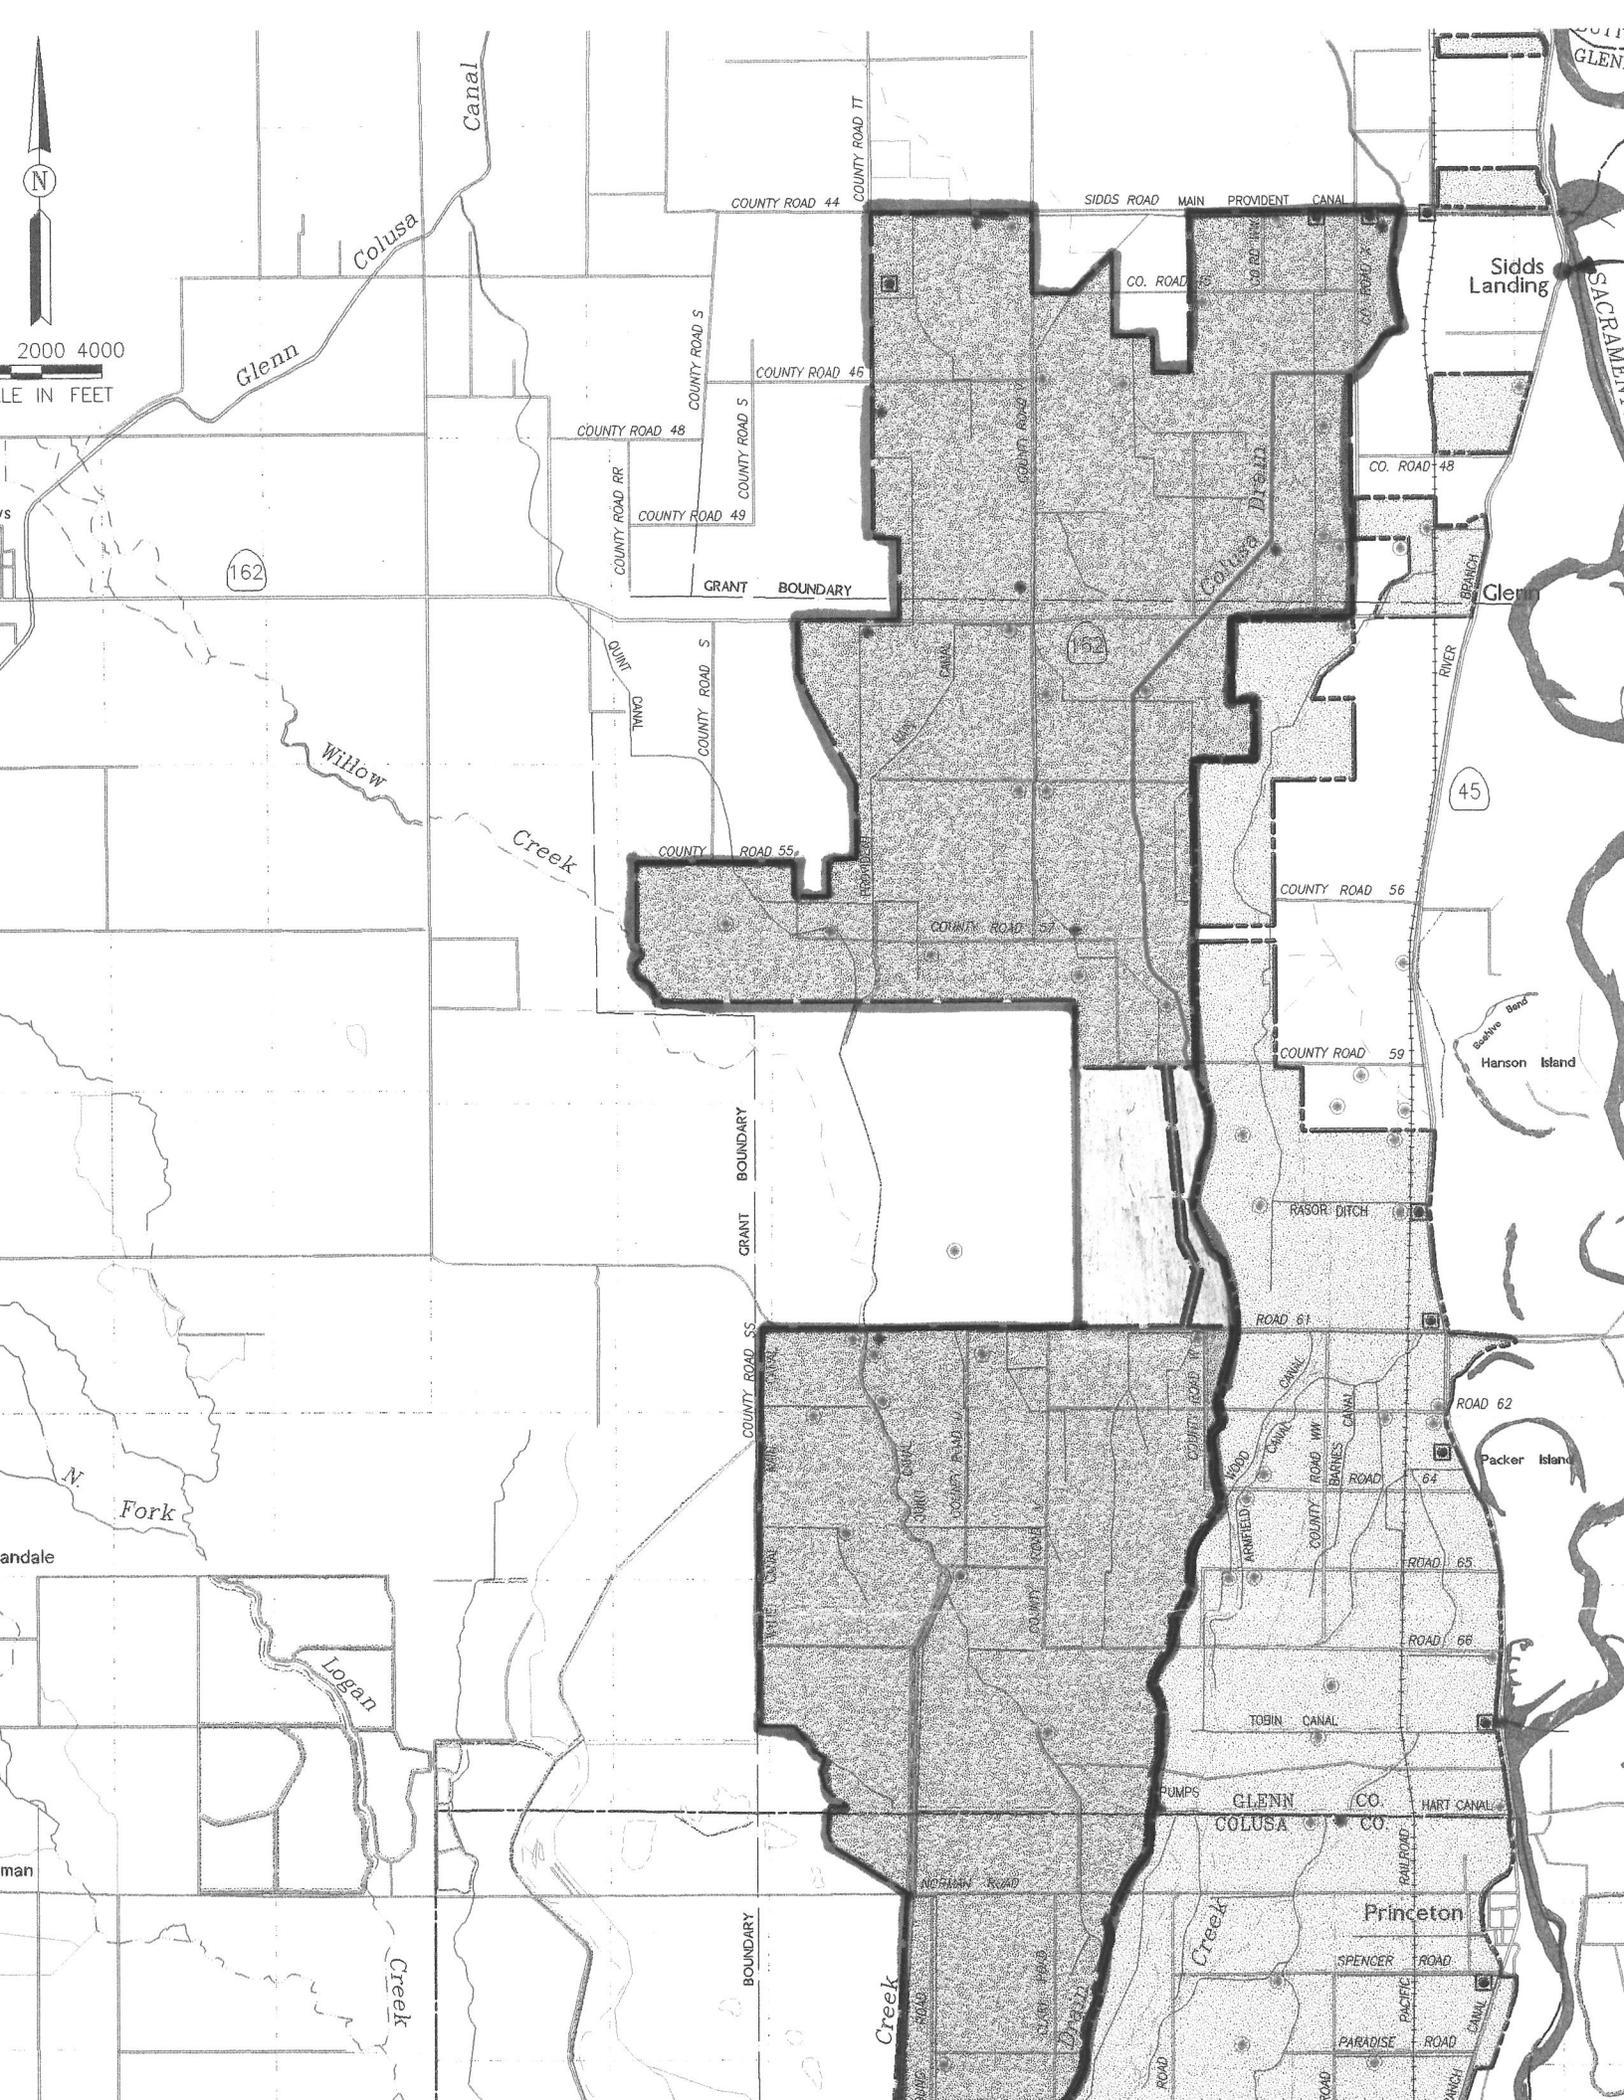

J. MARK ATLAS
